SETUP A · TALKING TO CAMERA

"Comment DEMO" ad, Blake's optometry version

Main ad

35 SECONDS

HOOK "Doctors, your front desk is about to have its busiest month of the year. Here's how to survive it."

PROBLEM "December is benefits season. Patients are calling to use their vision benefits before they reset, phones are ringing, frames are waiting in the pickup drawer, and recalls are slipping."

SOLUTION "Adit puts your phones, texting, reminders, reviews and payments in one place, so your team answers every call and every patient gets a text before they ever have to call you."

OFFER "And for Black Friday, Adit is up to 40% off your first year, plus a $200 Amazon gift card."

CTA "Comment DEMO and I'll send you the link to grab your spot. It takes 60 seconds."

15-second cut

STORIES + FACEBOOK GROUPS

"Black Friday deal for practices: up to 40% off Adit's first year plus a $200 Amazon gift card. Phones, texting, reviews and reminders in one place. Comment DEMO and I'll send you the link."

3 alternate hooks

FILM EACH, TEST IN ADS

1. "If your phones ring more than your team can answer, watch this."
2. "Your patients have unused vision benefits. Here's how to fill your schedule with them before Dec 31."
3. "The only Black Friday deal I'd actually tell an OD about."

Director notes

Energy up, smile on the offer line. Hold up the phone on "every patient gets a text". Pause 1 beat after "Comment DEMO" so we can add the on-screen arrow. Film the CTA twice: once pointing down, once pointing to the side.
