HOW TO EDIT · BREAKDOWN 01 · LOGO REVEAL

The logo reveal. Built from water.

A 10 second brand sting for O2 Doctor. Macro water footage, black letterforms used as masks, and a half second flicker of stone textures that resolves into the wordmark. Use this whenever a client needs an intro or outro that feels like their brand, not a template.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Extra Branded Video #1: O2 Doctor, Dra Ahn (Video 1 of 13)
FORMAT	9:16 vertical · 2160×3840 · 23.976 fps
RUNTIME	0:10
MADE FOR	Intro or outro sting for Dr. Ahn's O2 Doctor brand

10s	12	0.46s	3.7s
total runtime	cuts, most under 1 second	the color flicker run	final logo hold

WHAT TO STEAL

What makes it feel premium

Short, monochrome, built from real texture. The logo is earned at the end.

Black and white on purpose

Every water shot is graded to near monochrome. The **one burst of color** (teal stone, marble, pebbles) lasts under half a second, so it hits hard.

Letters as windows

The letterforms are **masks, not titles**. Water shows through them, so the brand and the footage become one thing.

Fast build, slow landing

Eleven cuts in 6.7 seconds, then a **3.7 second hold** on the wordmark. Never end a sting on a fast cut.

Do not use stock motion templates

No generic logo-reveal plugins. Build it from the client's own textures and type so it cannot be mistaken for anyone else.

THE STRUCTURE

Tease, flicker, land

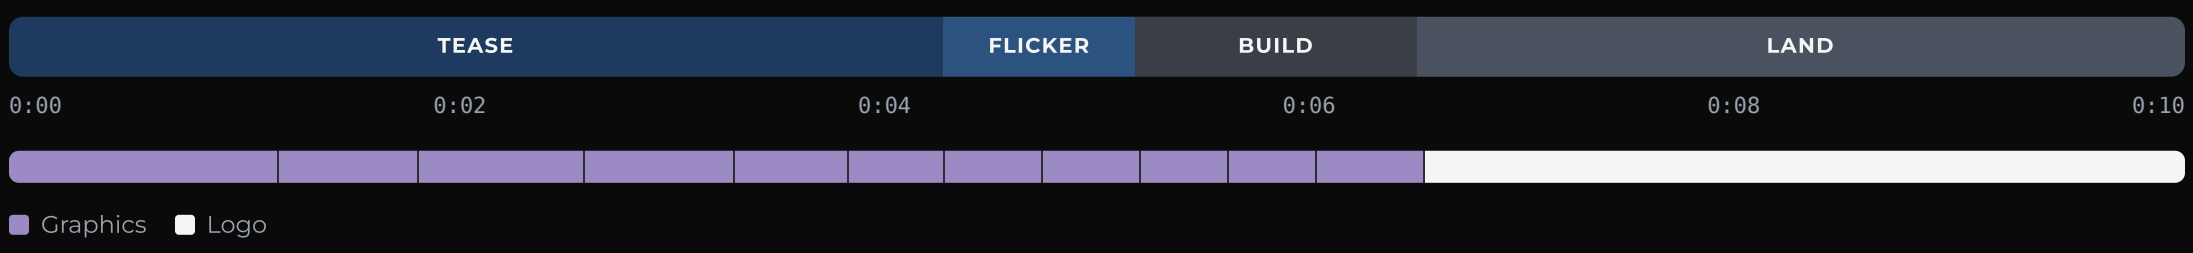

Three beats in ten seconds.

Tease
0:00–0:04
Macro water with letter masks wiping through.

Flicker
0:04–0:05
Stone and marble textures, two to three frames each.

Build
0:05–0:07
Arcs and rings form the O and C.

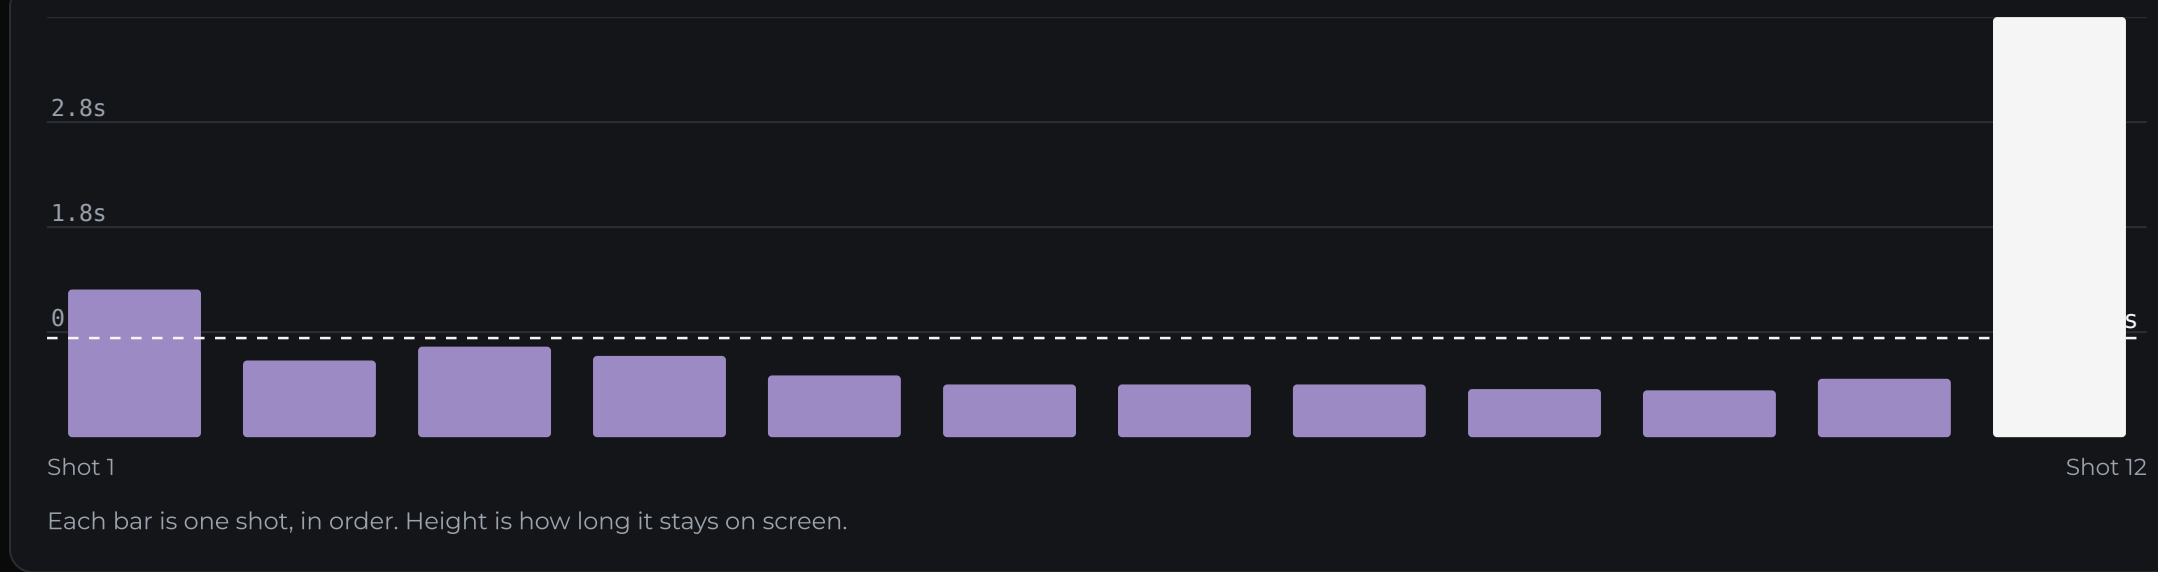

Land
0:07–0:10
O_2DOCTOR assembles and holds.

PACE

Under a second per cut, then stop

The build cuts about every 0.6 seconds. The landing holds six times longer.

Each bar is one shot, in order. Height is how long it stays on screen.

12
shots in 0:10

0.9s
average shot (median 0.5s)

0.4s
fastest: shot 10

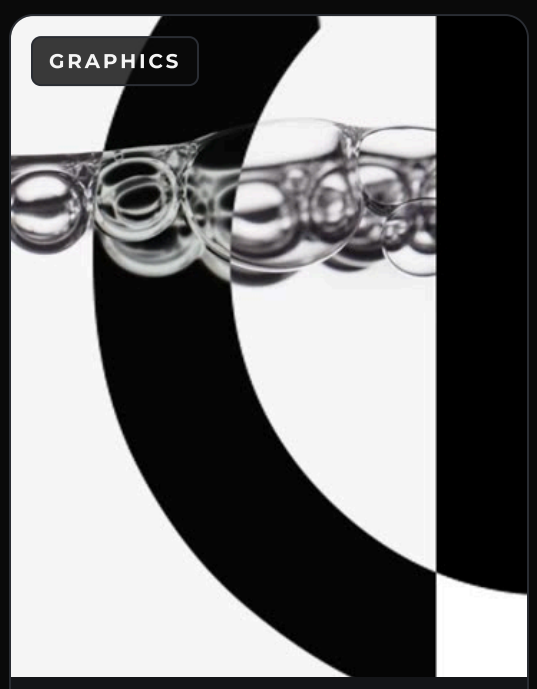

3.7s
longest hold: shot 12

- The only long hold is the logo. That contrast is what makes the logo feel important.
- If you lengthen this sting, add more letter beats, not longer shots.

SHOT BY SHOT

12 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

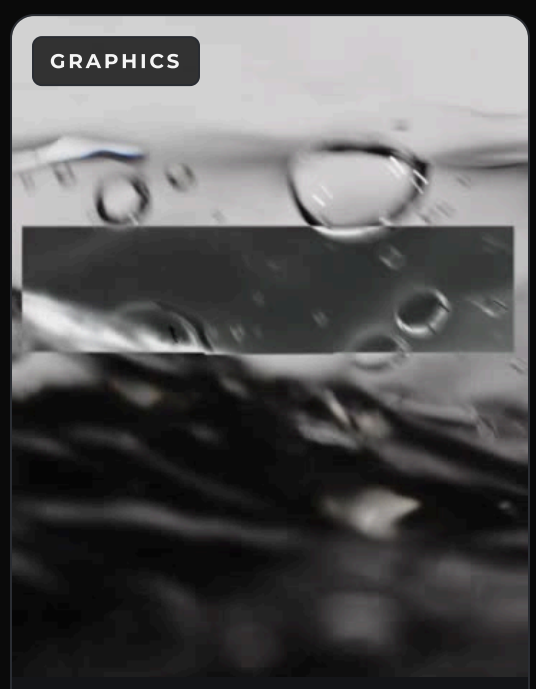

01 0:00.0–0:01.3 · 1.3s

Bubble line + first letter mask

CAMERA
Macro water, a single line of bubbles across a white field.

EDIT
A black letter shape wipes on as a mask over the water.

WHY IT WORKS
Opens on texture, not on a logo. You want to know what it is.

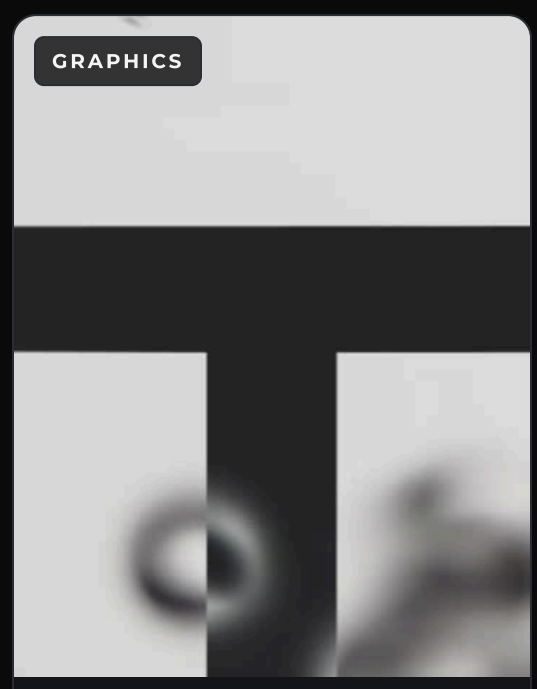

02 0:01.3–0:02.0 · 0.7s

Wave through the "T"

CAMERA
Macro water surface moving across frame.

EDIT
Letter shape cuts the frame, the water shows through it.

WHY IT WORKS
The brand is built out of the footage itself.

03 0:02.0–0:02.8 · 0.8s

Bubble behind the "T"

CAMERA
Soft bubble drifting in shallow focus.

EDIT
Heavy black bar letterform slides through.

WHY IT WORKS
Each cut is under a second. Rhythm over information.

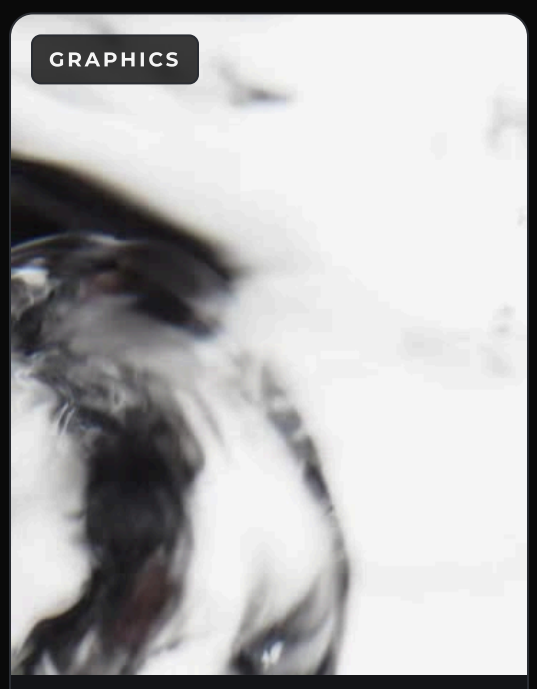

04 0:02.8–0:03.5 · 0.7s

Wave crest

CAMERA
Dark wave crest rolling left to right.

EDIT
Plain cut, no graphic. A breath between letters.

WHY IT WORKS
Gives the eye one clean frame before the next shape.

05 0:03.5–0:04.0 · 0.5s

Bubble + "R" mask

CAMERA
Large bubble rising through white water.

EDIT
"R" letterform masks in over the bubble.

WHY IT WORKS
Shapes keep entering from a new direction each time.

06 0:04.0–0:04.5 · 0.5s

"R" over water, stone flash

CAMERA
Water moving inside the letter.

EDIT
Ends on a single frame of grey stone texture.

WHY IT WORKS
The stone frame is the first flicker. It hints at what is coming.

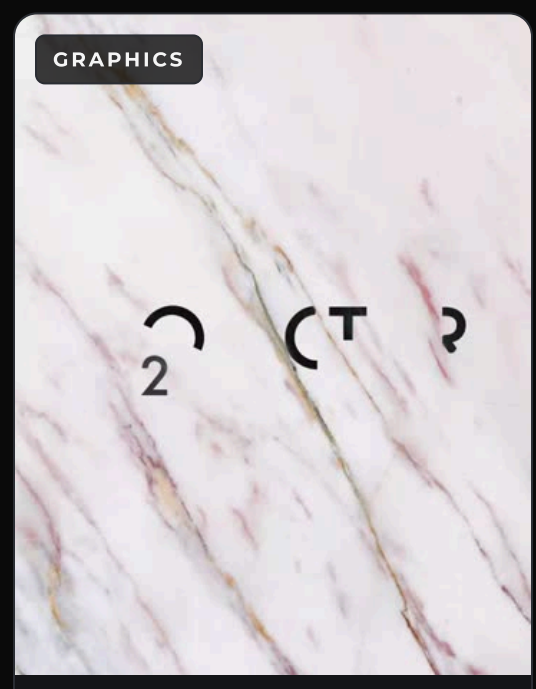

07 0:04.5–0:04.9 · 0.5s

Texture flicker: teal stone, marble, pebbles

CAMERA
Still textures: teal stone, white marble, river pebbles.

EDIT
Two to three frames each, a hard flicker run.

WHY IT WORKS
The only color in the piece, for less than half a second. Pure energy.

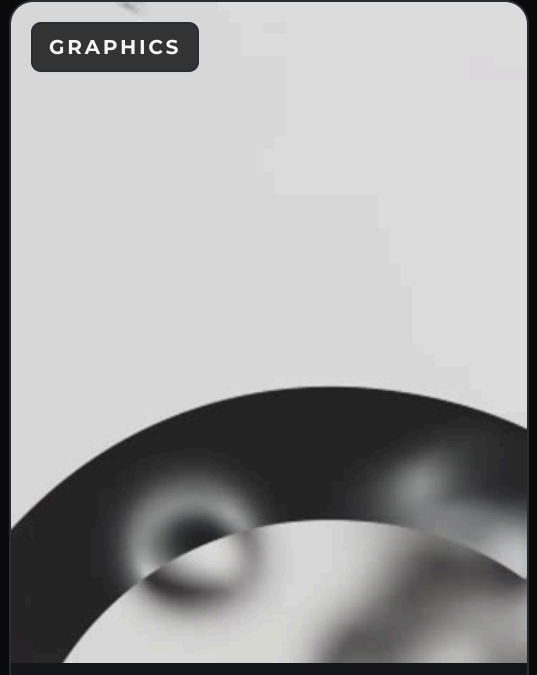

08 0:04.9–0:05.4 · 0.5s

Texture flicker into the wordmark

CAMERA
Blue stone and marble textures.

EDIT
Wordmark letters start to appear through the textures.

WHY IT WORKS
The flicker resolves into the name.

09 0:05.4–0:05.8 · 0.4s

Bubble + "C" arc

CAMERA
Bubble in soft focus.

EDIT
Big "C" arc rises from the bottom of frame.

WHY IT WORKS
Back to black and white after the color burst.

10 0:05.8–0:06.2 · 0.4s

Wave under the "C"

CAMERA
Wave crest across the bottom.

EDIT
Arc holds as a frame within the frame.

WHY IT WORKS
Letterforms act as windows into the water.

11 0:06.2–0:06.7 · 0.5s

Ring of "O"s

CAMERA
Water rushing through.

EDIT
Two ring shapes overlap the water.

WHY IT WORKS
The "O" in O2 lands as a ring of water.

12 0:06.7–0:10.4 · 3.7s

O2 DOCTOR wordmark

CAMERA
Slow macro water with bubbles drifting.

EDIT
O_2DOCTOR assembles letter by letter, then holds about 3 seconds.

WHY IT WORKS
The only long hold in the piece. Fast build, calm landing.

COLOR GRADE

Near monochrome, one color burst

The water is graded almost black and white. Saturation lives only in the half second of stone textures.

Monochrome water

Shots 1 to 6, 9 to 12

Brightness	0.58
Warmth	0.00
Saturation	0.01

- Pull saturation almost to zero.
- Keep whites clean and bright, blacks rich.
- Contrast high, so the bubbles read as shapes.

Texture burst

Shots 7 and 8

Brightness	0.63
Warmth	0.00
Saturation	0.24

- Leave the stone textures in color.
- Teal and cool marble, no warm tones.
- On screen for under half a second total.

- This is the one video where the grade is cool and graphic instead of warm cream. It is a sting, not a story.

MUSIC CHOICE

Sound design over music

A sting lives on hits, not melody. Every mask wipe gets a sound, the logo gets the biggest one.

123 BPM
estimated tempo of the mix

4/11
cuts land within 2 frames of a beat (about 34% would by chance)

- The loudest moments land at about 1.3s, 3.3s, 5.3s, 6.8s and 9.0s, lining up with the letter wipes and the wordmark.
- Choose water textures, whooshes and one low impact for the logo. No vocals, no full song.
- Let the last 1.5 seconds decay to silence so it can lead into the next video cleanly.

SOUND ENGINEERING

Loud and punchy, but it clips

-12.1 LUFS
integrated loudness (social platforms play back around -14)

+1.2 dBTP
true peak (over 0, it will clip; limit to -1)

9.7 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- This export peaks **above 0 dBTP**. On some phones that distorts. Put a true peak limiter at -1 dBTP on the master.
- Target for Instagram, TikTok and YouTube: about **-14 LUFS integrated, true peak under -1 dBTP**. Louder than that gets turned down by the app anyway and can clip on the way.
- The sound decays to silence by the end: good. Never let a sting cut off mid sound.

DRONE, TRANSITIONS, FLICKERS

Every flicker, timestamped

No drone in this one. All the energy comes from flicker frames and letter masks.

0:03.4	FLICKER	Single **dark frame** of grey stone between water shots.
0:04.5	FLICKER	Teal stone, marble, pebbles: **2 to 3 frames each**.
0:04.8	FLASH	Brightness spike as marble cuts in.
0:05.1	FLASH	Second spike as the wordmark starts to show.
0:06.7	LOGO	Wordmark assembles, holds to the end.

CAPTIONS AND TYPOGRAPHY

One wordmark, used as shape

- Letterforms are **giant and cropped**, used as masks and wipes before you can read them.
- The real wordmark only appears in the last 3.7 seconds, centered, small and clean.
- No taglines, no captions. A sting is a picture, not a sentence.

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **Monochrome grade** on the water, one short color burst only
- [ ] **Letters used as masks**, not plain titles
- [ ] **Build cuts under 1 second**, final hold 3 seconds or more
- [ ] **Flicker frames** 2 to 3 frames each, no longer
- [ ] **Sound hits** on the mask wipes and the logo landing
- [ ] **Loudness:** about -14 LUFS, true peak under -1 dBTP
- [ ] **Export:** 4K vertical, plus a 1:1 version if it opens other videos

HOW TO EDIT · BREAKDOWN 02 · TEASER

The teaser. One shot, four cards.

A 15 second announcement made from one continuous shot of moving fabric and four type cards. No people, no clinic, just mood and a date. Use this format when a client has something coming and nothing to show yet.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Extra Video #2: Aviara Aesthetic Story (Video 2 of 13)
FORMAT	9:16 vertical · 2160×3840 · 29.97 fps
RUNTIME	0:15
MADE FOR	Pre-launch teaser for the Beverly Hills location

15s	1	4	0
total runtime	continuous background shot	type cards	people on screen

WHAT TO STEAL

Why it works with nothing to show

The fabric does the job of the footage: it moves, it feels soft, it feels expensive.

Texture instead of footage

One slow-moving fabric plate carries the whole video. It matches the **curtain end card** we use on every Aviara video.

Mix serif and script

Clean serif for the information, **handwritten script** for the emotional word: "Beverly Hills", "Fall".

One idea per card

Each card says one thing. Place, brand, promise, date. Never stack two ideas on one card.

No hard cuts

Cards fade and write on over the same background. A hard cut would break the calm.

THE STRUCTURE

Place, brand, promise, date

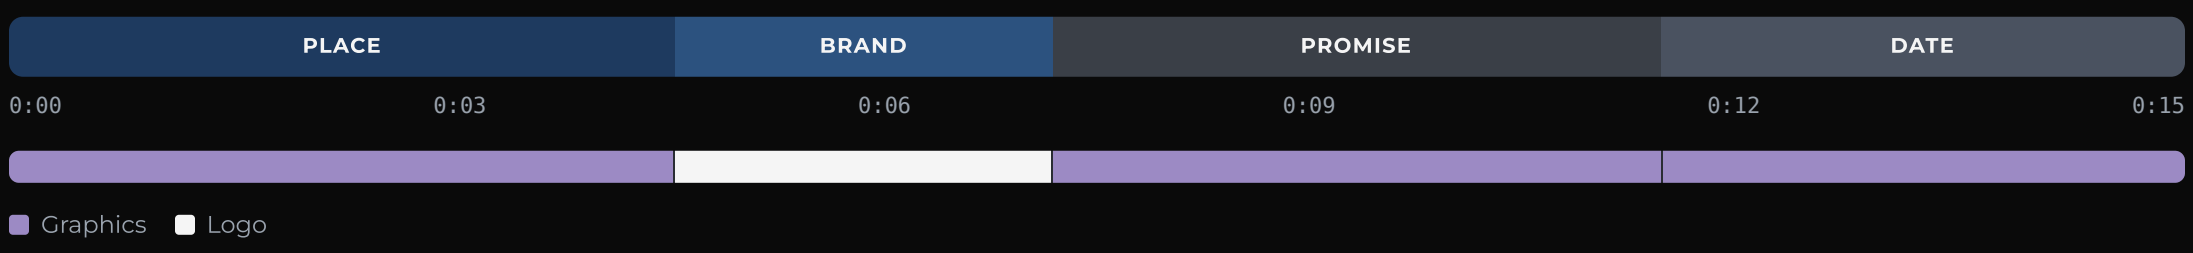

Four cards, each about 3.5 seconds.

Place
0:00–0:05
Something special is coming to Beverly Hills.

Brand
0:05–0:07
The Aviara logo, alone.

Promise
0:07–0:11
Beauty, wellness and innovation.

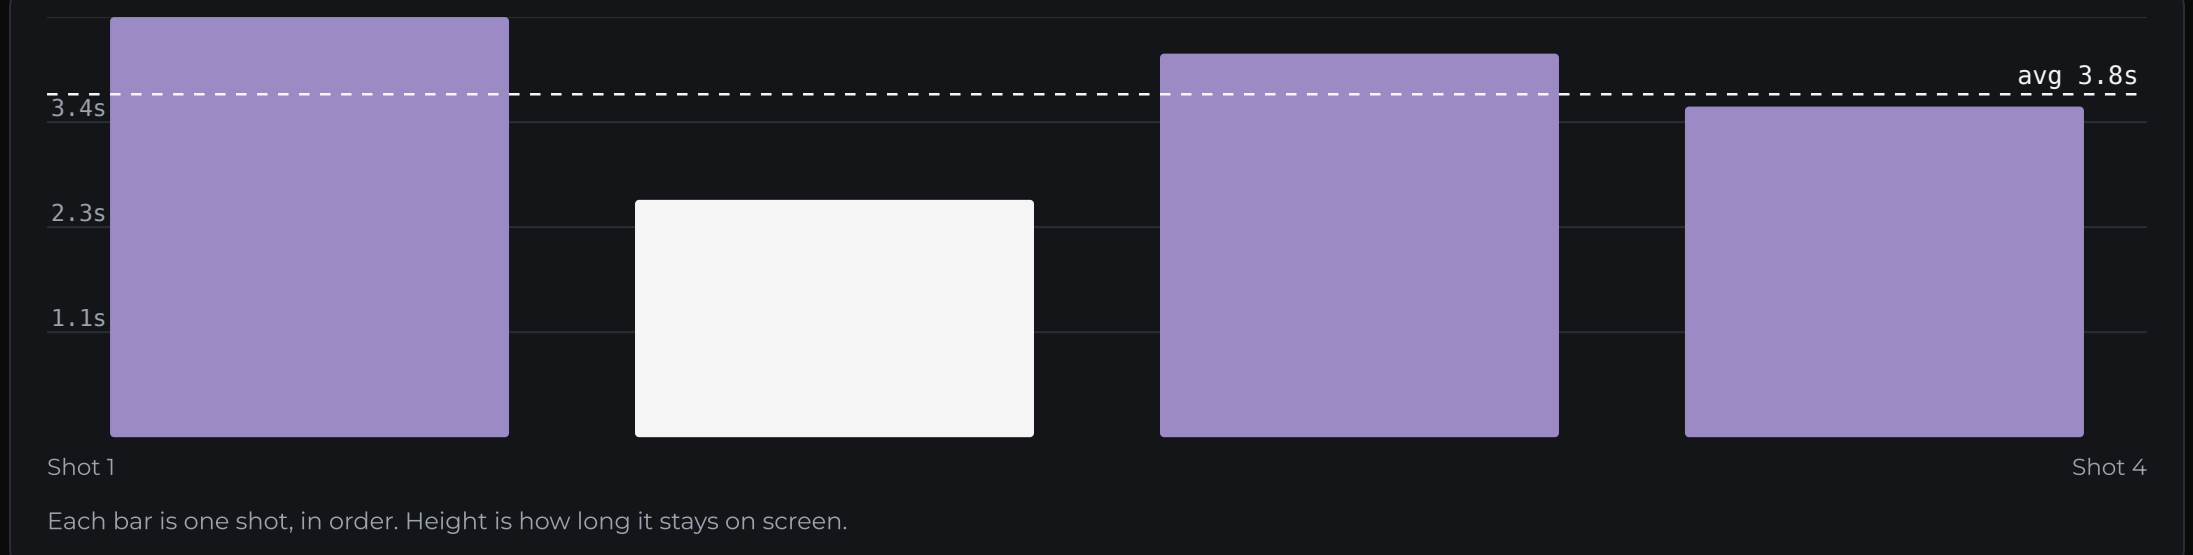

Date
0:11–0:15
Coming Fall 2026.

PACE

Card length, not cut length

There are no cuts. Each bar below is how long a type card holds.

Each bar is one shot, in order. Height is how long it stays on screen.

4
shots in 0:15

3.8s
average shot (median 4.2s)

2.6s
fastest: shot 2

4.6s
longest hold: shot 1

- Every card gets 2.5 to 4.6 seconds. Enough to read twice.
- Cards change on the music's beat, roughly every 2.3 seconds.

SHOT BY SHOT

4 type cards over one shot

The background never cuts. Each clip below is one type card.

01 0:00.0–0:04.6 · 4.6s

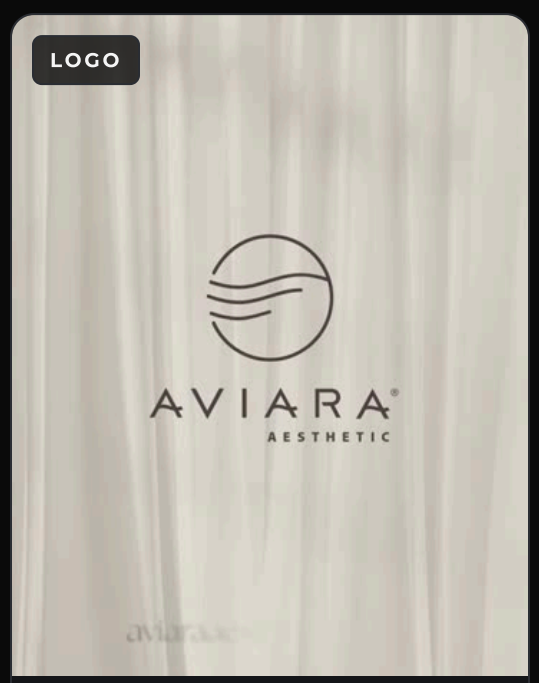

Card 1: Beverly Hills

"Something special is coming to Beverly Hills"

CAMERA
Locked frame of flowing cream fabric, moving slowly.

EDIT
Serif headline with "Beverly Hills" in a handwritten script, written on stroke by stroke.

WHY IT WORKS
The script word feels personal, like a signature.

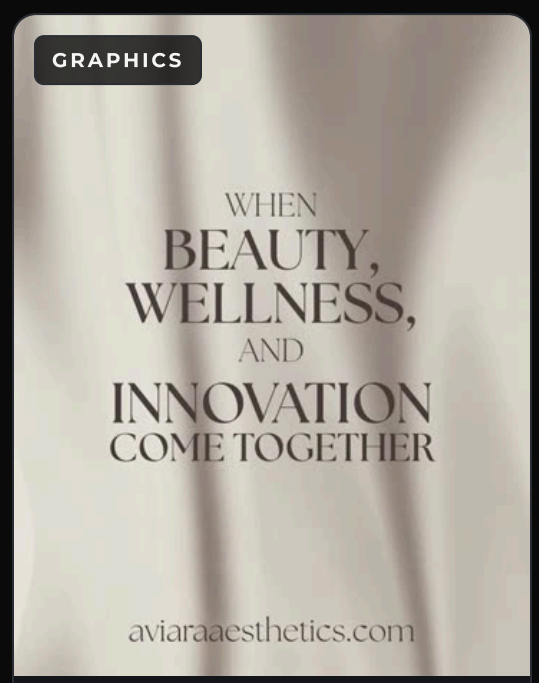

02 0:04.6–0:07.2 · 2.6s

Card 2: the logo

CAMERA
Same fabric, still moving.

EDIT
Aviara logo fades in and out, small and centered.

WHY IT WORKS
The brand gets its own card with nothing else on it.

03 0:07.2–0:11.4 · 4.2s

Card 3: the promise

"When beauty, wellness, and innovation come together"

CAMERA
Fabric continues.

EDIT
Stacked serif lines with small connector words, website URL locks at the bottom.

WHY IT WORKS
The URL stays put from here on, so viewers can find it any time.

04 0:11.4–0:15.0 · 3.6s

Card 4: the date

"Coming Fall 2026"

CAMERA
Fabric continues to the end.

EDIT
"Fall" in large script between small serif lines, "2026" in big serif.

WHY IT WORKS
Ends on the one thing to remember: when.

COLOR GRADE

Cream on cream

Almost no contrast and almost no color. The whole frame lives in a narrow band of warm taupe.

Warm fabric

Whole video

Brightness		0.76
Warmth		0.06
Saturation		0.08

- Keep the fabric in the upper mids: no true black, no pure white.
- Warm, slightly desaturated taupe.
- Text color is pulled from the darkest fabric fold.

MUSIC CHOICE

Steady, bright, on the beat

The track is the only thing moving with energy, so it has to be steady.

136 BPM
estimated tempo of the mix

0/3
cuts land within 2 frames of a beat (about 38% would by chance)

- The strongest hits land about every 2.3 seconds, which is the rhythm the cards change on.
- Pick a track with a clear, even pulse and no lyrics, so it does not fight the words on screen.

SOUND ENGINEERING

Loud and flat

-9.7 LUFS
integrated loudness (social platforms play back around -14)

+0.6 dBTP
true peak (over 0, it will clip; limit to -1)

1.1 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- This one is mixed hot, around -10 LUFS, with almost no dynamic range. Platforms will turn it down. Mix to -14 instead and keep the peaks under -1 dBTP.
- There is no voice, so the music can sit at full level the whole way.

DRONE, TRANSITIONS, FLICKERS

Every transition

No drone, no flickers. Only slow dissolves and one write-on.

0:01.0	WRITE-ON	"Beverly Hills" script writes on stroke by stroke.
0:04.6	DISSOLVE	Script fades out as the logo fades up.
0:07.2	DISSOLVE	Logo out, promise lines in, URL locks at the bottom.
0:11.4	DISSOLVE	Promise out, date card in.

CAPTIONS AND TYPOGRAPHY

Serif plus script

- **Serif** (all caps, tight) for the information lines.
- **Script** for one emotional word per card, much larger than the serif.
- Small lowercase connector words ("is coming to", "and") sit between the big lines.
- Color: warm taupe text on cream fabric. No white text, no shadows.

SOMETHING SPECIAL *Beverly Hills* COME TOGETHER *Fall* 2026

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **One background plate**, slow motion, no cuts
- [ ] **One idea per card**, 2.5 to 4.5 seconds each
- [ ] **Script word** for emotion, serif for information
- [ ] **URL** locked in place once it appears
- [ ] **Dissolves** only, no hard cuts
- [ ] **Loudness:** about -14 LUFS, true peak under -1 dBTP

Watch every shot playing at edit.puroflowmedia.com

HOW TO EDIT · BREAKDOWN 03 · WEBSITE LOOP

The website loop.
Four shots, no sound.

A 26 second muted loop for the top of Dr. Ahn's website. Four long, calm, horizontal shots. No text, no music, nothing that fights the headline that will sit on top of it.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Website Asset: Dr. Ahn (Video 3 of 13)
FORMAT	16:9 horizontal · 3840×2160 · 24 fps
RUNTIME	0:26
MADE FOR	Background video behind the website hero section

26s	4	6.5s	0
loops forever	shots	average hold	text or sound

WHAT TO STEAL

Rules for anything behind a headline

A background video has one job: make the page feel alive without stealing attention.

Long holds

Four shots in 26 seconds. **Every shot holds 4.5 to 8.7 seconds** so nothing flickers behind the text.

Symmetry and space

Corridors and clean walls leave **room for the headline** on the left or center.

Loop-ready ending

The walk toward camera ends close to where the hero portrait starts, so the restart is not a jump.

No text, no audio

Websites autoplay muted. Any caption or logo burned in will clash with the site's own type.

THE STRUCTURE

Hello, listen, treat, arrive

Four beats that tell the visit in order.

Hello
0:00–0:04
Portrait in the hallway.

Listen
0:04–0:11
Consultation.

Treat
0:11–0:17
Treatment.

Arrive
0:17–0:26
Walk toward camera, loop.

PACE

Slow on purpose

Compare this to the reels: four times slower.

Each bar is one shot, in order. Height is how long it stays on screen.

4
shots in 0:26

6.5s
average shot (median 6.5s)

4.5s
fastest: shot 1

8.7s
longest hold: shot 4

- For a website loop, aim for 4 to 9 seconds a shot.
- Do not add speed ramps or flash transitions. Plain cuts only.

SHOT BY SHOT

4 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

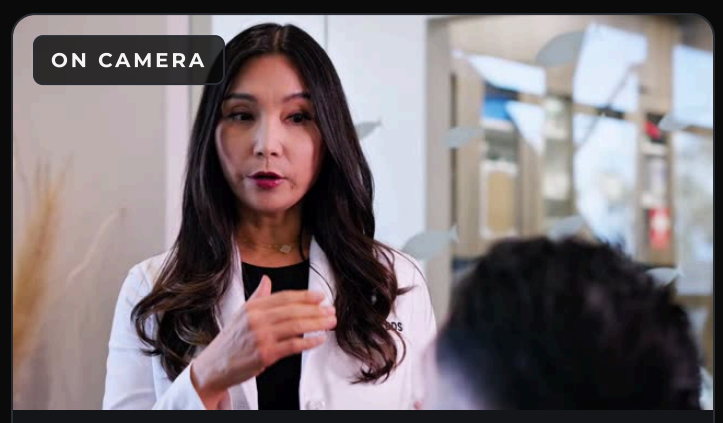

01 0:00.0–0:04.5 · 4.5s

Hero portrait in the hallway

CAMERA
Wide, locked off, eye level. Dr. Ahn stands arms crossed in a bright corridor, glass walls on both sides.

EDIT
Holds 4.5 seconds, no text.

WHY IT WORKS
A confident first frame that works behind any website headline.

02 0:04.5–0:11.0 · 6.5s

Consultation over the shoulder

CAMERA
Medium, a patient's head soft in the right foreground, Dr. Ahn talking and gesturing.

EDIT
Holds 6.5 seconds.

WHY IT WORKS
Foreground shoulder makes it feel like a real conversation, not a pose.

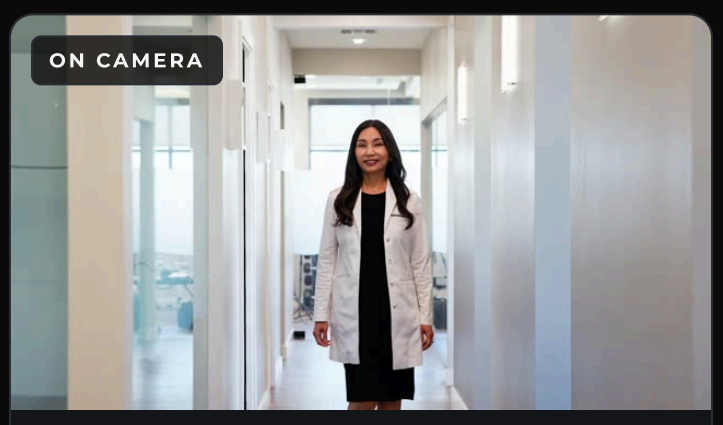

03 0:11.0–0:17.3 · 6.4s

Treatment in progress

CAMERA
Medium wide, patient and doctor both in laser glasses, handpiece in use.

EDIT
Holds 6.4 seconds.

WHY IT WORKS
Shows the work itself, calm and clinical.

04 0:17.3–0:26.0 · 8.7s

Walk toward camera

CAMERA
Wide, symmetrical hallway, she walks toward the lens from the far end.

EDIT
Longest hold, 8.7 seconds, ends close so it can loop back to shot 1.

WHY IT WORKS
A walk-in is the most natural loop point there is.

COLOR GRADE

Clean clinical white

Bright, neutral and clean. Whites stay white, skin stays natural.

Bright clinic

All four shots

Brightness	0.65
Warmth	0.01
Saturation	0.13

- High key: lift the whites until the glass walls glow.
- Keep skin warm and natural even though the room is cool.
- Low contrast so the headline on top stays readable.

MUSIC CHOICE

No music

This one plays muted on the website, so there is no track at all.

None
no music track

Muted
autoplay on the website

- If you ever need a version with sound, cut a separate social edit. Keep the website file silent.

SOUND ENGINEERING

Silent by design

Silent
no audio track, built to loop muted

0
sound cues to place

- Export this file with no audio track at all, not just a silent one. It keeps the file smaller and stops some browsers from blocking autoplay.

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **4 to 9 second shots**, plain cuts
- [ ] **No burned-in text**, no logo bug
- [ ] **Loop test:** play the end into the start and check the jump
- [ ] **Room for a headline:** keep the left or center clean
- [ ] **Export with no audio track**
- [ ] **Compress** to under 10 MB for the web (1080p H.264)

Watch every shot playing at edit.puroflowmedia.com

HOW TO EDIT · BREAKDOWN 04 · BRAND INTRO

The brand intro. 28 seconds, 15 shots.

The first reel that introduces Aviara and Dr. Ahn. A walk-and-talk on a Beverly Hills street, two drone shots, quick lifestyle cutaways for the three pillars, renders of the future space and the curtain logo card. Every key word gets a graphic.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #1: Dr. Ahn, Beverly Hills (Video 4 of 13)
FORMAT	9:16 vertical · 2160×3840 · 24 fps
RUNTIME	0:28
MADE FOR	First introduction of Aviara and Dr. Ahn on social

28s	15	1.9s	5
total runtime	shots	average shot	white flash transitions

WHAT TO STEAL

What to steal from this one

A short reel can carry a lot of ideas if every idea gets its own picture.

Key word, key graphic

Every important word gets a **small animated icon**: underline, columns, lungs, heart, a meditating figure, sparkles.

Cutaways for abstract words

"Optimal", "health" and "longevity" are **one word, one stock shot, under a second each**.

Flash to change worlds

Each white flash moves us to a new world: street, aerial, lifestyle, renders, logo.

Keep icons small

Icons sit under or beside the caption, never over her face. If an icon covers her, move it.

THE STRUCTURE

Welcome, who we are, why, what's next

Five beats in 28 seconds.

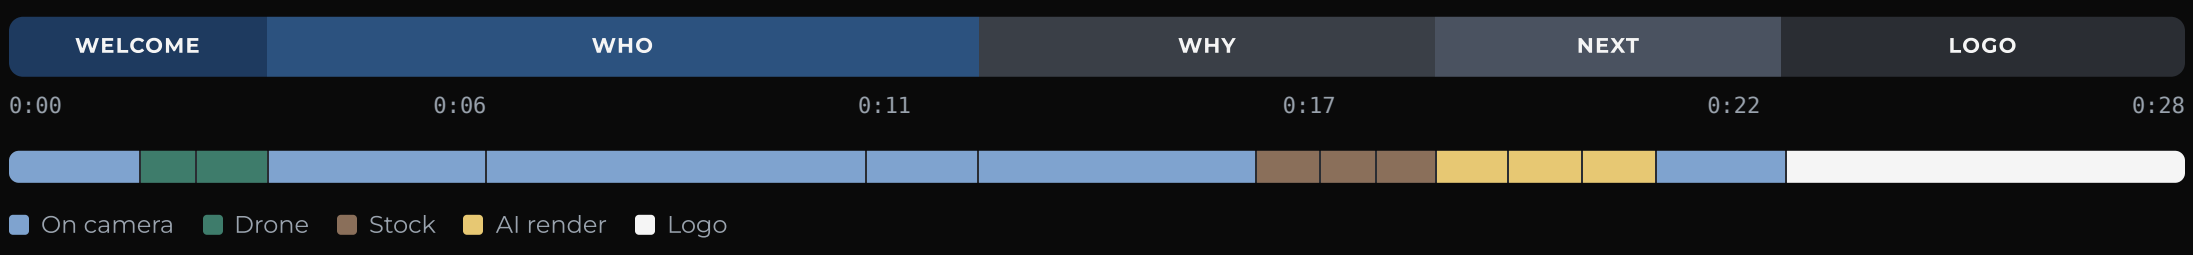

Welcome
0:00–0:03
Walk-in and two drone shots with the logo.

Who
0:03–0:12
Aesthetics built on airway, lifestyle and emotional balance.

Why
0:12–0:18
The three pillars, shown as lifestyle cutaways.

Next
0:18–0:23
Renders of the new space.

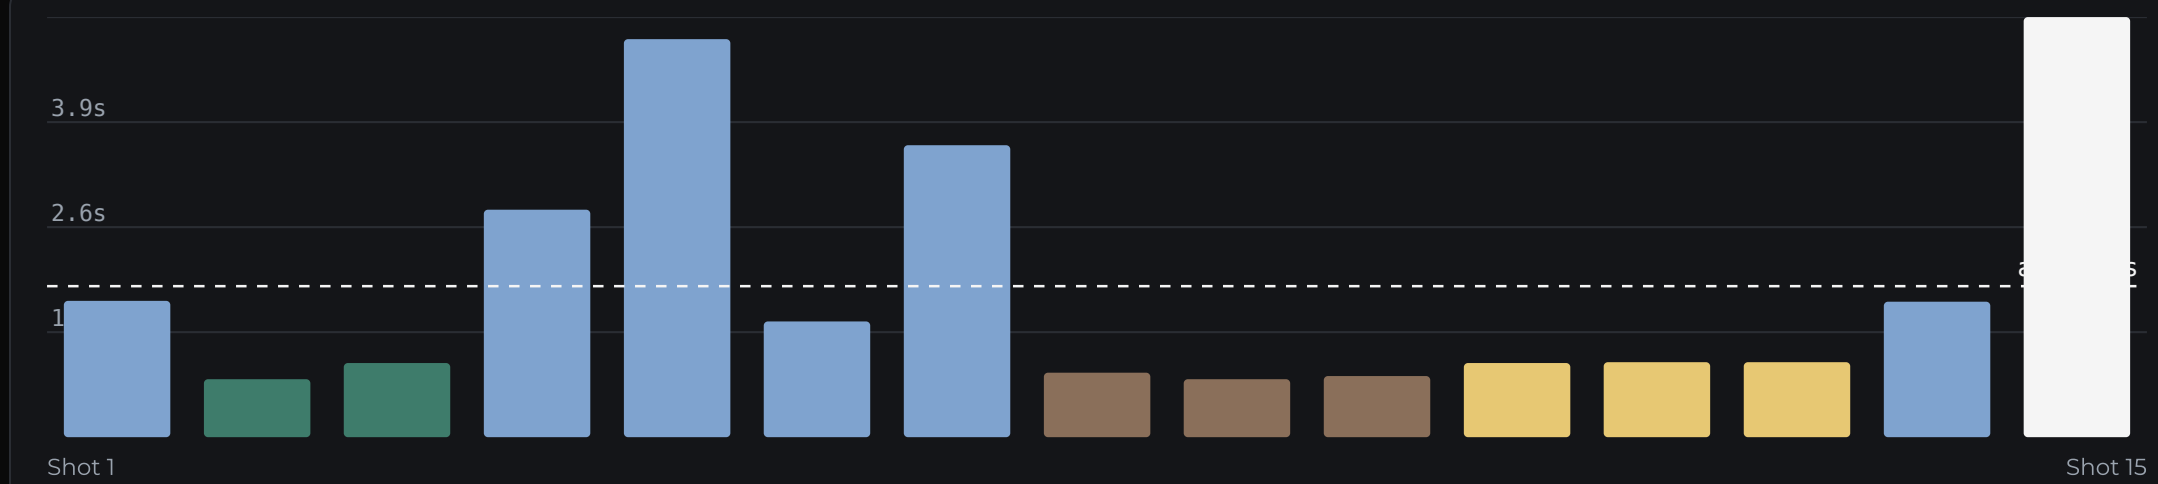

Logo
0:23–0:28
Stay tuned, logo card.

PACE

Fast in the middle

Talking shots hold 3 to 5 seconds, cutaways and renders drop under one second.

Each bar is one shot, in order. Height is how long it stays on screen.

15
shots in 0:28

1.9s
average shot (median 0.9s)

0.7s
fastest: shot 2

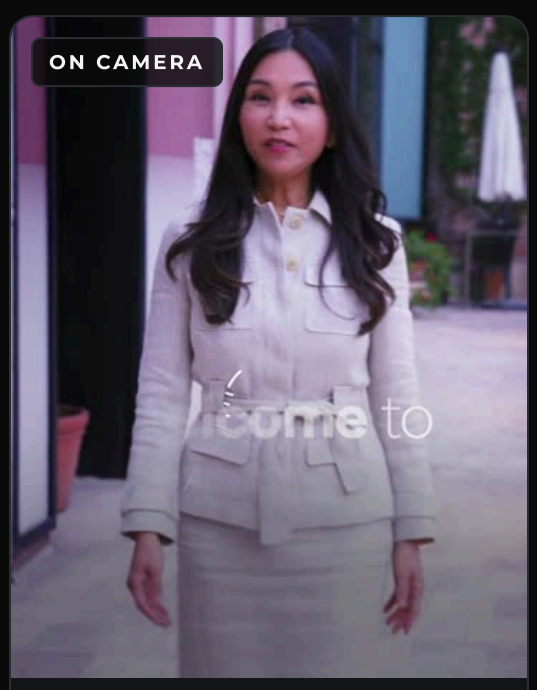

5.1s
longest hold: shot 15

- The run from 15.9s to 21s is six cuts in five seconds. That is the energy peak.
- The logo card holds 5 seconds, the longest shot.

SHOT BY SHOT

15 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:01.7 · 1.7s

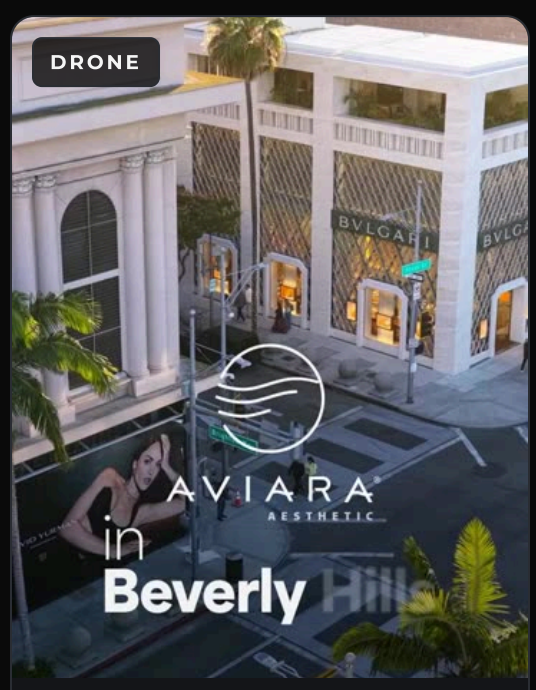

Walk-in: welcome

"Welcome to"

CAMERA
Medium wide on a Beverly Hills sidewalk at dusk, she walks toward the gimbal and stops.

EDIT
Captions start on her first word.

WHY IT WORKS
A walk-in is the fastest way to say "come with me".

02 0:01.7–0:02.4 · 0.7s

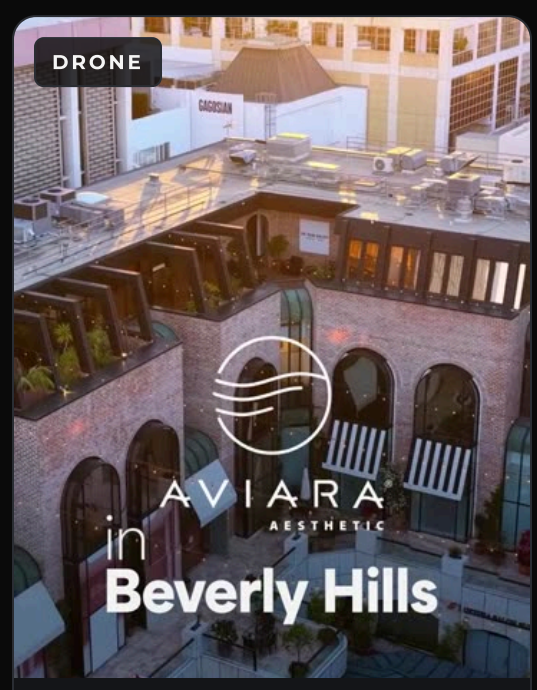

Drone: the building

"Aviara in Beverly Hills"

CAMERA
Drone looking down on the building's Spanish style courtyard.

EDIT
Logo and "in Beverly Hills" super over the drone.

WHY IT WORKS
Name plus place in under a second.

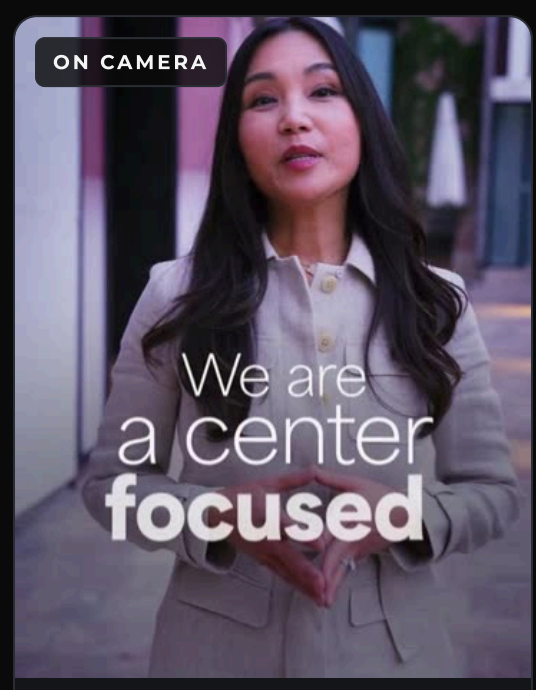

03 0:02.4–0:03.3 · 0.9s

Drone: golden hour courtyard

CAMERA
Closer drone angle on the courtyard in warm light.

EDIT
Ends on a bright warm light leak.

WHY IT WORKS
The flash carries us from aerial back to her.

04 0:03.3–0:06.1 · 2.8s

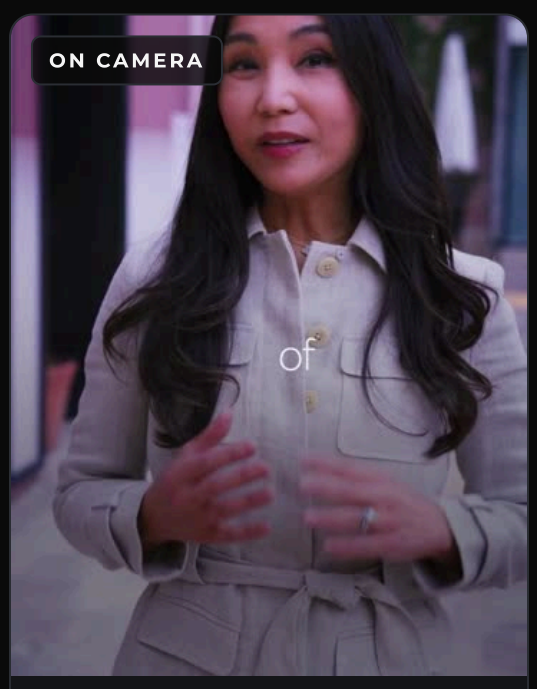

Medium: what Aviara is

"We are a center focused on aesthetics"

CAMERA
Medium, centered but lit by the colored street light, soft background.

EDIT
Animated underline wipes across "aesthetics".

WHY IT WORKS
A small motion graphic on the key word keeps the eye busy.

05 0:06.1–0:11.0 · 4.9s

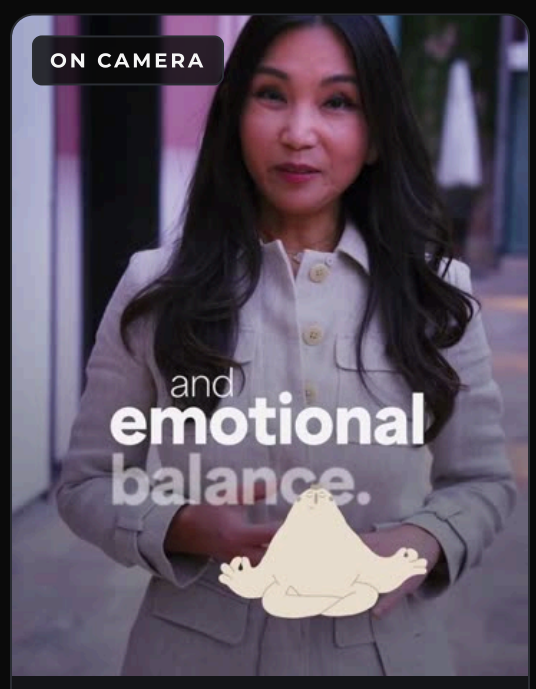

Medium: the foundation

"that is built on the foundation of optimal airway, lifestyle"

CAMERA
Same setup, she speaks with her hands.

EDIT
Each pillar gets an icon: columns, lungs, a heart.

WHY IT WORKS
Icons make the three pillars easy to remember.

06 0:11.0–0:12.4 · 1.4s

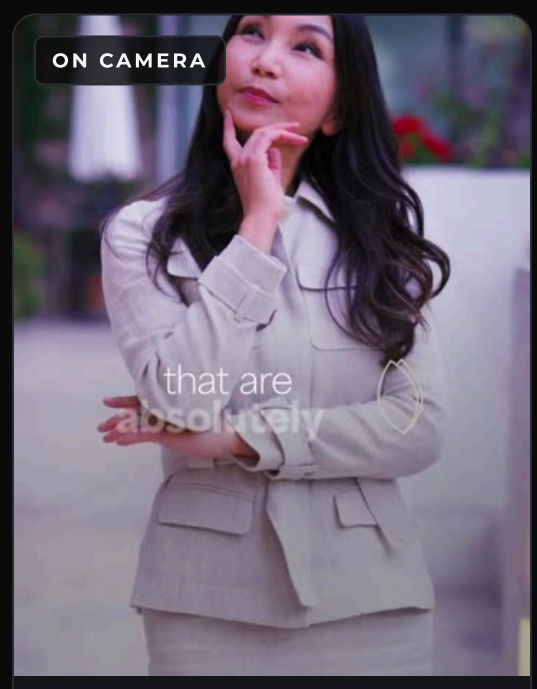

Medium: emotional balance

"and emotional balance."

CAMERA
Same setup.

EDIT
Animated meditating figure pops in under the caption.

WHY IT WORKS
A playful icon breaks up a serious line.

07 0:12.4–0:16.0 · 3.6s

Thinking pose: three pillars

"The three pillars that are absolutely essential"

CAMERA
Opens on a flash, then a new angle: she looks up, hand at her chin.

EDIT
Sparkles on "three pillars", "essential" in warm gold.

WHY IT WORKS
A new pose for a new idea. Never hold one framing too long.

08 0:16.0–0:16.8 · 0.8s

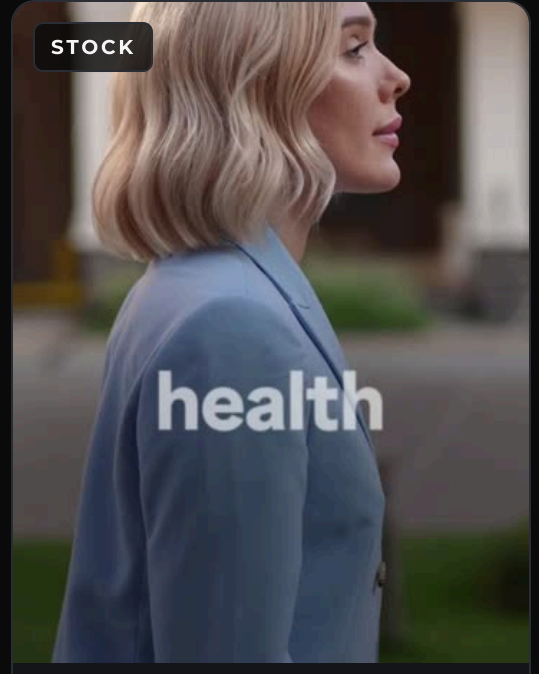

Lifestyle: woman walking

"optimal"

CAMERA
Low angle tracking shot of a woman walking past a modern building.

EDIT
Flash in, one word caption.

WHY IT WORKS
Fast lifestyle cutaways turn the words into pictures.

09 0:16.8–0:17.5 · 0.7s

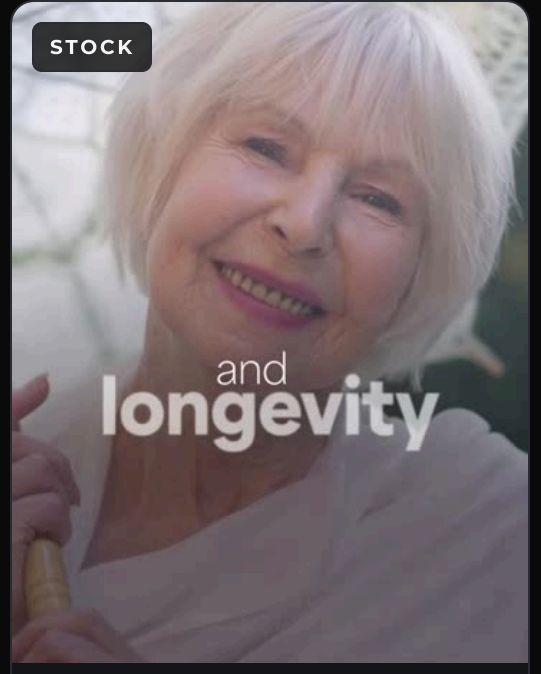

Lifestyle: profile

"health"

CAMERA
Profile portrait in a garden.

EDIT
One word caption.

WHY IT WORKS
Each cutaway is under a second, one word each.

10 0:17.5–0:18.2 · 0.8s

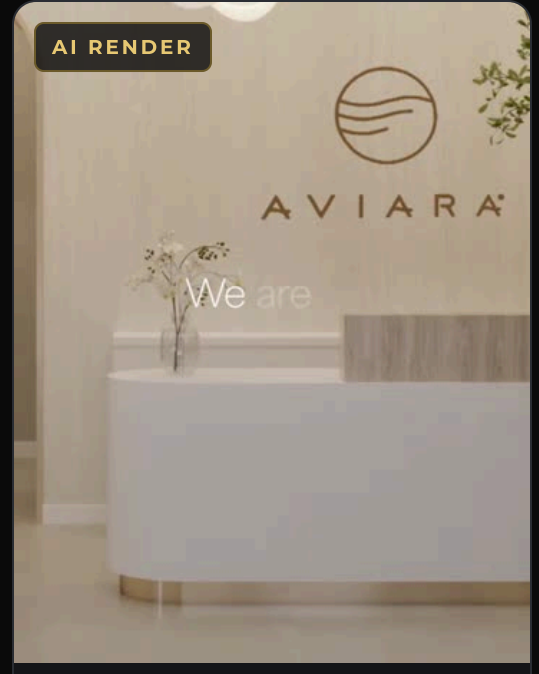

Lifestyle: smiling senior

"and longevity"

CAMERA
Close smiling portrait, warm sunlight.

EDIT
Ends on a white flash.

WHY IT WORKS
Longevity gets the warmest, happiest face.

11 0:18.2–0:19.1 · 0.9s

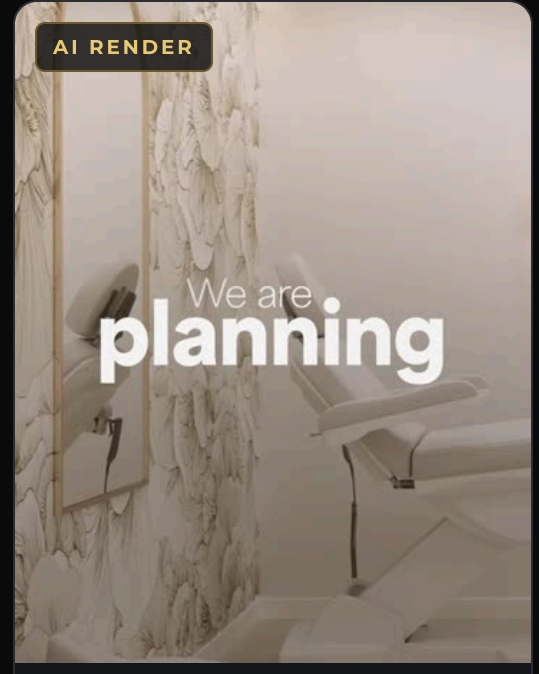

Render: the reception

"We are planning"

CAMERA
Render of the Aviara reception desk and logo wall.

EDIT
Caption builds word by word.

WHY IT WORKS
Shows the future space while she talks about it.

12 0:19.1–0:20.0 · 0.9s

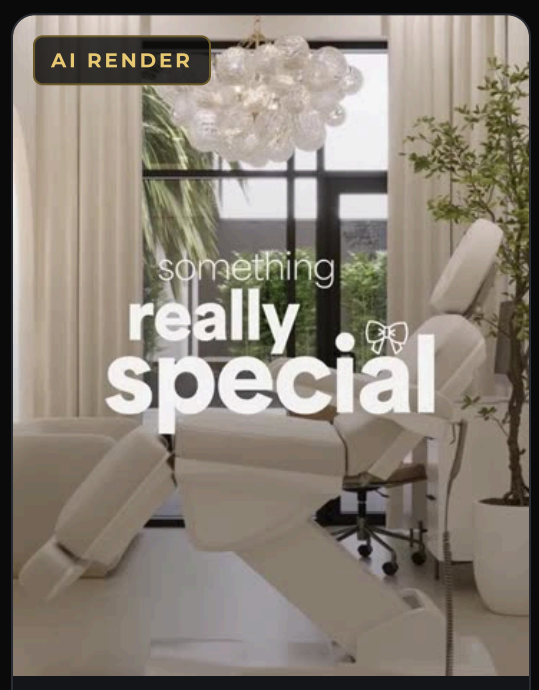

Render: treatment room

"something"

CAMERA
Render of a treatment chair with marble wall.

EDIT
Fast cut, under a second.

WHY IT WORKS
Renders cut fast here, unlike the tour.

13 0:20.0–0:21.0 · 0.9s

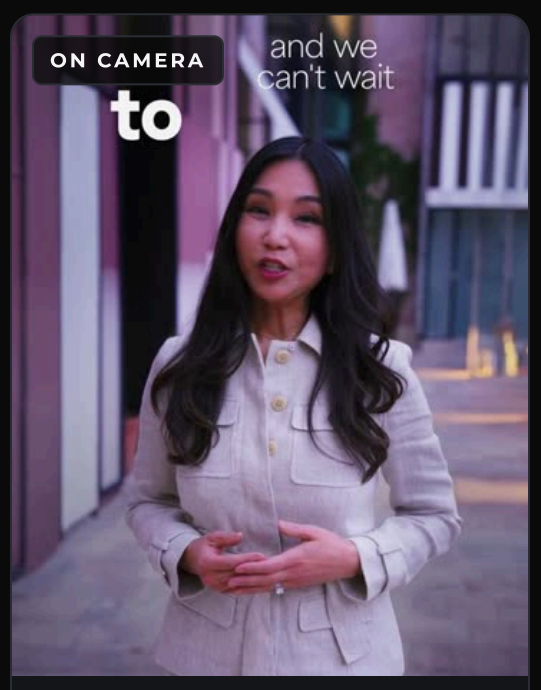

Render: treatment suite

"really special"

CAMERA
Render with chandelier and two chairs.

EDIT
"really special" goes big and bold.

WHY IT WORKS
The biggest type lands on the biggest promise.

14 0:21.0–0:22.6 · 1.7s

Back on her: share it with you

"and we can't wait to share it with you."

CAMERA
Opens out of focus, racks into focus on her.

EDIT
Caption stacks line by line.

WHY IT WORKS
The focus pull makes the last line feel personal.

15 0:22.6–0:27.8 · 5.1s

Stay tuned + logo card

"stay tuned"

CAMERA
White flash into the cream curtain.

EDIT
"stay tuned" then the Aviara logo fades up and holds.

WHY IT WORKS
Same end card as every Aviara video.

COLOR GRADE

Dusk lavender, then warm cream

The street footage keeps the cool lavender of dusk. Everything else is warm.

Dusk street

Shots 1, 4 to 7, 14

Brightness	0.34
Warmth	0.00
Saturation	0.24

- Keep the lavender ambient light, do not white balance it away.
- Skin stays warm against the cool background.
- Soft contrast, lifted blacks.

Golden aerial

Shots 2 and 3

Brightness	0.42
Warmth	0.06
Saturation	0.29

- Warm and saturated.
- Let the sun flare in the frame.

Render cream

Shots 11 to 13

Brightness	0.60
Warmth	0.10
Saturation	0.16

- Bright, low saturation, warm whites.
- Same look as the curtain card.

MUSIC CHOICE

Upbeat and steady under the voice

The track keeps the energy up while she talks.

161 BPM
estimated tempo of the mix

4/14
cuts land within 2 frames of a beat (about 45% would by chance)

- The music sits under her voice the whole way, there are no music-only breaks until the logo card.
- Use a clean, modern track with a steady pulse and no lyrics, so captions and voice stay clear.

SOUND ENGINEERING

Well controlled

-14.0 LUFS
integrated loudness (social platforms play back around -14)

-2.3 dBTP
true peak (safe, under -1)

2.3 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- Loudness and peaks are right where they should be for social.
- Very low loudness range: the voice and music are compressed into a steady, even level. That is right for phone speakers.
- Whoosh or shimmer sounds on the white flashes make the transitions feel intentional.

DRONE, TRANSITIONS, FLICKERS

Every move, timestamped

0:01.7	DRONE	Top-down on the courtyard with the logo super.
0:02.4	DRONE	Closer aerial in golden light.
0:03.4	FLASH	Warm white flash from the drone back to her.
0:12.5	FLASH	White flash into the thinking pose.
0:16.0	FLASH	Flash into the lifestyle cutaways.
0:18.3	FLASH	Flash into the renders.
0:21.0	FOCUS PULL	Out of focus to sharp on her last line.
0:22.8	FLASH	White flash into the curtain logo card.

CAPTIONS AND TYPOGRAPHY

Bold words and small icons

- Captions are white sans serif, two to four words, centered in the middle third.
- The key word is **much bigger and heavier** than the words around it.
- Small, simple icons animate in next to the key word.
- "essential" uses a warm gold tint: the only colored word in the video.

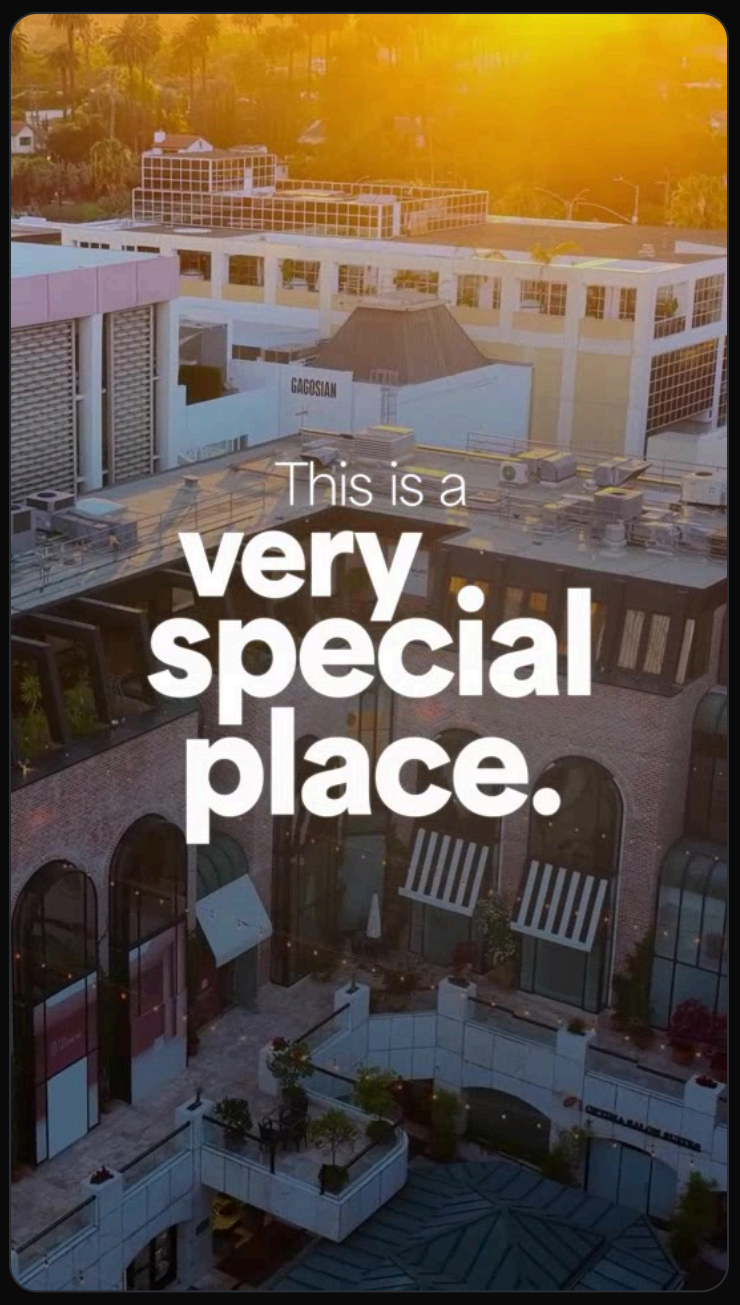

on the foundation optimal **airway,** **lifestyle** and **emotional balance.**

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **Walk-in open**, talent says hello in the first second
- [ ] **Icon on every pillar word**, kept away from the face
- [ ] **White flashes** only between worlds
- [ ] **Loudness:** about -14 LUFS, true peak under -1 dBTP
- [ ] **Drone with logo super** to name the place
- [ ] **Lifestyle cutaways** under 1 second, one word each
- [ ] **Curtain logo card** at the end

HOW TO EDIT · BREAKDOWN 05 · SPACE REVEAL

The space reveal. Drone, renders, curtain pull.

A 29 second reel that announces the new office before it is built. Golden hour drone shots of the building, AI renders of the finished rooms, and a curtain-pull reveal for "our new office". She is only on screen from the sky.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #2: Dra Ahn, Aviara Video (Video 5 of 13)
FORMAT	9:16 vertical · 2160×3840 · 23.976 fps
RUNTIME	0:29
MADE FOR	Announcing the new Beverly Hills office

29s	13	5	5
total runtime	shots	drone shots	AI renders

WHAT TO STEAL

What to steal from this one

When the space does not exist yet, let the building and the renders do the talking.

Put the person in the drone shot

The opening drone has Dr. Ahn on the terrace. **A tiny person makes an aerial feel human.**

Use the sun as a transition

The drone tilts into the low sun at 2.5s. The flare **is** the transition.

Curtain pull for the reveal

The curtain opens onto the new office. The transition matches the words.

Do not cut renders mid-move

Each render gets its whole slide. A render cut halfway through its move looks broken.

THE STRUCTURE

Place, promise, pillars, reveal

Five beats.

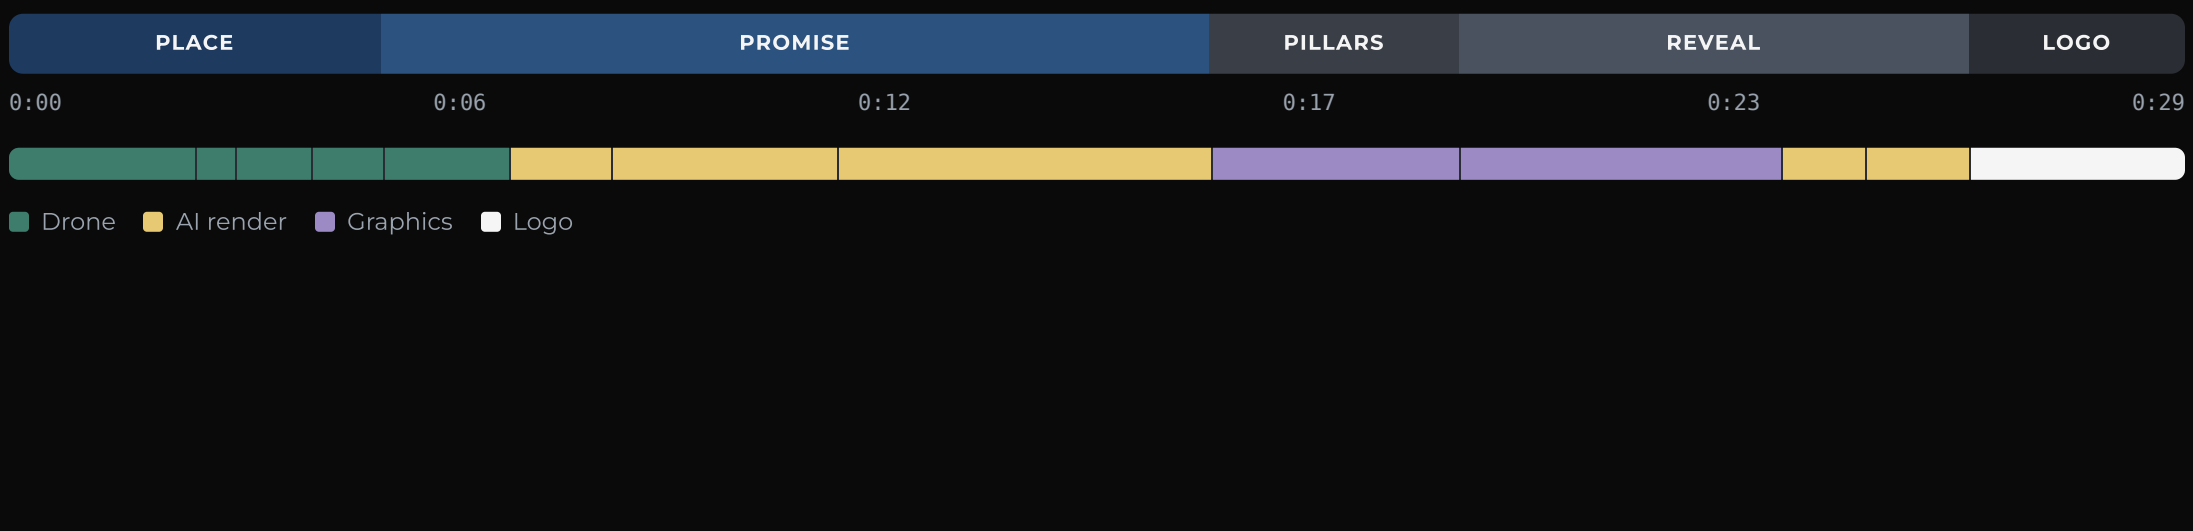

Place
`0:00–0:05`
Drone over the building at golden hour.

Promise
`0:05–0:16`
Working hard to plan and design, shown as renders.

Pillars
`0:16–0:19`
Three pillars on the curtain.

Reveal
`0:19–0:26`
Curtain pull into the new office.

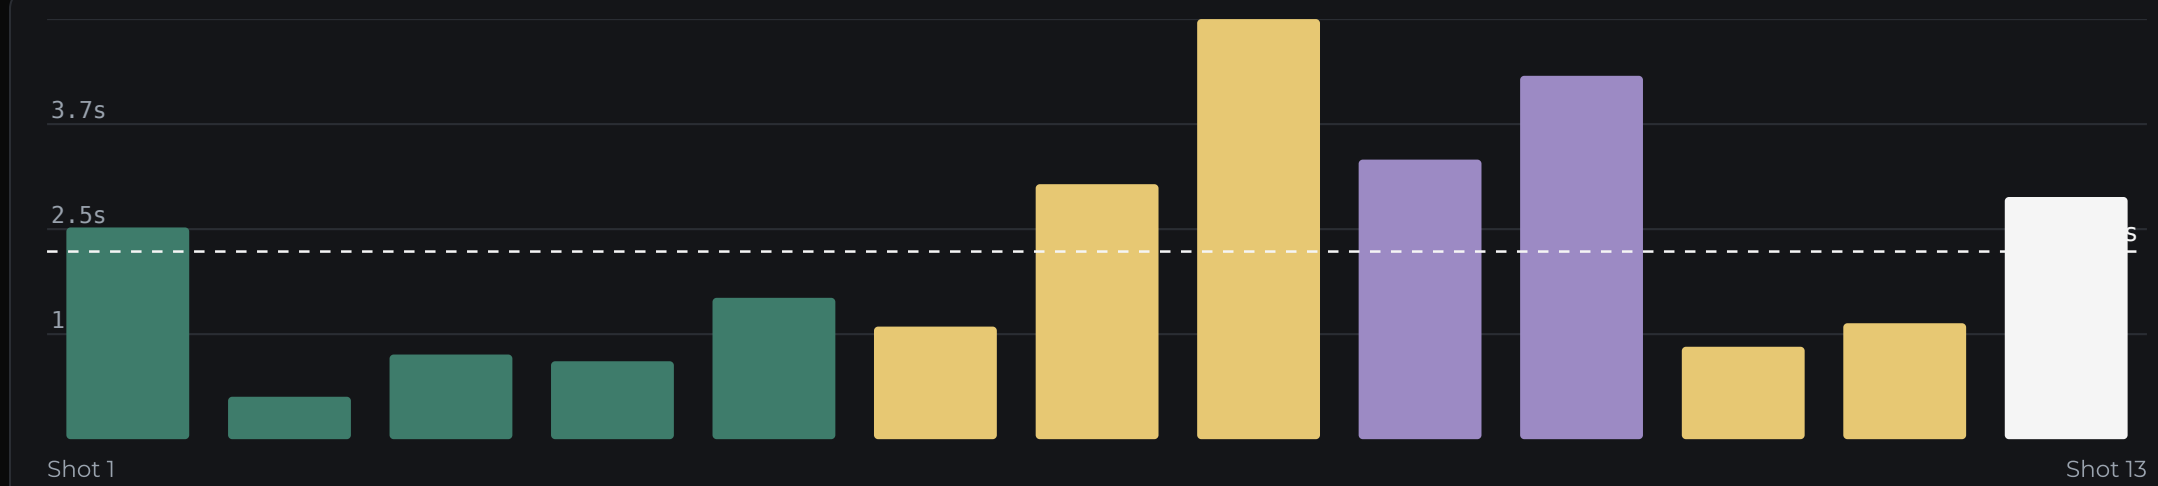

Logo
`0:26–0:29`
Logo card.

PACE

Quick aerials, long renders

Drones cut fast (0.5 to 2.5 seconds), the key renders hold up to 5 seconds.

Each bar is one shot, in order. Height is how long it stays on screen.

13
shots in 0:29

2.2s
average shot (median 1.7s)

0.5s
fastest: shot 2

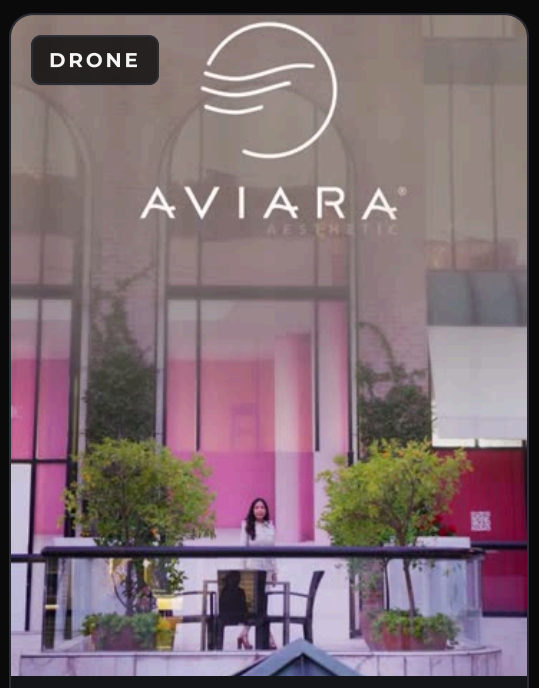

5.0s
longest hold: shot 8

- The longest shot is the render on "built on the foundation of health": the message gets the time.

SHOT BY SHOT

13 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:02.5 · 2.5s

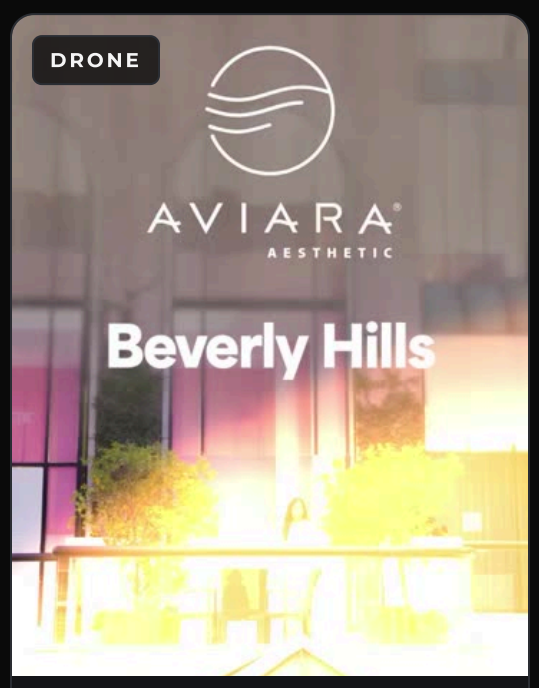

Drone: Dr. Ahn on the terrace

"Welcome to Aviara Beverly Hills"

CAMERA
High drone looking down on the building's terrace, Dr. Ahn small in frame.

EDIT
Logo builds on screen as she speaks.

WHY IT WORKS
She is in the shot from the first frame, so it is a person, not a building.

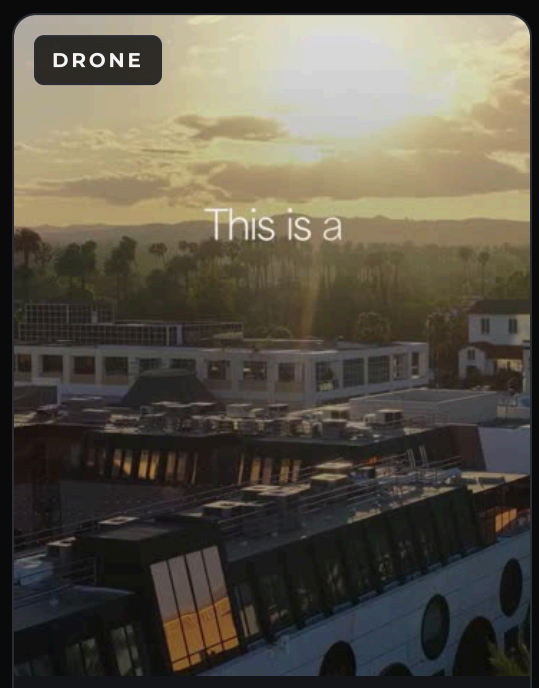

02 0:02.5–0:03.0 · 0.5s

Drone: sun flare whip

CAMERA
Drone tilts into the low sun.

EDIT
The flare itself is the transition.

WHY IT WORKS
An in-camera flare beats any plugin.

03 0:03.0–0:04.0 · 1.0s

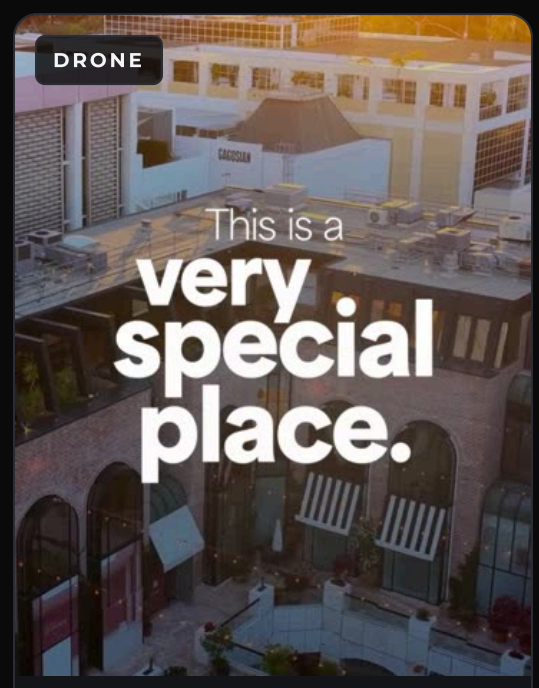

Drone: golden hour skyline

"This is a very"

CAMERA
Drone over the rooftops toward the setting sun.

EDIT
Caption builds word by word.

WHY IT WORKS
The light says "special" before the words do.

04 0:04.0–0:04.9 · 0.9s

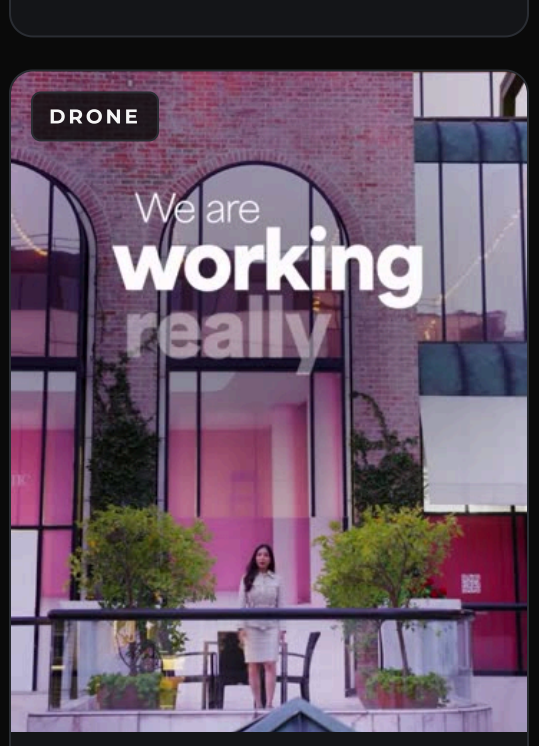

Drone: courtyard

"special place."

CAMERA
Drone over the courtyard in warm light.

EDIT
"special place" lands big. White flash out.

WHY IT WORKS
The biggest words land on the best shot.

05 0:04.9–0:06.6 · 1.7s

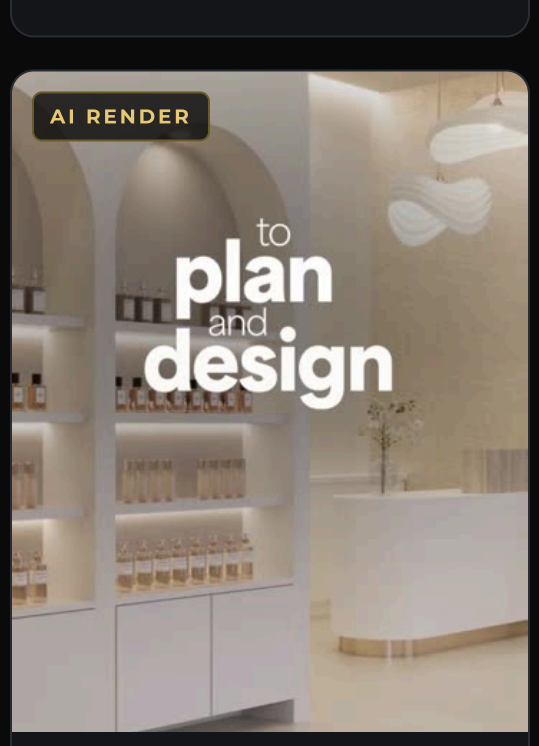

Drone: back to the terrace

"We are working really hard"

CAMERA
Back to the terrace angle.

EDIT
Caption stacks line by line.

WHY IT WORKS
Returning to her ties the aerials back to the person.

06 0:06.6–0:07.9 · 1.3s

Render: retail arches

"to plan and design"

CAMERA
Render of the arched retail wall.

EDIT
Caption continues.

WHY IT WORKS
Plan and design: we see the design.

07 0:07.9–0:10.9 · 3.0s

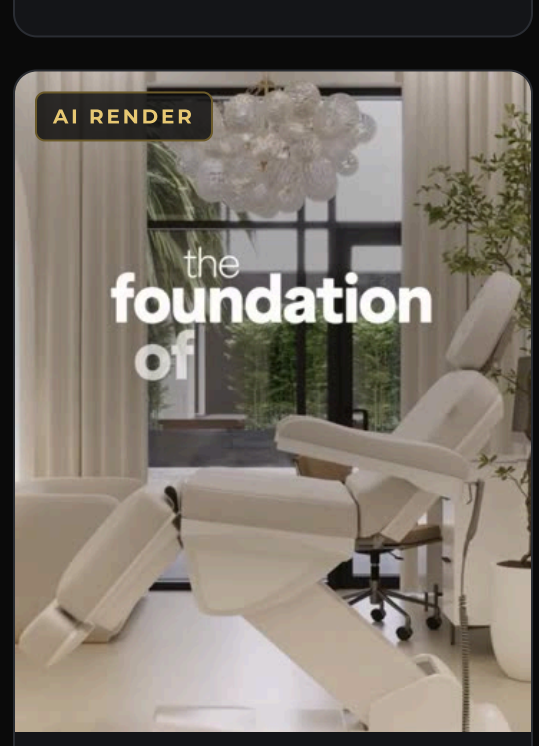

Render: reception

"an wellness integrative center that is focused"

CAMERA
Render of the reception with the Aviara logo, slow push.

EDIT
Big bold type, small connector words.

WHY IT WORKS
The logo on the wall reinforces the name.

08 0:10.9–0:15.9 · 5.0s

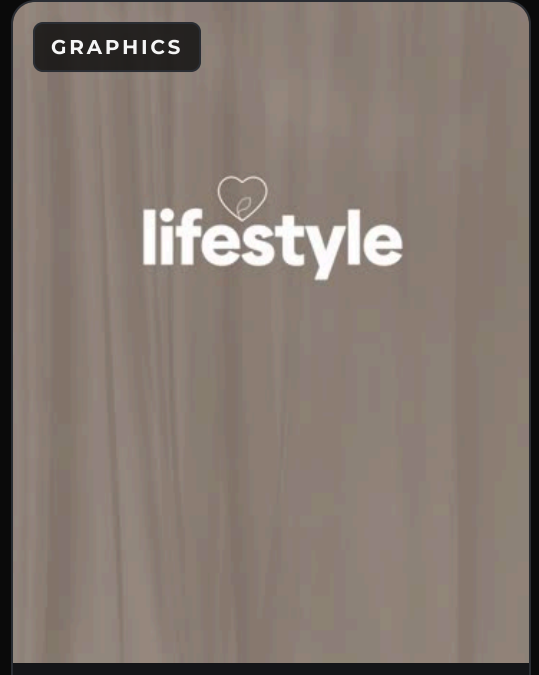

Render: treatment suite

"on esthetics that is built on the foundation of health."

CAMERA
Render of the treatment suite with chandelier.

EDIT
Ends on a white flash.

WHY IT WORKS
The longest render, on the core message.

09 0:15.9–0:19.2 · 3.3s

Curtain card: three pillars

"The three main pillars: optimal airway, lifestyle and emotional balance."

CAMERA
Cut to the cream curtain.

EDIT
Each pillar gets an icon and fades up in turn.

WHY IT WORKS
A clean card for a list: easy to read with sound off.

10 0:19.2–0:23.5 · 4.3s

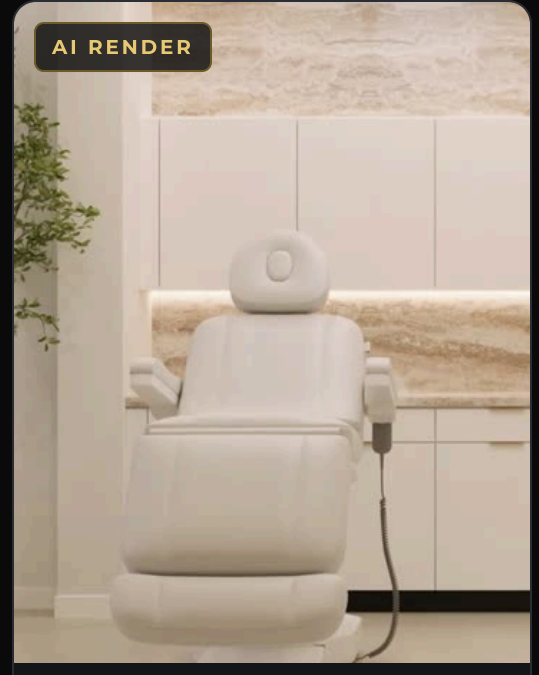

Curtain pull reveal

"We're excited to introduce our new office"

CAMERA
Curtain fabric, then a curtain-pull wipe opens onto a render.

EDIT
"our new office" big and bold.

WHY IT WORKS
The curtain opening is the reveal. Literal and elegant.

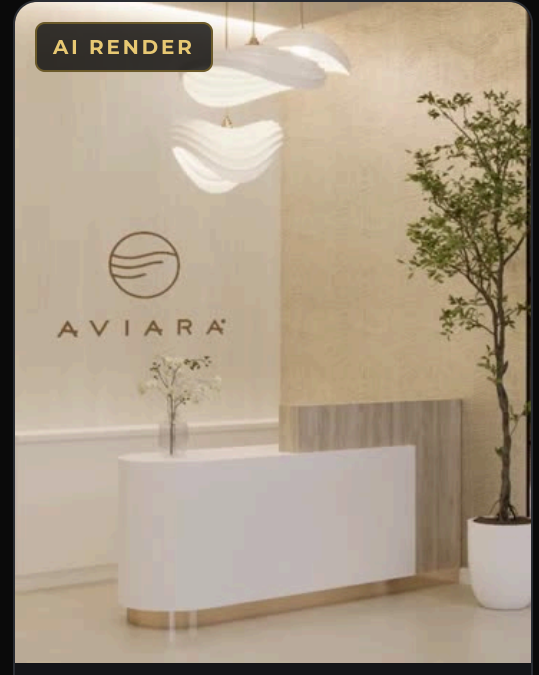

11 0:23.5–0:24.6 · 1.1s

Render: treatment chair

CAMERA
Render of a single chair against onyx shelves.

EDIT
Quick cut, no caption.

WHY IT WORKS
A fast montage after the reveal.

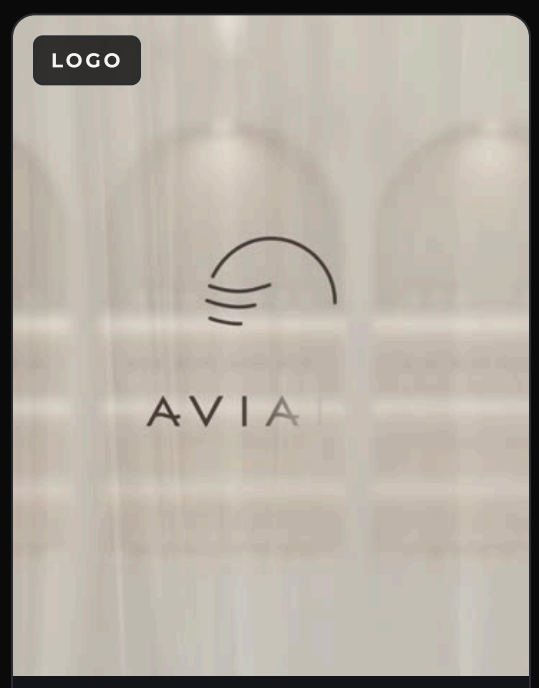

12 0:24.6–0:25.9 · 1.4s

Render: reception desk

CAMERA
Render of the reception desk.

EDIT
Quick cut.

WHY IT WORKS
Different angle, same space.

13 0:25.9–0:28.8 · 2.9s

Retail wall into logo card

CAMERA
Render of the retail arches dissolves into the curtain.

EDIT
Aviara logo fades in on the curtain.

WHY IT WORKS
Ends on the same card as every Aviara video.

COLOR GRADE

Magenta dusk, golden sun, cream renders

Three very different lights, tied together by warm whites.

Terrace dusk

Shots 1, 5

Brightness	0.45
Warmth	0.00
Saturation	0.28

- Keep the magenta and violet from the building lights.
- This is the client's building color. Do not correct it out.

Golden hour

Shots 3, 4

Brightness	0.39
Warmth	0.09
Saturation	0.28

- Push warm and saturated.
- Let the sun clip a little. It reads as glow.

Render cream

Shots 6 to 8, 11 to 13

Brightness	0.60
Warmth	0.10
Saturation	0.16

- Bright, low saturation, cream whites.
- Match the curtain card.

MUSIC CHOICE

Warm and steady

92 BPM
estimated tempo of the mix

5/12
cuts land within 2 frames of a beat (about 26% would by chance)

- The music sits under her voice the whole time and comes up for the logo card.
- The track should feel warm and uplifting, no lyrics, with a clear pulse for the fast drone cuts.

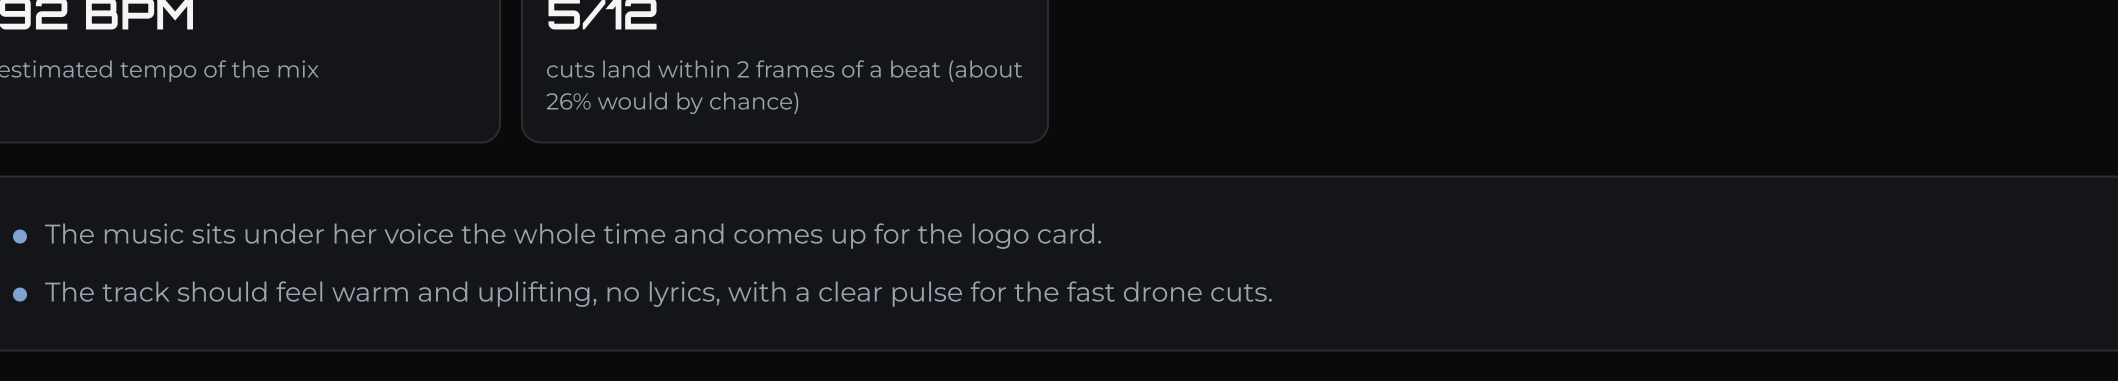

SOUND ENGINEERING

Clean and controlled

-13.8 LUFS
integrated loudness (social platforms play back around -14)

-4.1 dBTP
true peak (safe, under -1)

3.1 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- Loudness and peaks are on target for social.
- Low loudness range: voice and music held at an even level for phone speakers.

DRONE, TRANSITIONS, FLICKERS

Every move, timestamped

0:00.0	DRONE	Top-down on the terrace, Dr. Ahn in frame.
0:02.8	FLASH	Sun flare from the drone tilting into the sun.
0:03.0	DRONE	Golden hour skyline.
0:04.0	DRONE	Courtyard in warm light.
0:05.0	FLASH	White flash back to the terrace.
0:15.9	FLASH	White flash into the curtain card.
0:19.4	FLASH	Flash into the curtain pull.
0:22.5	CURTAIN PULL	Fabric opens to reveal the render.
0:25.9	DISSOLVE	Render dissolves into the curtain logo card.

CAPTIONS AND TYPOGRAPHY

Big words, tiny connectors

- White sans serif, centered in the middle of frame.
- Main words are huge and bold. Connector words ("to", "that is", "an") are tiny above them.
- On the curtain, the pillars get small line icons.

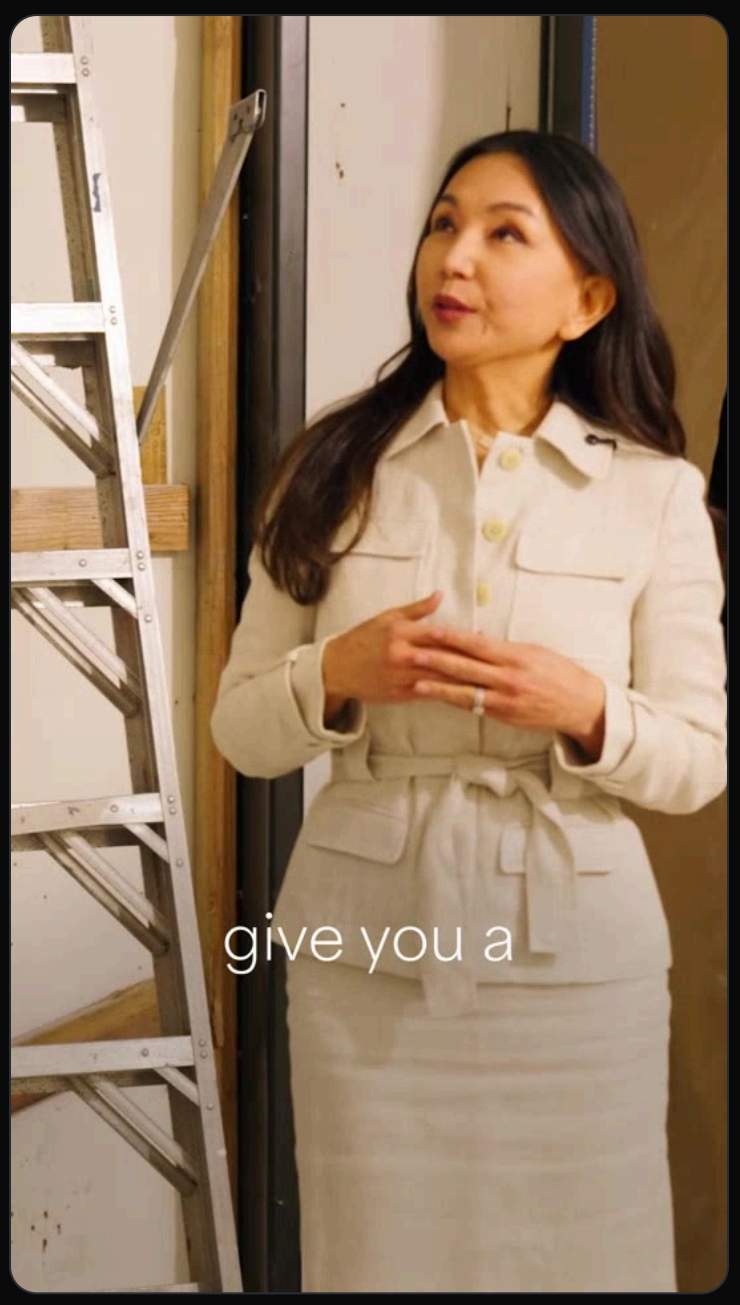

very special place. to **plan** and **design** **our new office**

BEFORE YOU EXPORT

HOW TO EDIT · BREAKDOWN 06 · TOUR

The premium tour. Shot by shot.

This is the standard for every tour we edit from here on. Dr. Katherine Ahn walks us through a suite that is still under construction, and every raw room is answered by a rendering of the finished room on the exact word she names it.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #3: Dr. Ahn, Local Tour (Video 6 of 13)
FORMAT	9:16 vertical · 2160×3840 · 23.976 fps
RUNTIME	2:33
MADE FOR	Every Puro Flow editor (Yash, Adrian and the team)

31
shots in 2:33

4.9s
average shot length

8
AI renderings of finished rooms

~11 dB
music sits under the voice

WHAT TO STEAL

Four rules for every tour

When we follow someone through a space, the camera has to feel expensive. That means stable, angled and moving for a reason.

Stable, always

Gimbal or locked off. If a clip shakes, stabilize it or cut it. **No shaky handheld in a tour.**

Never flat

Never park the camera square on the subject against a flat wall. Swing to a **3/4 angle**, put something in the foreground (ladder, doorframe, scaffolding) and place them off-center.

No slow zoom in or out

No scale keyframes, no Ken Burns push in the edit. **Movement comes from the camera** (follow, arc, slide, reveal) or from the render, never from a digital zoom.

New room, new angle

Every time she names a space, cut. Back-to-back shots never share a framing, and every raw room gets its render.

THE STRUCTURE

Place, then before and after, then the why

Six beats. The tour earns the message.

Establish
0:00–0:03
Two drone shots, no voice yet.

Arrive
0:03–0:13
Wide in the raw suite, punch in, back wide.

Raw to render
0:13–0:46
Reception, video wall, storefront.

The why
0:46–1:16
Consultation room, black and white cutaway, root causes.

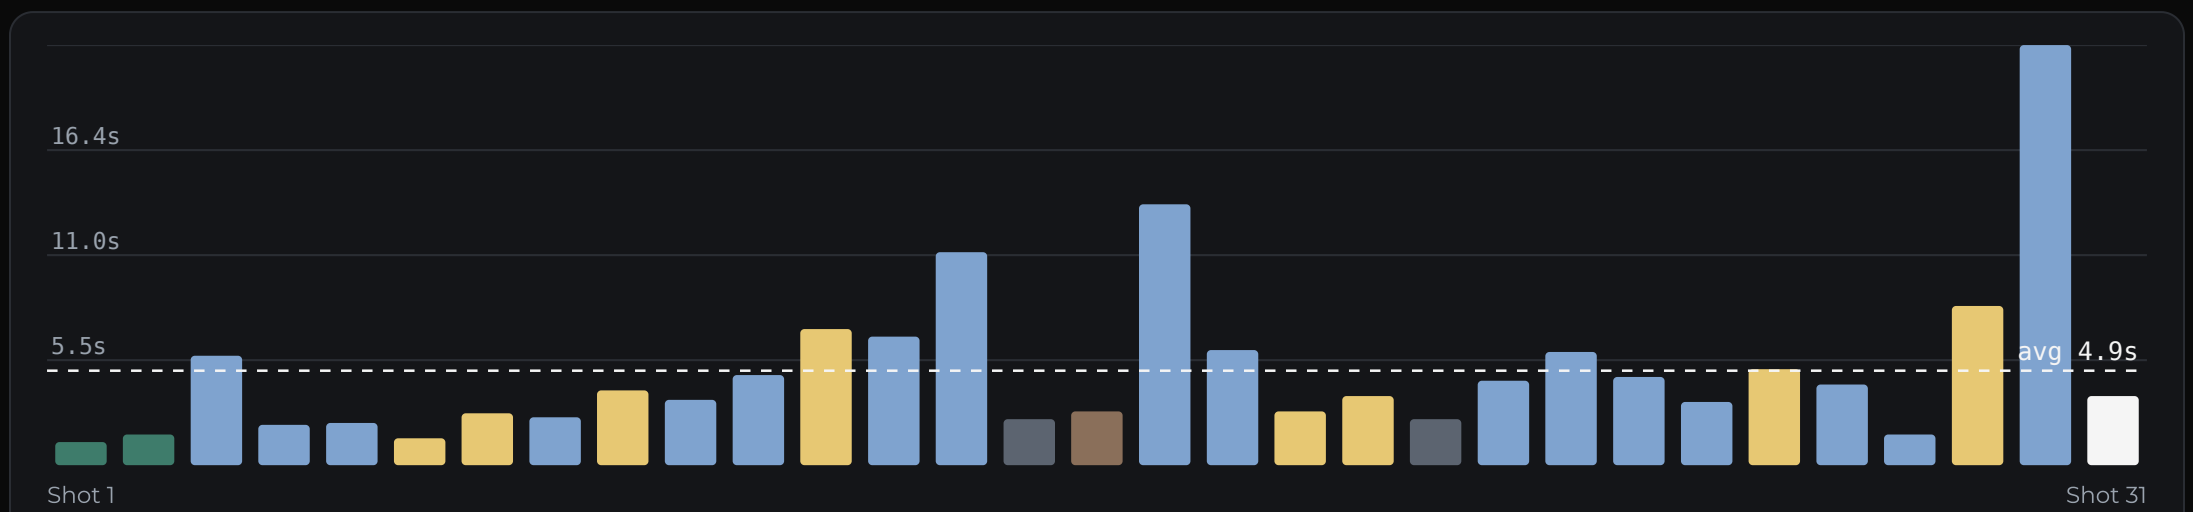

Clinical suite
1:16–2:08
Low-key amber. Lab, treatment #2 and #3.

Close
2:08–2:33
22 second talking head, logo card.

PACE

Five seconds a shot, one long close

Tours breathe more than reels, but no shot sits still for long until the very end.

Each bar is one shot, in order. Height is how long it stays on screen.

31
shots in 2:33

4.9s
average shot (median 3.6s)

1.2s
fastest: shot 1

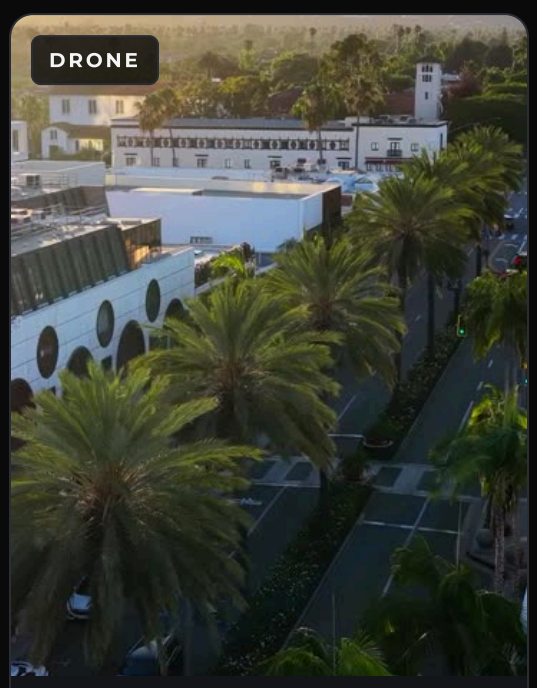

21.9s
longest hold: shot 30

- Renders hold 1.4 to 8.3 seconds: long enough for their slide to finish.
- The 22 second close is earned by two minutes of movement before it.

SHOT BY SHOT

31 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:01.2 · 1.2s

Drone: Beverly Hills, golden hour

CAMERA
High drone over a palm-lined boulevard with the sun on the horizon. Slow forward drift, perfectly smooth.

EDIT
Cold open. No title and no voice for the first 2.7 seconds, just music.

WHY IT WORKS
Location sells the brand before she says a word.

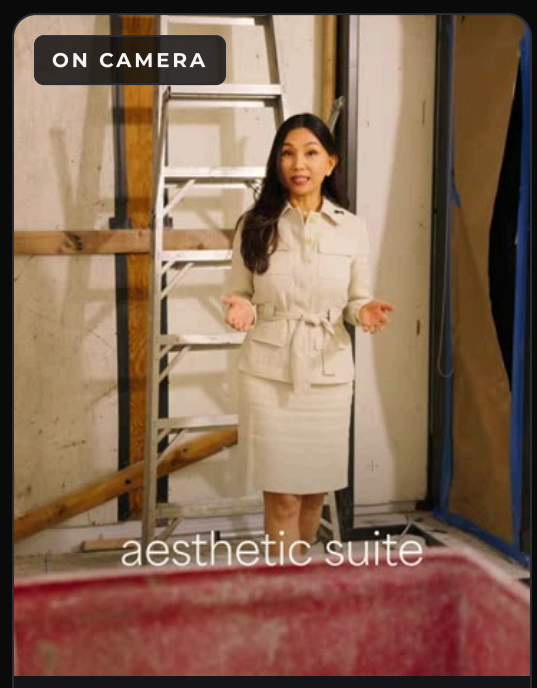

02 0:01.2–0:02.8 · 1.6s

Drone: the building

CAMERA
Drone holds on the courtyard of the building, warm late light on the brick and arches.

EDIT
Hard cut from the wide city to this one building.

WHY IT WORKS
City, then address. Two shots and we know exactly where we are.

03 0:02.8–0:08.5 · 5.7s

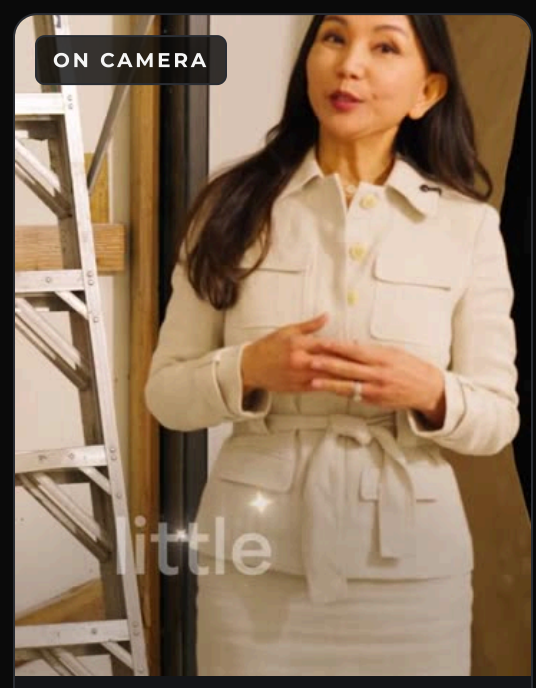

Wide: inside the raw suite

"So we are now inside the Aviara aesthetic suite"

CAMERA
Wide from a low position, ladder in the left foreground, Dr. Ahn small in frame among the raw walls. Stable.

EDIT
First caption appears with her first word.

WHY IT WORKS
We show the space honestly as a construction site. The ladder adds depth so it never looks flat.

04 0:08.5–0:10.6 · 2.1s

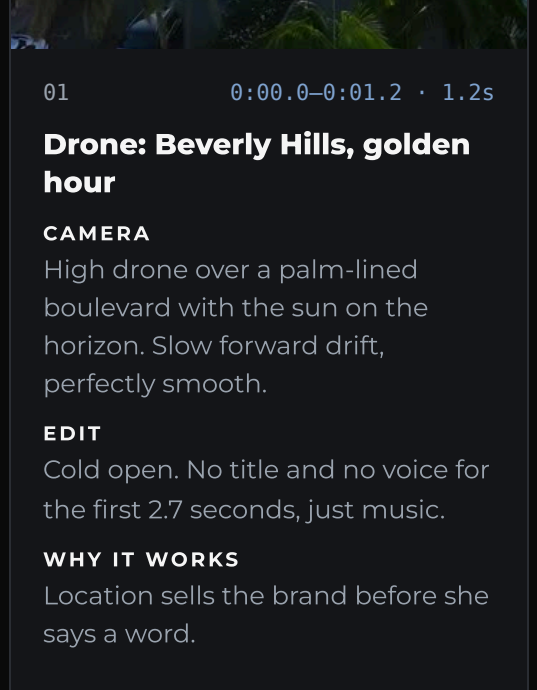

Punch in at 3/4: little tour

"I'm going to give you a little tour"

CAMERA
Medium shot from a new angle, roughly 45° off her, so she is never square to the lens.

EDIT
Big bold "little tour" title with a sparkle, then a warm light leak carries us out.

WHY IT WORKS
Same moment, new angle. The cut resets attention without leaving the room.

05 0:10.6–0:12.8 · 2.2s

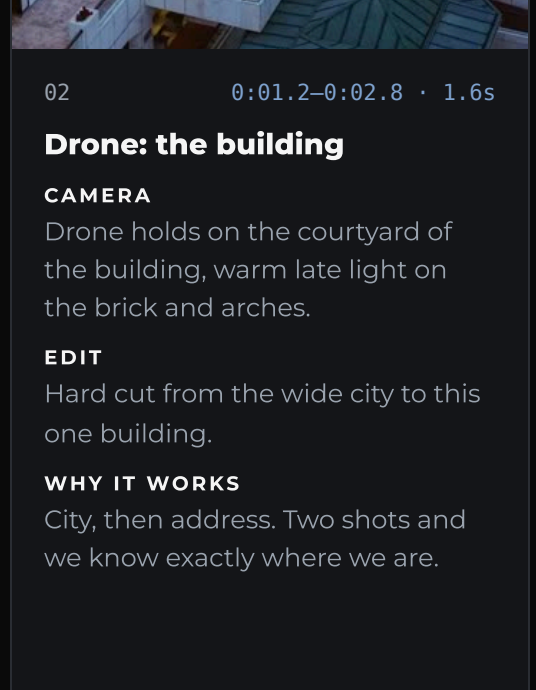

Back wide: the entrance

"So this is the entrance."

CAMERA
Back to the wide, arms open to present the room.

EDIT
Cut on her gesture, so the move does the work.

WHY IT WORKS
Her open arms make the reveal feel welcoming.

06 0:12.8–0:14.2 · 1.4s

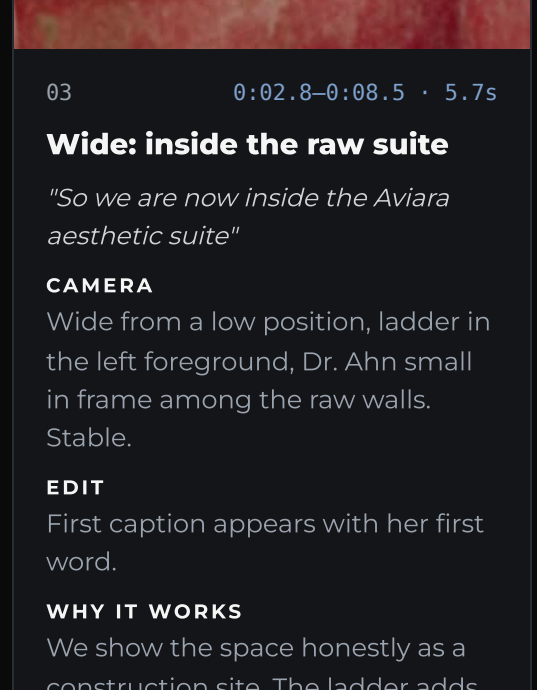

Render: reception

"And our reception desk"

CAMERA
Finished entrance with glass doors, chandelier and desk chair. Slow lateral slide.

EDIT
Cut in on "And our", out with a light leak.

WHY IT WORKS
First render. Sets the pattern: raw room, then the finished room.

07 0:14.2–0:16.9 · 2.7s

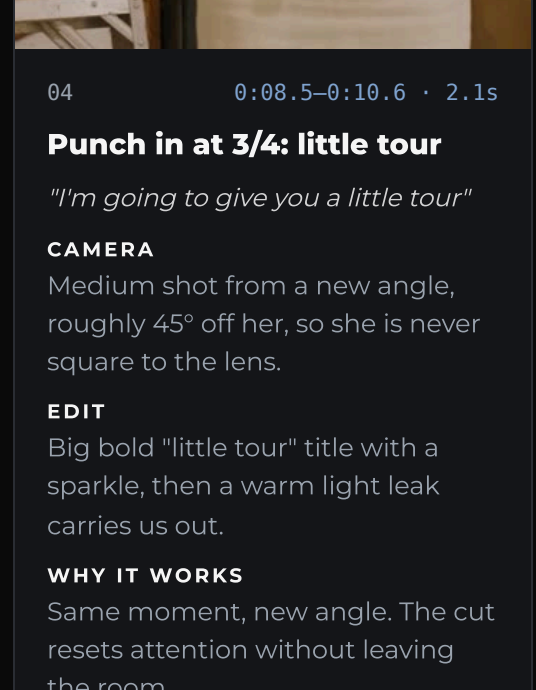

Render: the Aviara desk

"will be right there"

CAMERA
Reception desk with the Aviara logo, cove light, an olive tree. Slow slide that reveals the plant.

EDIT
Held long enough to read the logo.

WHY IT WORKS
The brand shows up on the wall of the room she is describing.

08 0:16.9–0:19.4 · 2.5s

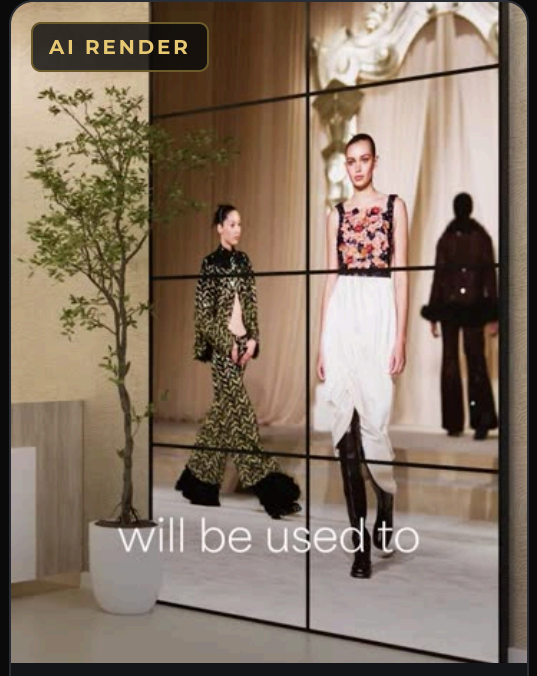

Follow: to the video wall

"And to the right of me is our video wall"

CAMERA
She walks right toward a taped raw wall. The camera pans with her on the gimbal.

EDIT
"video wall" big bold title, which ghosts out as we cut.

WHY IT WORKS
Movement leads the eye to the empty wall we are about to fill.

09 0:19.4–0:23.3 · 3.9s

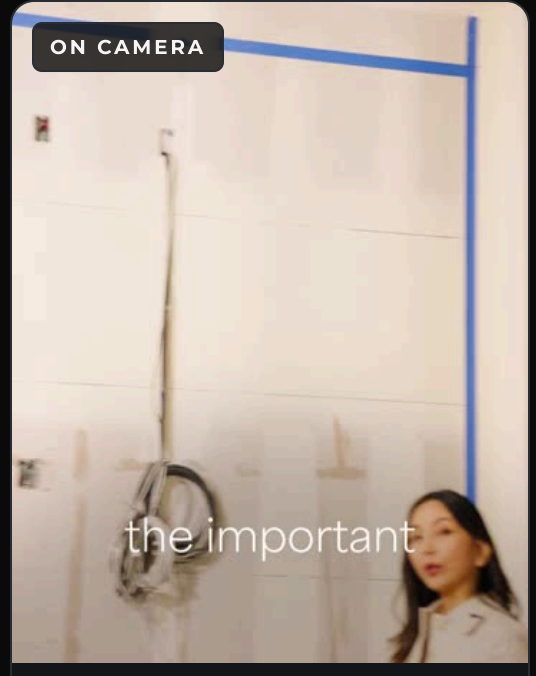

Render: the video wall

"This video wall will be used to educate our patients"

CAMERA
The finished wall of screens playing fashion imagery, framed by plants.

EDIT
"educate" sits bold above "our patients".

WHY IT WORKS
The empty wall from the shot before is now real.

10 0:23.3–0:26.7 · 3.4s

Negative space: the raw wall

"on all the important ... that we have to offer."

CAMERA
She sits low in the bottom right of frame, the raw wall and hanging conduit fill the top.

EDIT
Captions sit beside her, not over her face.

WHY IT WORKS
Off-center framing is the opposite of flat. The space is the subject.

11 0:26.8–0:31.5 · 4.7s

Follow from behind: the storefront

"So this storefront right here area will focus on"

CAMERA
Camera follows behind her shoulder into the storefront, she turns and points. Yellow scaffolding frames the shot.

EDIT
Light flash out of the shot.

WHY IT WORKS
Following from behind puts the viewer in the room with her.

12 0:31.7–0:38.8 · 7.1s

Render: the arched shelves

"products that will help our patients breathe better, live better, and smile better"

CAMERA
Arched retail niches with warm under-shelf light. Slow lateral slide.

EDIT
Key words go bold on each beat: breathe, live, smile.

WHY IT WORKS
The longest render, because it carries the promise of the brand.

13 0:38.8–0:45.5 · 6.7s

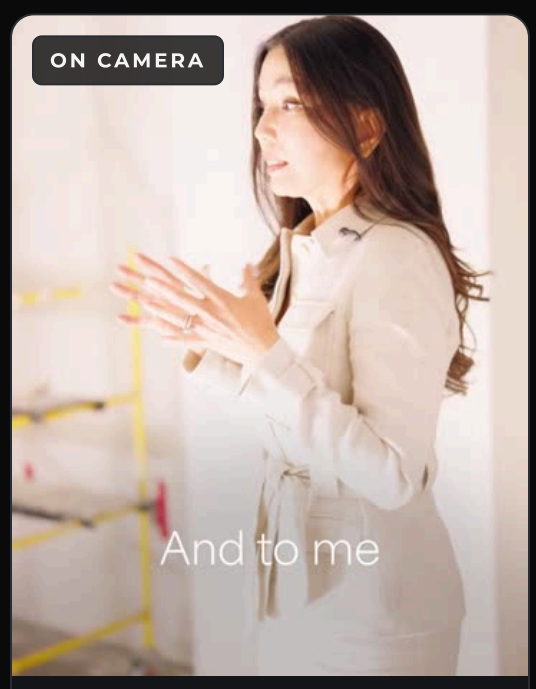

Medium: three arches

"so that's why we have three arches representing the three pillars of the foundation of health."

CAMERA
Medium wide, she gestures to the three raw arch openings behind her.

EDIT
Whip blur out to the next room.

WHY IT WORKS
The raw arches pay off the render we just saw. The design has meaning.

14 0:45.6–0:56.7 · 11.1s

High-key MCU: consultation room

"and consultation room. And to me this is the most important room"

CAMERA
Bright, creamy room. Medium close-up at 3/4, she turns to show the room and back to us. Smooth gimbal.

EDIT
"important room" in bold.

WHY IT WORKS
The brightest room is the most important room. The light says it too.

15 0:56.7–0:59.1 · 2.4s

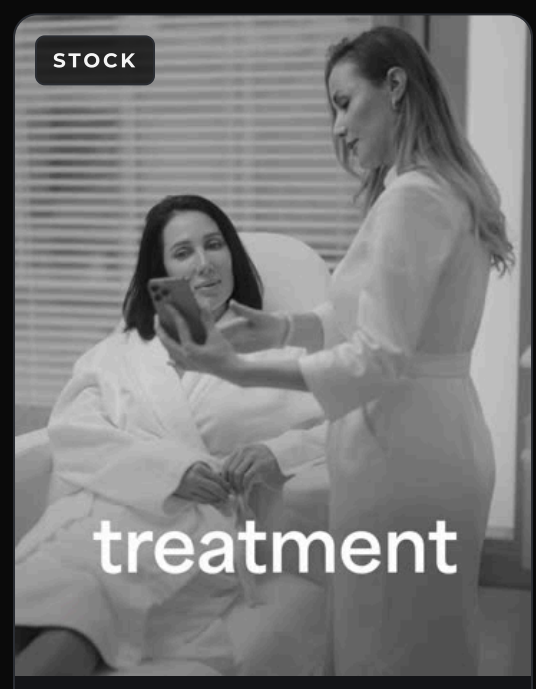

Insert: across the raw room

"most wellness clinics."

CAMERA
Pan across a raw wall with fixtures to the scaffolding.

EDIT
B-roll over her voice.

WHY IT WORKS
Gives the eye a rest before the contrast beat.

16 0:59.1–1:01.9 · 2.8s

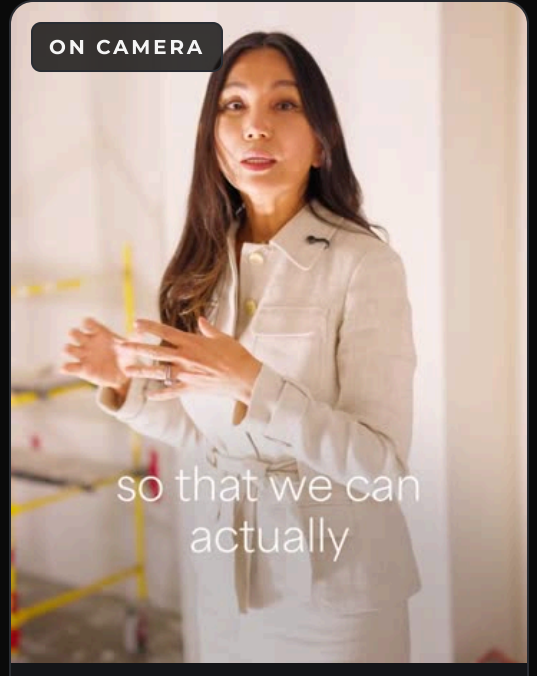

Black and white cutaway

"focus on treatment, but..."

CAMERA
A clinic consult in full black and white.

EDIT
Huge bold "treatment", then "but...".

WHY IT WORKS
Black and white means the old way. She never has to name anyone.

17 1:01.9–1:15.5 · 13.6s

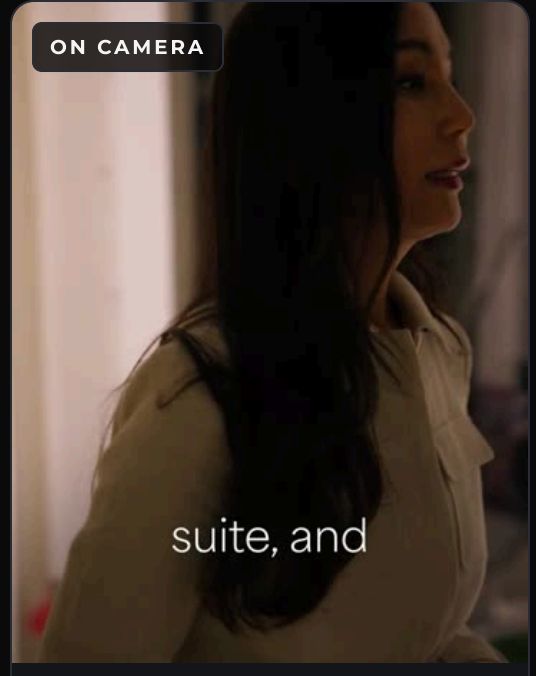

Back in color: root causes

"what we really need is to understand the patient's problems, their root causes"

CAMERA
Same consultation room setup, she turns into the lens as she makes the point.

EDIT
Hand-drawn circle around "root causes", scribble under "improve".

WHY IT WORKS
Color returns with her answer. The marks make the big idea stick.

18 1:15.5–1:21.5 · 6.0s

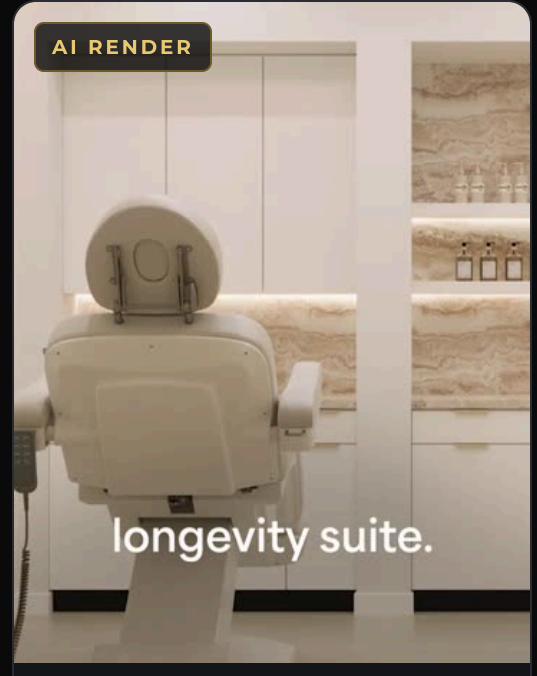

Doorframe reveal: clinical suite

"now we're inside our clinical suite, and right side, we have our"

CAMERA
A dark doorframe passes the lens and reveals her face in low light. She turns and leads us deeper.

EDIT
The grade drops to low-key amber on this cut.

WHY IT WORKS
Foreground wipe plus a mood change says we entered a new kind of room.

19 1:21.5–1:24.3 · 2.8s

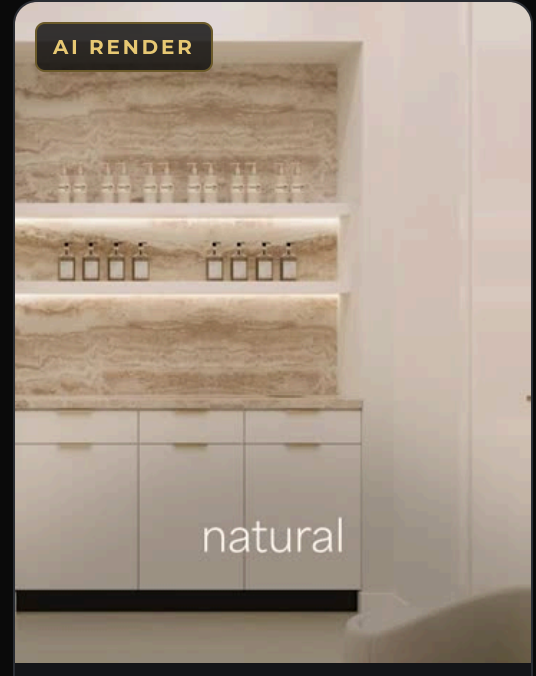

Render: esthetic and longevity suite

"esthetic and longevity suite."

CAMERA
Treatment chair against onyx shelving. Slow slide left.

EDIT
"esthetic" and "longevity suite." in bold.

WHY IT WORKS
The render stays bright, which lifts the dark section.

20 1:24.3–1:27.9 · 3.6s

Render: the cabinetry

"So here we will focus on all the natural regenerative approaches to"

CAMERA
Second render of the same suite, sliding across the cabinetry.

EDIT
Two renders back to back for one room.

WHY IT WORKS
A second angle makes the room feel real, not like a single still.

21 1:27.9–1:30.3 · 2.4s

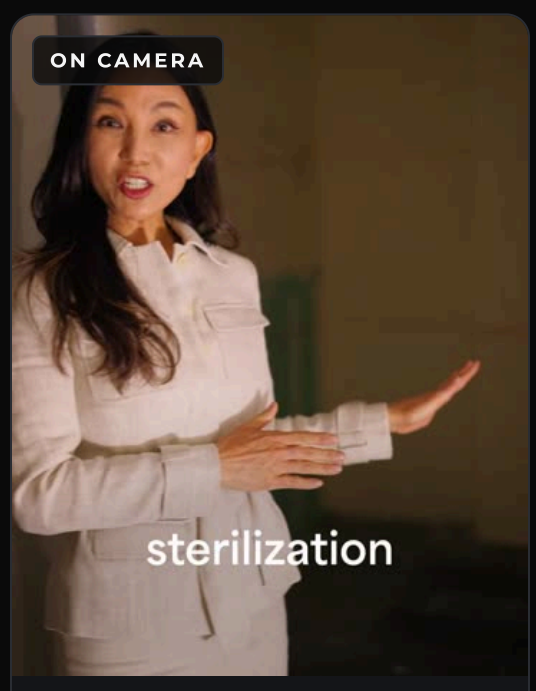

Flare pass

"health and beauty."

CAMERA
Dark room with green tile, a practical light flares across the lens.

EDIT
Used as the transition into the lab.

WHY IT WORKS
An in-camera transition, no plugin needed.

22 1:30.3–1:34.7 · 4.4s

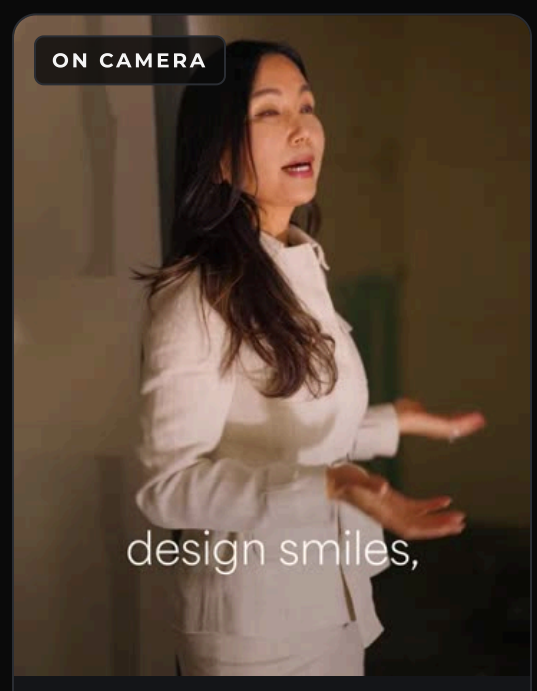

Side light: the lab

"This is our sterilization and laboratory."

CAMERA
Medium in a dark doorway, one soft window light from the side. She gestures into the room.

EDIT
"sterilization" and "laboratory." in bold.

WHY IT WORKS
One motivated light source. That is what makes low-key look expensive.

23 1:34.7–1:40.6 · 5.9s

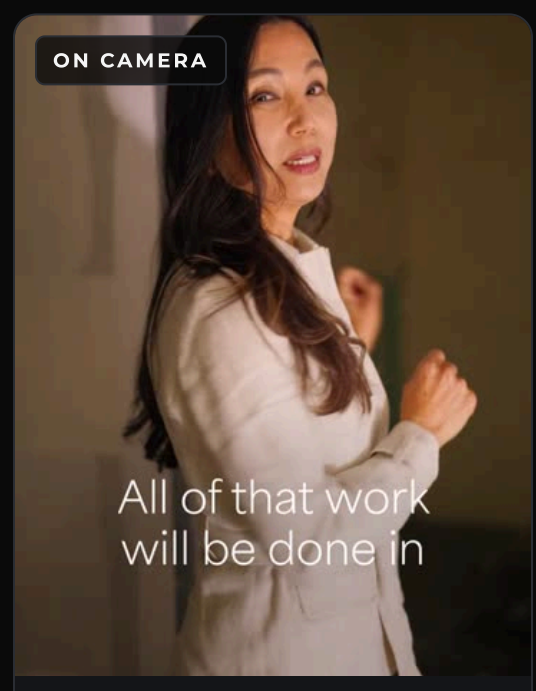

Same setup, tighter

"to be able to design smiles, print models,"

CAMERA
Slightly tighter on the same setup.

EDIT
A cut in instead of a zoom.

WHY IT WORKS
We get closer by cutting, never by scaling the clip.

24 1:40.6–1:45.2 · 4.6s

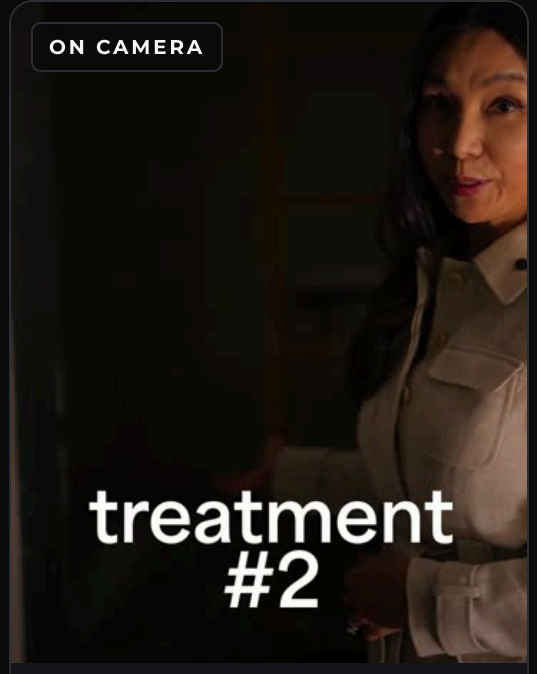

The Smile Design Laboratory

"custom smile design. All of that work will be done in the Smile Design Laboratory."

CAMERA
Holds on the same angle as she names the lab.

EDIT
"Smile Design Laboratory." in bold. Short whip out.

WHY IT WORKS
Naming the room is the payoff of the lab section.

25 1:45.2–1:48.5 · 3.3s

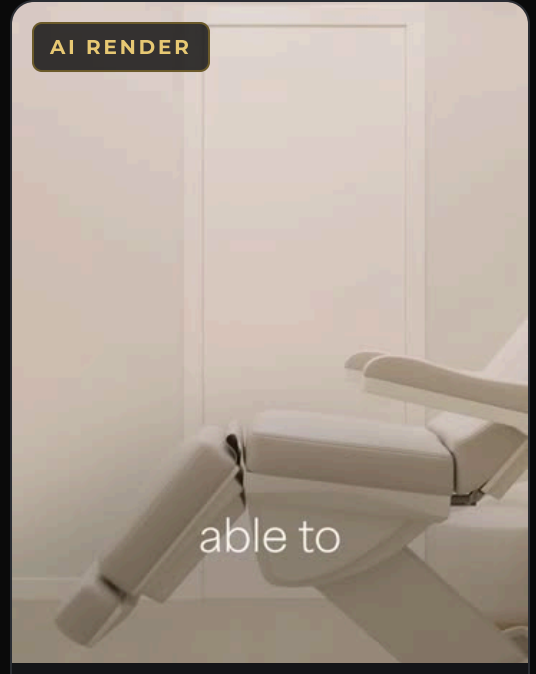

Doorframe wipe: treatment #2

"Yes. This is treatment #2"

CAMERA
She steps toward a doorway, the dark frame wipes the lens.

EDIT
"treatment #2" title fades up big, then ghosts.

WHY IT WORKS
Titles work like chapter markers so viewers never get lost.

26 1:48.5–1:53.5 · 5.0s

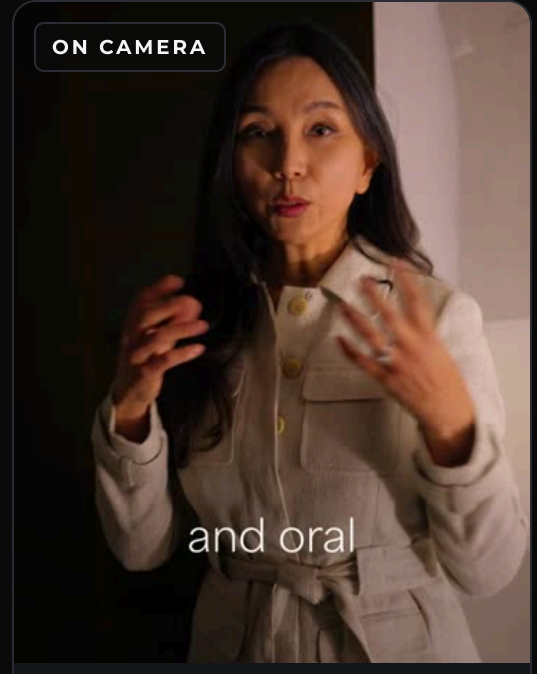

Render: treatment room #2

"And in this room, we will be able to help our patients with a"

CAMERA
High angle on a white treatment bed in a bright room. Slow slide.

EDIT
Cut in on "room".

WHY IT WORKS
Raw room, then render. The pattern holds all the way through.

27 1:53.5–1:57.7 · 4.2s

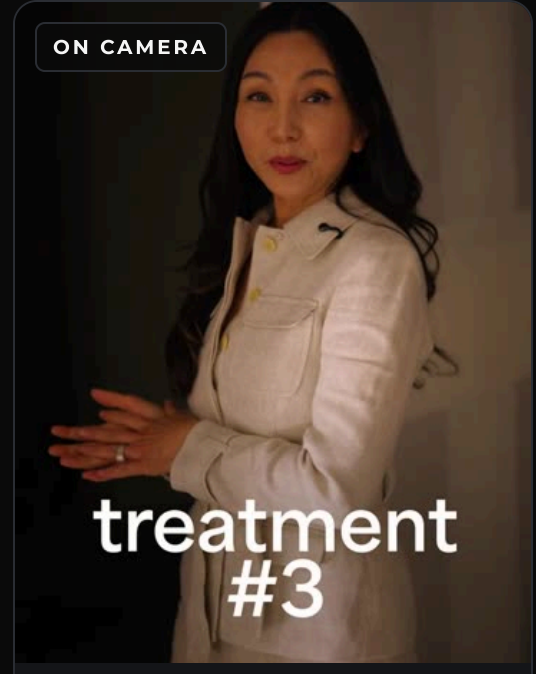

Low-key MCU

"lot of the facial and oral health rejuvenation."

CAMERA
Medium close-up, a doorframe edge in the foreground, warm side light.

EDIT
Captions only, no title.

WHY IT WORKS
Foreground edge keeps even a simple talking shot layered.

28 1:57.7–1:59.3 · 1.6s

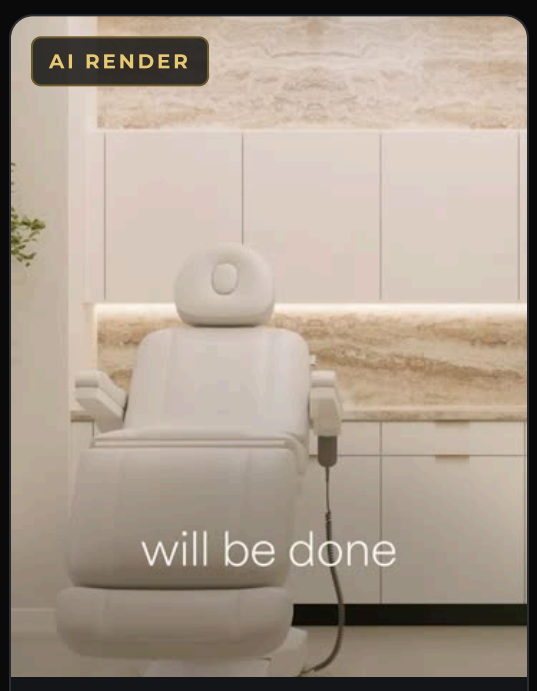

Title beat: treatment #3

"This is treatment #3"

CAMERA
Same low-key look, quick beat.

EDIT
"treatment #3" title.

WHY IT WORKS
A short beat that sets up the last reveal.

29 1:59.3–2:07.6 · 8.3s

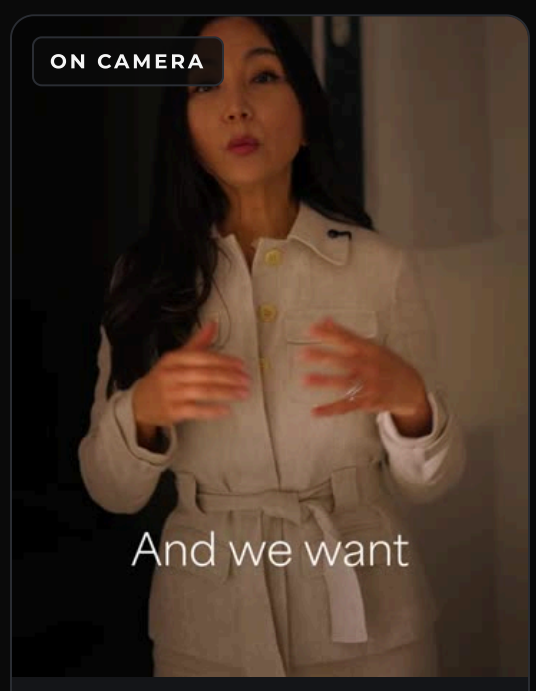

Render: Smile Design studio

"It's where all of the smile design work will be done in this room. So this is my Smile Design studio."

CAMERA
Dental chair against an onyx wall. Long lateral slide that reveals an olive tree.

EDIT
Held for 8 seconds, the longest look at any room.

WHY IT WORKS
The last room is her signature room, so it gets the most time.

30 2:07.6–2:29.5 · 21.9s

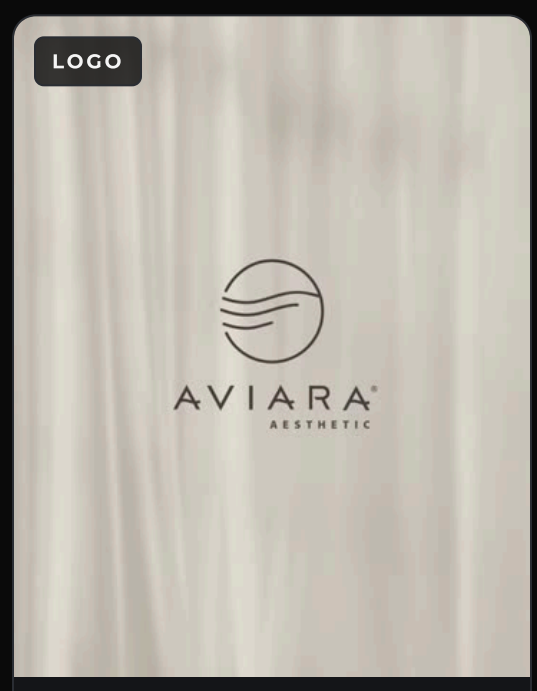

The close: her philosophy

"Naturally, our teeth should already be beautiful... support better breathing and optimal wellness."

CAMERA
The one frontal shot in the video, saved for the close. Background falls to black, warm light from one side, gentle drift.

EDIT
"foundation" in bold. 22 seconds, no cutaways.

WHY IT WORKS
The tour earned this. Side light keeps the frontal shot from ever looking flat.

31 2:29.5–2:33.1 · 3.6s

Logo card

CAMERA
Aviara logo over sheer white curtains.

EDIT
The logo fades up, the music finishes the video.

WHY IT WORKS
Ends on the brand, clean and quiet.

COLOR GRADE

Three looks, one warm thread

The grade changes with the room, but it is never cold.

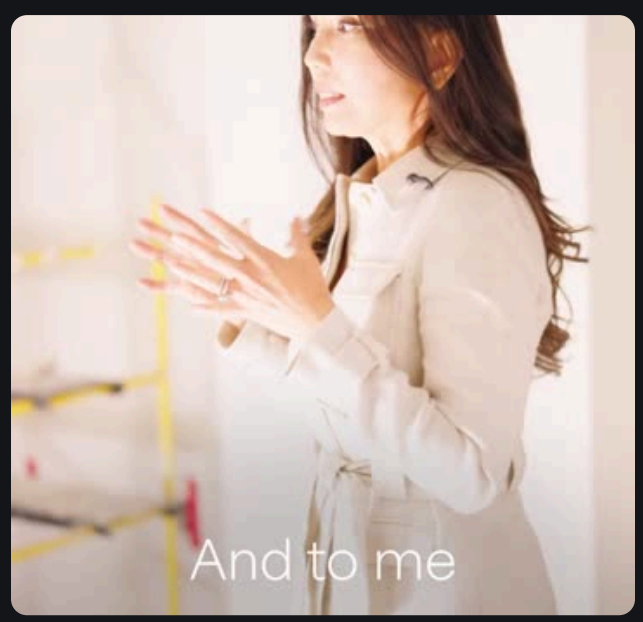

Golden raw space

Shots 3 to 5, 11, 13

Brightness	0.43
Warmth	0.23
Saturation	0.47

- Warmest look. Push white balance toward amber.
- Keep the construction honest.
- Creamy highlights, never clipped.

High-key cream

Shots 14, 17 and every render

Brightness	0.69
Warmth	0.11
Saturation	0.16

- Bright and soft, low contrast.
- Pull saturation down. Skin and walls go cream.
- Whites must read warm.

Low-key amber

Shots 18, 22 to 30

Brightness	0.25
Warmth	0.12
Saturation	0.38

- Let the shadows go almost black.
- One motivated side light, protect skin.
- About a quarter of the brightness of the cream look.

- The black and white cutaway at 0:59 is the one exception: black and white means "the old way".

MUSIC CHOICE

Voice first, music as a bed

The track is there for mood. Her voice carries the video.

92 BPM
estimated tempo of the mix

10/30
cuts land within 2 frames of a beat (about 26% would by chance)

- The music only comes up where she is not talking: the opening drones and the logo card.
- Pick something soft and warm, no lyrics, that will not compete with a two and a half minute voice track.

SOUND ENGINEERING

Voice first

-16.1 LUFS
integrated loudness (social platforms play back around -14)

-4.3 dBTP
true peak (safe, under -1)

3.1 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- The music bed sits about 11 dB under her voice (measured: about -31 dB on the logo card with no voice vs about -20 dB under her voice).
- Loudness and peaks are right on target for social.

DRONE, TRANSITIONS, FLICKERS

Every move, timestamped

0:00.0	DRONE	Beverly Hills boulevard at golden hour.
0:01.2	DRONE	The building courtyard.
0:10.6	LIGHT LEAK	Warm leak out of "little tour".
0:14.3	LIGHT LEAK	Leak out of the reception render.
0:26.7	FLASH	Light flash out of the storefront.
0:45.5	WHIP	Whip blur into the consultation room.
0:59.1	CUTAWAY	Black and white stock for "most clinics".
1:15.5	FOREGROUND WIPE	Doorframe passes the lens into the clinical suite.
1:27.8	FLARE	Practical light sweeps across the dark room.
1:45.2	FOREGROUND WIPE	Doorframe wipe into treatment #2.
2:29.5	DISSOLVE	Into the curtain logo card.

CAPTIONS AND TYPOGRAPHY

Captions, titles, marks

- Two to three words at a time, white, thin sans serif, lower third.
- **Bold one key word** per line: breathe, live, smile, sterilization, foundation.
- Big titles name the place: "little tour", "video wall", "treatment #2".
- Hand-drawn circle on "root causes" (1:07), scribble under "improve" (1:12).

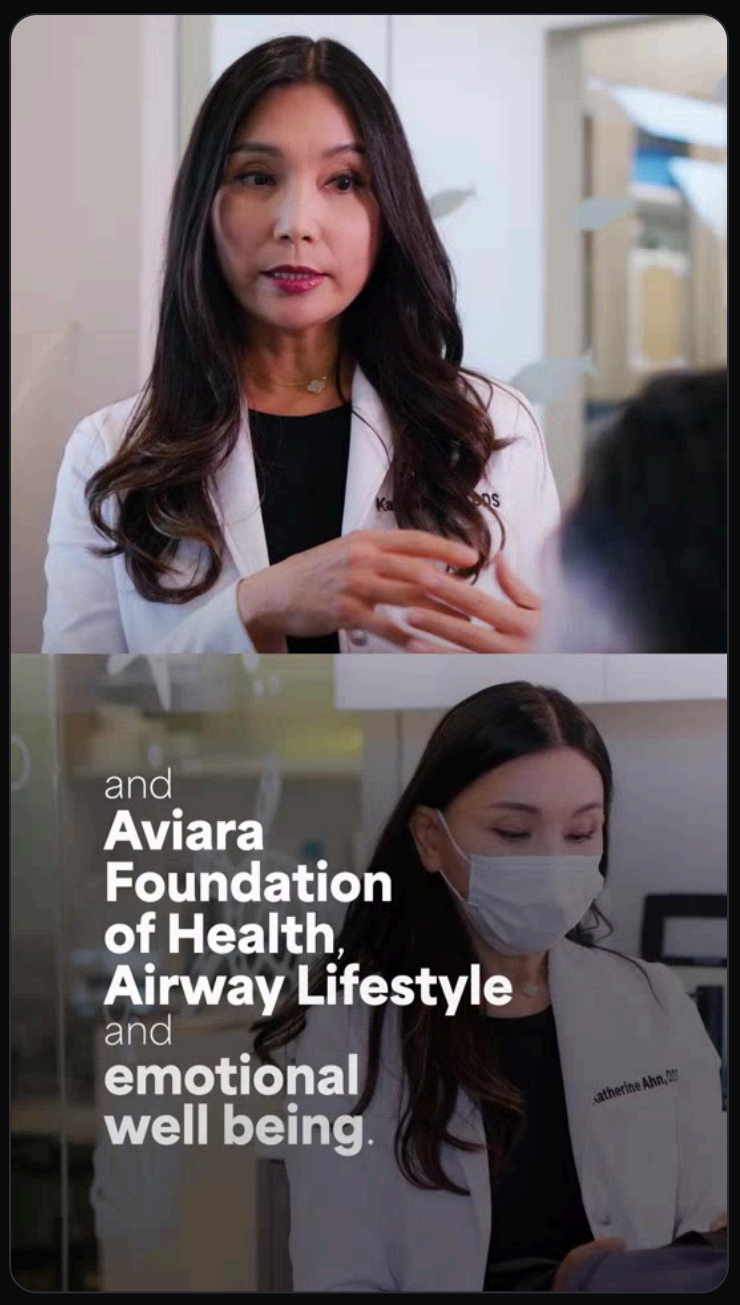

breathe better, | **live** better, | and **smile** | the **foundation**

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **Stable:** no shaky handheld in any tour shot
- [ ] **No digital zoom:** push in by cutting
- [ ] **Every raw room has its render**, cut in on the word
- [ ] **Grade:** warm cream whites, low-key rooms go dark
- [ ] **Music about 10 dB under the voice**
- [ ] **No flat frames:** 3/4 angle, off-center, foreground layer
- [ ] **New room, new angle** every time
- [ ] **Renders checked** for warped lines and fake text
- [ ] **Captions:** 2 to 3 words, one bold key word
- [ ] **End on the logo card**, about 3 seconds

HOW TO EDIT · BREAKDOWN 07 · LED WALL LOOP

The LED wall loop. Made to read across a room.

A 33 second vertical piece built for the video wall inside the clinic. No voice. Every message is on screen as type, over stacked split-screen clips, so it works on mute from across the waiting room.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #4: Aviara Aesthetic Vertical Video, LED Screen (Video 7 of 13)
FORMAT	9:16 vertical · 2160×3840 · 24 fps
RUNTIME	0:33
MADE FOR	The LED video wall in the Aviara office

33s	8	2	0
loops on the wall	compositions	clips stacked at once	voice, type only

WHAT TO STEAL

Designing for a screen on a wall

People walk past a wall. They do not sit and watch it.

Type does the talking

No voice. Every idea is a **short line of type held 3 to 4 seconds**, big enough to read from across the room.

Stack two clips

A tall screen is a lot of space. **Split it top and bottom** so there is always movement.

Name the proprietary stuff

"Aviara Method™" and "BioAesthetic Blueprint™" each get their own bold beat.

Do not let it clip

This export peaks **above 0 dBTP**. Even on a wall, limit the master to -1 dBTP.

THE STRUCTURE

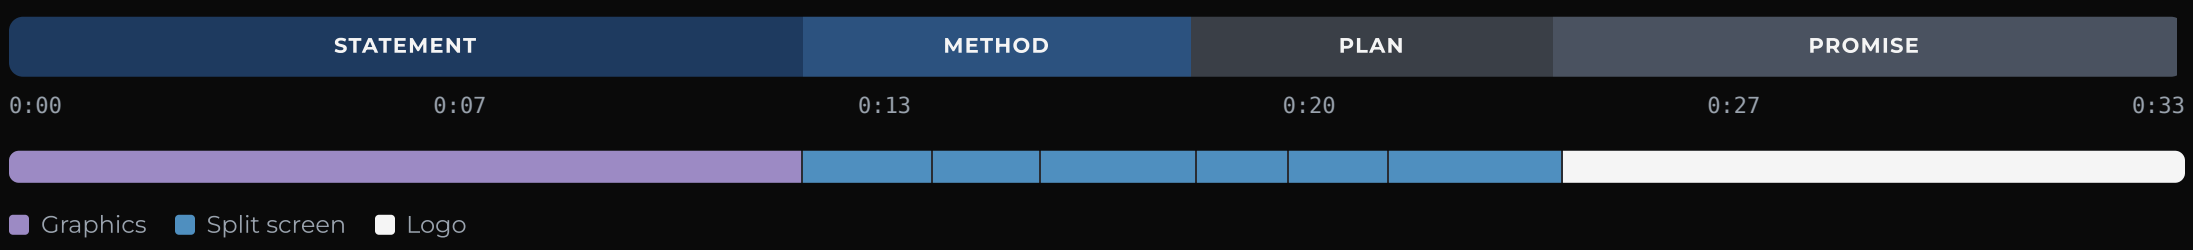

Statement, method, plan, promise

Statement
0:00–0:12
Beauty is a system, not a single treatment.

Method
0:12–0:18
The Aviara Method™ and the foundation of health.

Plan
0:18–0:24
The BioAesthetic Blueprint™.

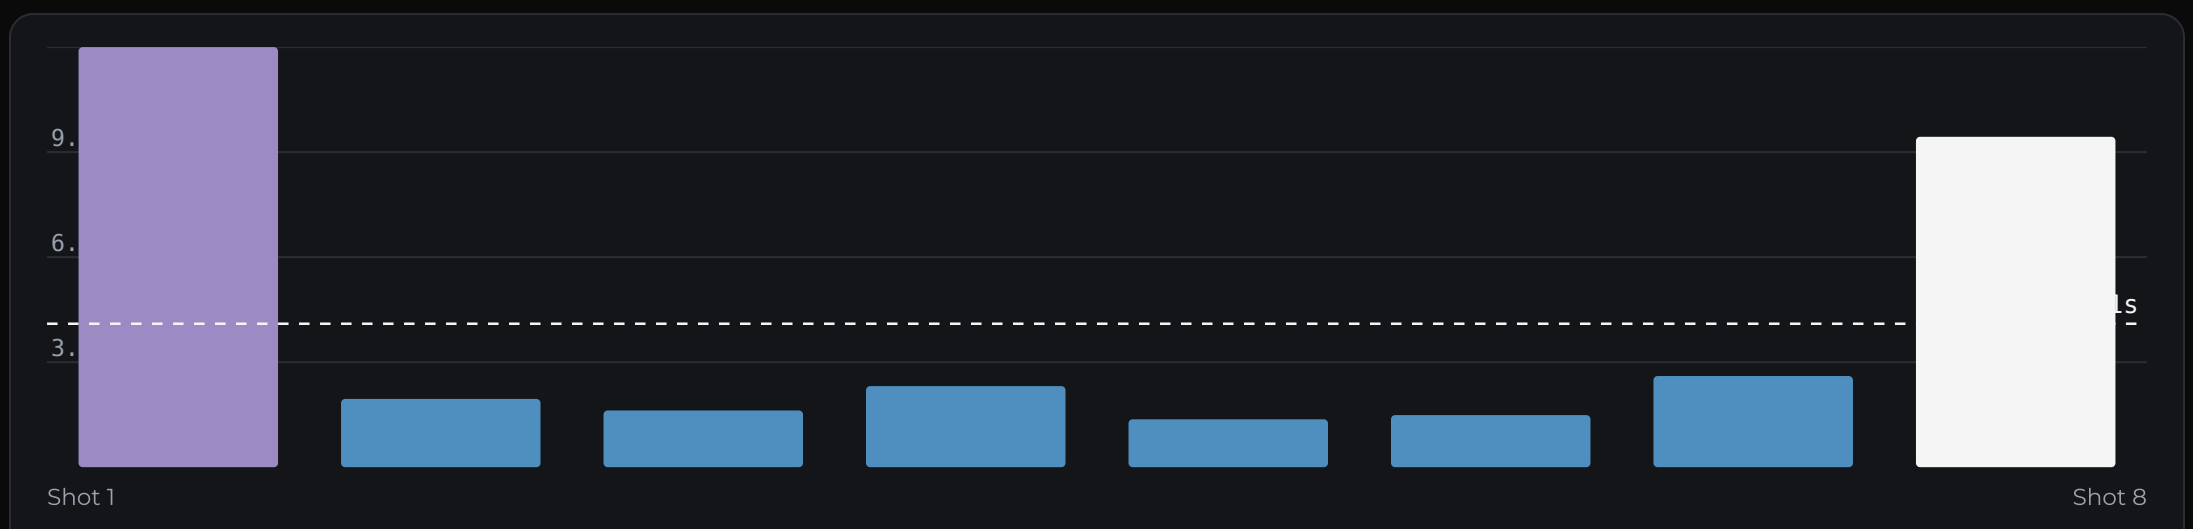

Promise
0:24–0:33
Built to last, then the logo.

PACE

Slow statements, quick splits

The two statement cards hold over 9 seconds each. The splits change every 1.5 to 2.6 seconds.

Each bar is one shot, in order. Height is how long it stays on screen.

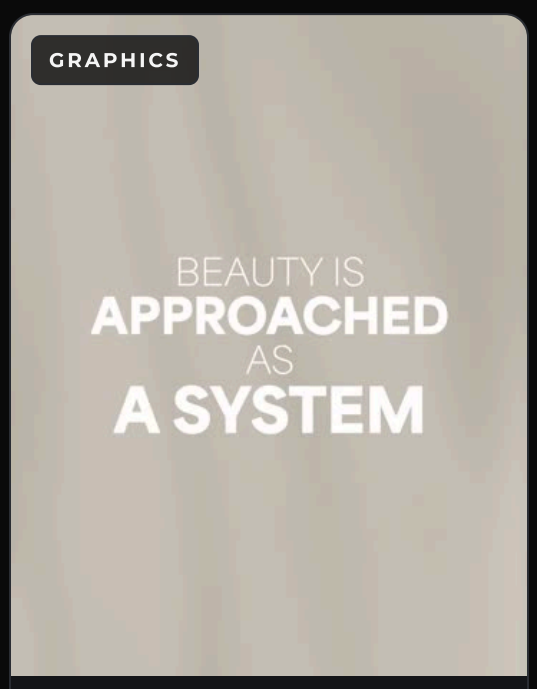

8	4.1s	1.4s	12.1s
shots in 0:33	average shot (median 2.3s)	fastest: shot 5	longest hold: shot 1

- On a wall, the first and last cards matter most: they are what people see as they walk in.

SHOT BY SHOT

8 compositions, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:12.1 · 12.1s

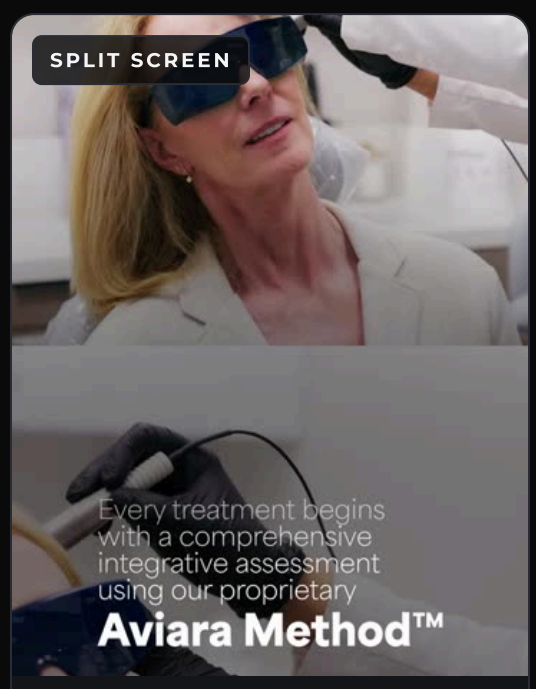

Opening statement

"Beauty is approached as a system. Not a single treatment or feature."

CAMERA
Cream fabric background, then a portrait of Dr. Ahn in the hallway rises in the lower half.

EDIT
Logo first, then two big statement lines, each held 3 to 4 seconds.

WHY IT WORKS
Reads from across the room. Big type, long holds.

02 0:12.1–0:14.0 · 2.0s

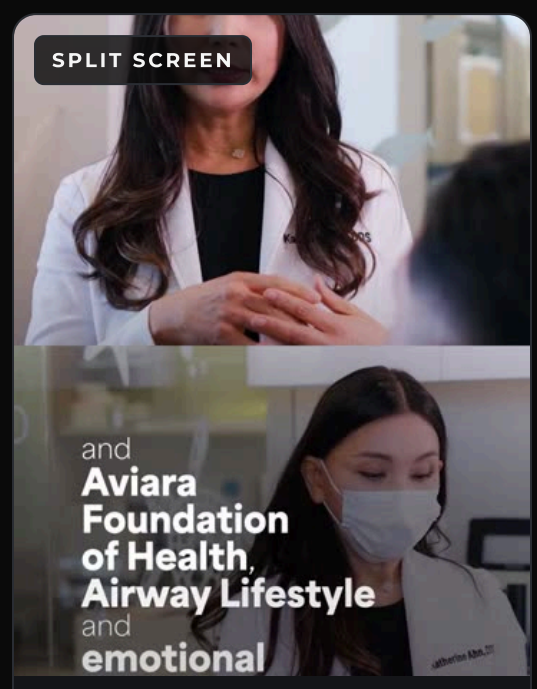

Split: treatment + the method

"Every treatment begins with a comprehensive integrative assessment using our proprietary Aviara Method™"

CAMERA
Top: a patient in laser glasses. Bottom: a hand with a handpiece.

EDIT
Small serif sentence, then "Aviara Method™" in bold.

WHY IT WORKS
Two clips at once keep a tall screen full.

03 0:14.0–0:15.7 · 1.6s

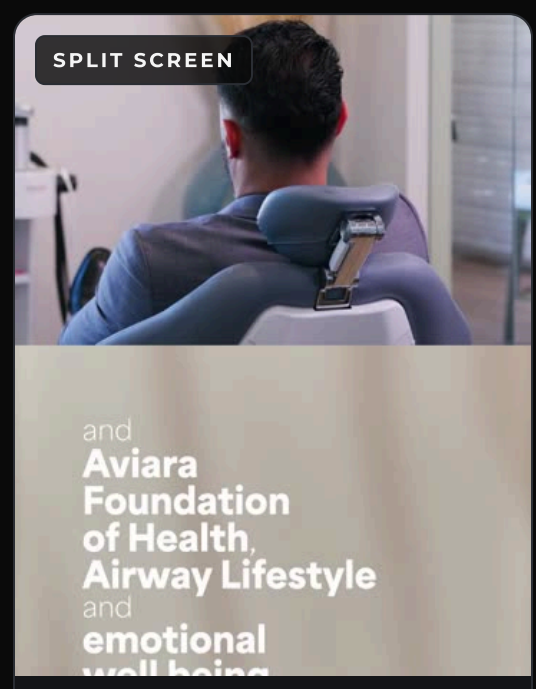

Split: Dr. Ahn + masked clinician

"and Aviara Foundation of Health, Airway Lifestyle and emotional well being"

CAMERA
Top: Dr. Ahn mid sentence. Bottom: a masked clinician at work.

EDIT
A stacked list of bold phrases.

WHY IT WORKS
The list builds line by line, so viewers walking by catch a piece.

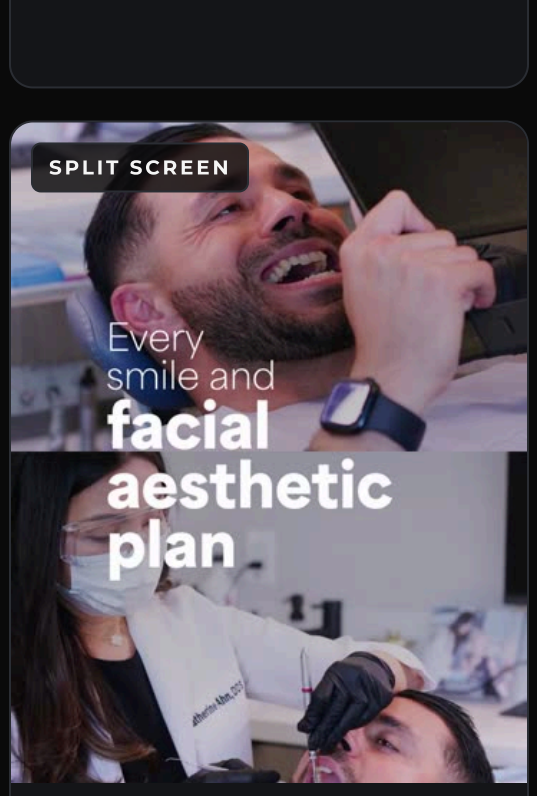

04 0:15.7–0:18.0 · 2.3s

Split: patient in the chair

CAMERA
Top: patient from behind in the chair. Bottom: the list on fabric.

EDIT
Text fades out to fabric.

WHY IT WORKS
A beat of rest between messages.

05 0:18.0–0:19.4 · 1.4s

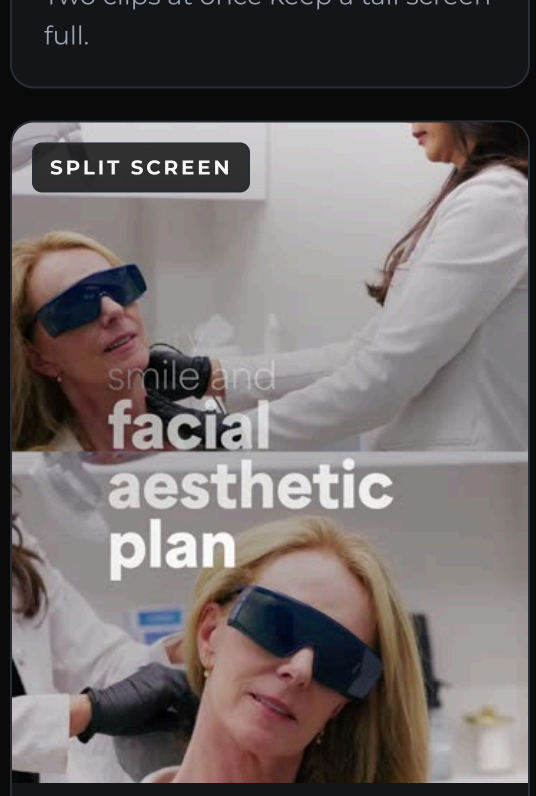

Split: exam

"Every smile and facial aesthetic plan"

CAMERA
Top: male patient during an exam. Bottom: Dr. Ahn examining him.

EDIT
Bold "facial aesthetic plan".

WHY IT WORKS
Real exams, real hands. Proof of the method.

06 0:19.4–0:20.9 · 1.5s

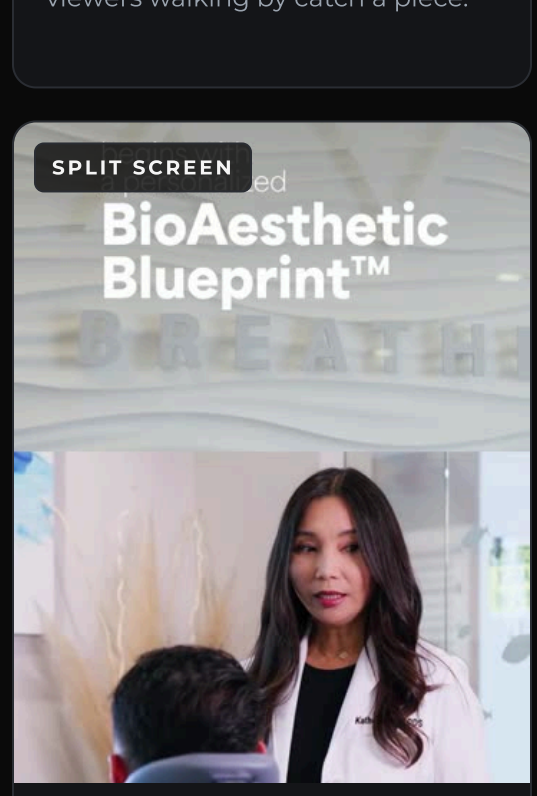

Split: laser treatment

"begins with a personalized"

CAMERA
Top: Dr. Ahn and a patient in laser glasses. Bottom: the patient closer.

EDIT
Text crosses the two halves.

WHY IT WORKS
Wide on top, close on the bottom: same moment, two sizes.

07 0:20.9–0:23.5 · 2.6s

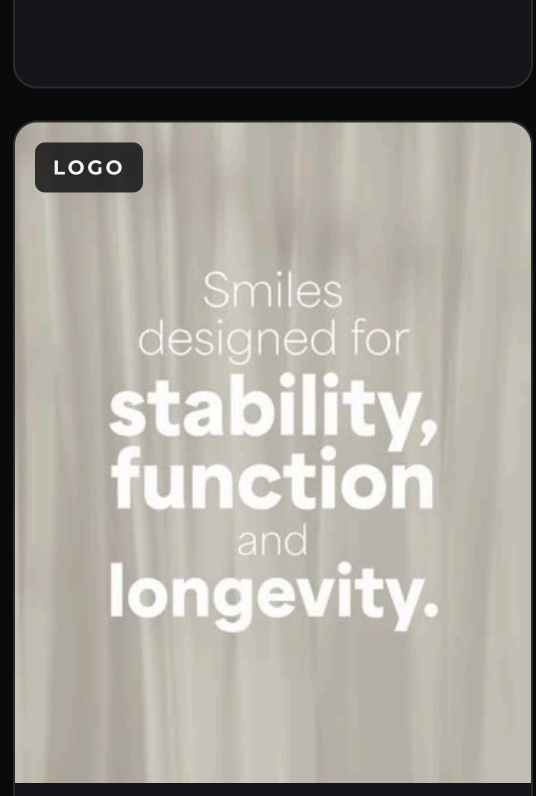

Split: BioAesthetic Blueprint™

"BioAesthetic Blueprint™"

CAMERA
Top: fabric with the name. Bottom: Dr. Ahn with a patient.

EDIT
Proprietary name in bold, then fade.

WHY IT WORKS
Trademarked names always get their own beat.

08 0:23.5–0:33.0 · 9.5s

Promise + logo

"ensuring results that are natural, cohesive, regenerative, and built to last. Smiles designed for stability, function and longevity."

CAMERA
Dr. Ahn walks down the hallway, then the cream fabric with the logo.

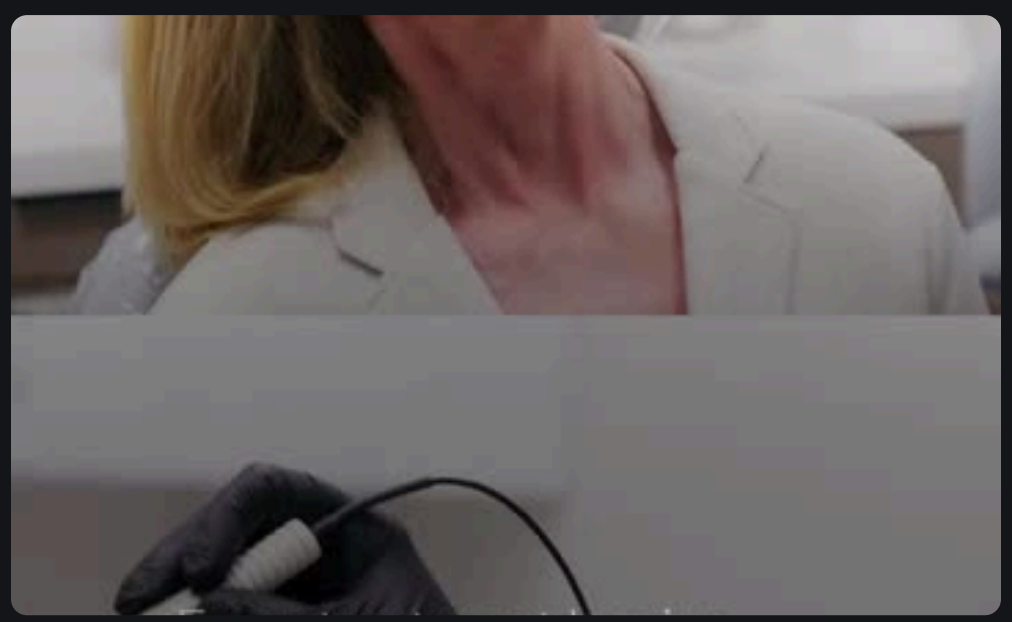

EDIT
Two final statement cards, then the logo holds for 3 seconds.

WHY IT WORKS
Ends on the brand, ready to loop.

COLOR GRADE

Soft and bright

The footage is pulled slightly soft and bright so white type always reads on top of it.

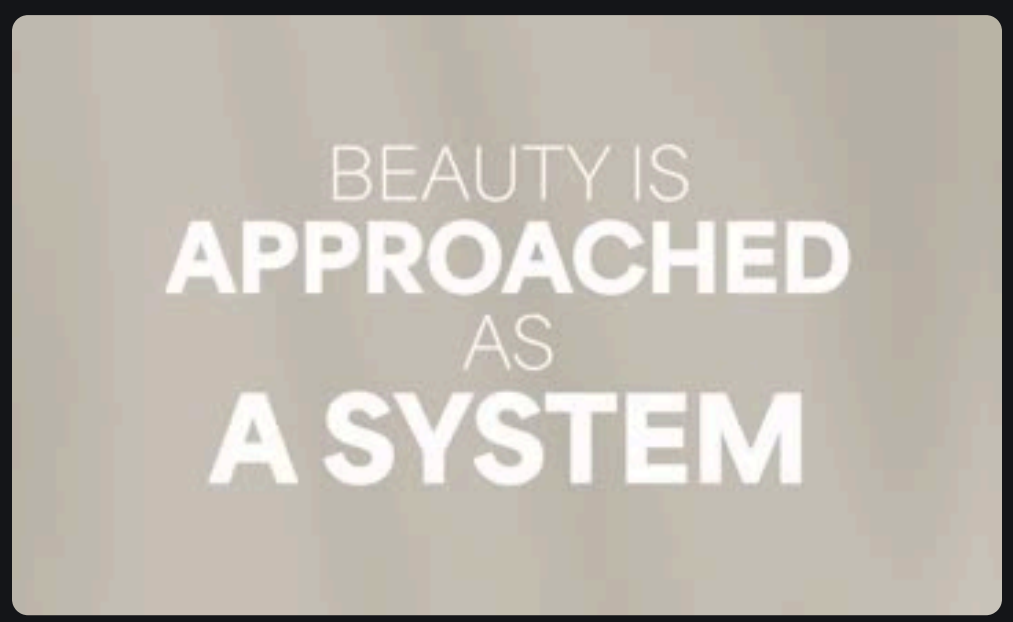

Clinic split

Shots 2 to 7

Brightness	0.49
Warmth	0.02
Saturation	0.16

- Bright, low contrast.
- Slightly lowered saturation.
- Leave room in brightness for white type.

Fabric card

Shots 1, 8

Brightness	0.74
Warmth	0.06
Saturation	0.08

- Cream fabric, warm.
- Same as every Aviara end card.

MUSIC CHOICE

Music only, punchy

With no voice, the track carries all the sound.

92 BPM
estimated tempo of the mix

3/7
cuts land within 2 frames of a beat (about 26% would by chance)

- The loudness swings up and down every half second: a pulsing, rhythmic track.
- On a wall, keep it calm enough to sit under conversation in the waiting room.

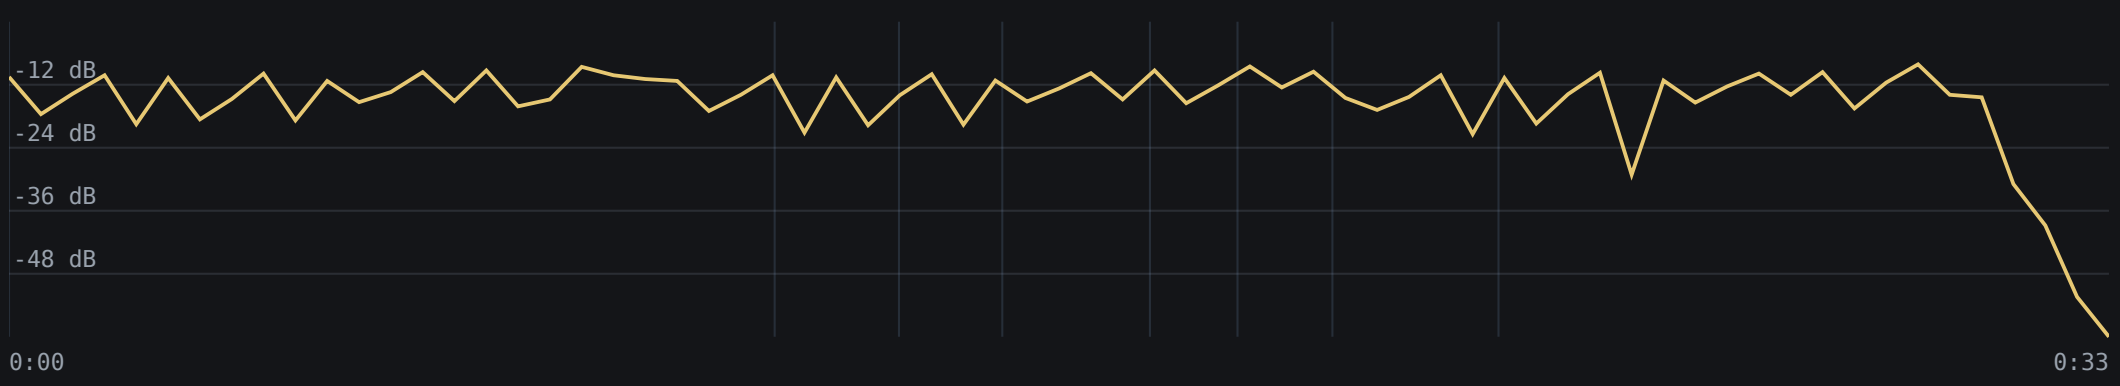

SOUND ENGINEERING

Too hot: fix before reuse

-9.9 LUFS
integrated loudness (social platforms play back around -14)

+4.1 dBTP
true peak (over 0, it will clip; limit to -1)

2.1 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- This export peaks at about **+4 dBTP**, well over 0. That will distort on most speakers. Put a true peak limiter at -1 dBTP on the master.
- It is also loud overall (about -10 LUFS). For a waiting room, -16 to -18 LUFS is more comfortable.

DRONE, TRANSITIONS, FLICKERS

Every change, timestamped

No drone and no flash frames. Changes are soft, so the wall never strobes.

0:00.0	LOGO	Logo fades up on the fabric.
0:09.5	SPLIT	Portrait rises into the lower half.
0:12.1	SPLIT	Two stacked treatment clips begin.
0:23.5	WALK	Dr. Ahn walks down the hallway.
0:29.5	LOGO	Final logo card, ready to loop.

CAPTIONS AND TYPOGRAPHY

Two sizes of type

- Small serif sentence on top, then the key phrase big and bold below it.
- Statements in all caps sans serif.
- White text with no box, on footage that is pulled down a little so the type stays readable.

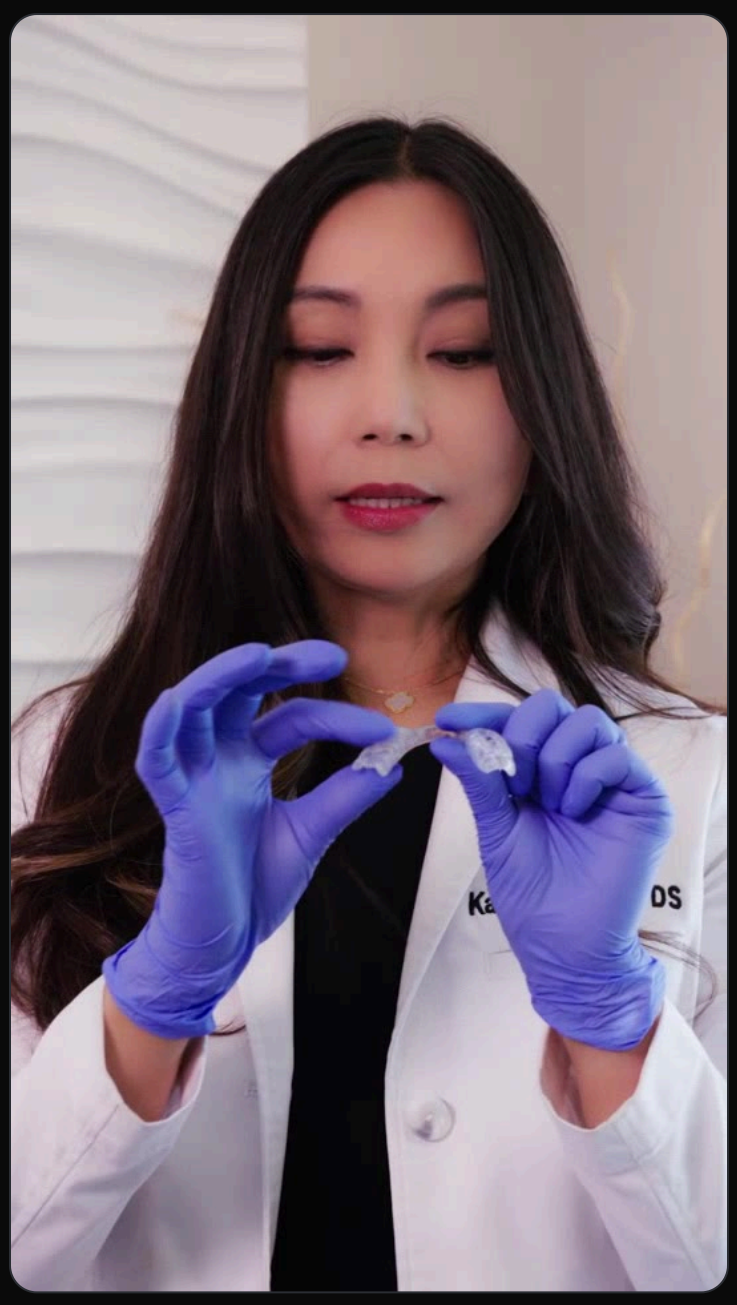

BEAUTY IS **APPROACHED AS A SYSTEM** | **Aviara Method™** | **BioAesthetic Blueprint™**

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **No voice:** every message on screen
- [ ] **Two stacked clips** to fill the tall screen
- [ ] **Ends on the logo**, loop tested
- [ ] **Type held 3 to 4 seconds**, readable from across a room
- [ ] **No flash frames** on a wall display
- [ ] **True peak under -1 dBTP**

HOW TO EDIT · BREAKDOWN 08 · CASE EXPLAINER

The case explainer. Doctor, device, patient.

Dr. Ahn explains a patient's oral appliance with the device in her hands, intercut with the patient's visit, stock close-ups, an airway diagram and fabric resets. The patient gets the last word.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #5: Patient Case Explanation by Dr. Ahn (Video 8 of 13)
FORMAT	9:16 vertical · 2160×3840 · 23.976 fps
RUNTIME	1:45
MADE FOR	Educational content: how a treatment works, told through one patient

1:45	34	15s	4
total runtime	shots	longest hold, on her explanation	fabric reset cards

WHAT TO STEAL

What to steal from this one

Education works when the viewer can see what the doctor is talking about.

Hold the thing

She has the appliance in her hands the whole time. **A prop turns a lecture into a demo.**

Show, then explain

Patient arrival, stock close-ups and a diagram show what she means while she is saying it.

Patient gets the last word

The final 15 seconds are the patient talking. **Proof beats explanation.**

Fabric resets need a job

The four blank fabric cards (0:30, 0:47, 1:14, 1:21) hold 2 to 4 seconds with nothing on them. Next time put the chapter's key word on the fabric so the rest beat still teaches.

THE STRUCTURE

Hook, story, explain, prove

Hook
0:00–0:06
The appliance, her name, her look up.

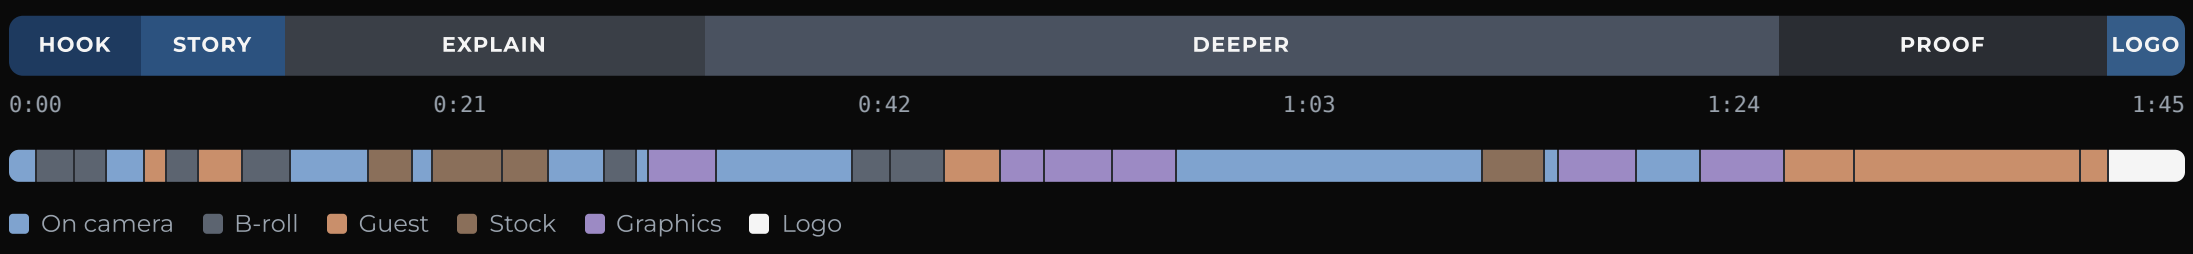

Story
0:06–0:13
The patient arrives and meets her.

Explain
0:13–0:34
How it works, with stock close-ups.

Deeper
0:34–1:26
Airway diagram, 3D model, the long explanation.

Proof
1:26–1:41
The patient in her own words.

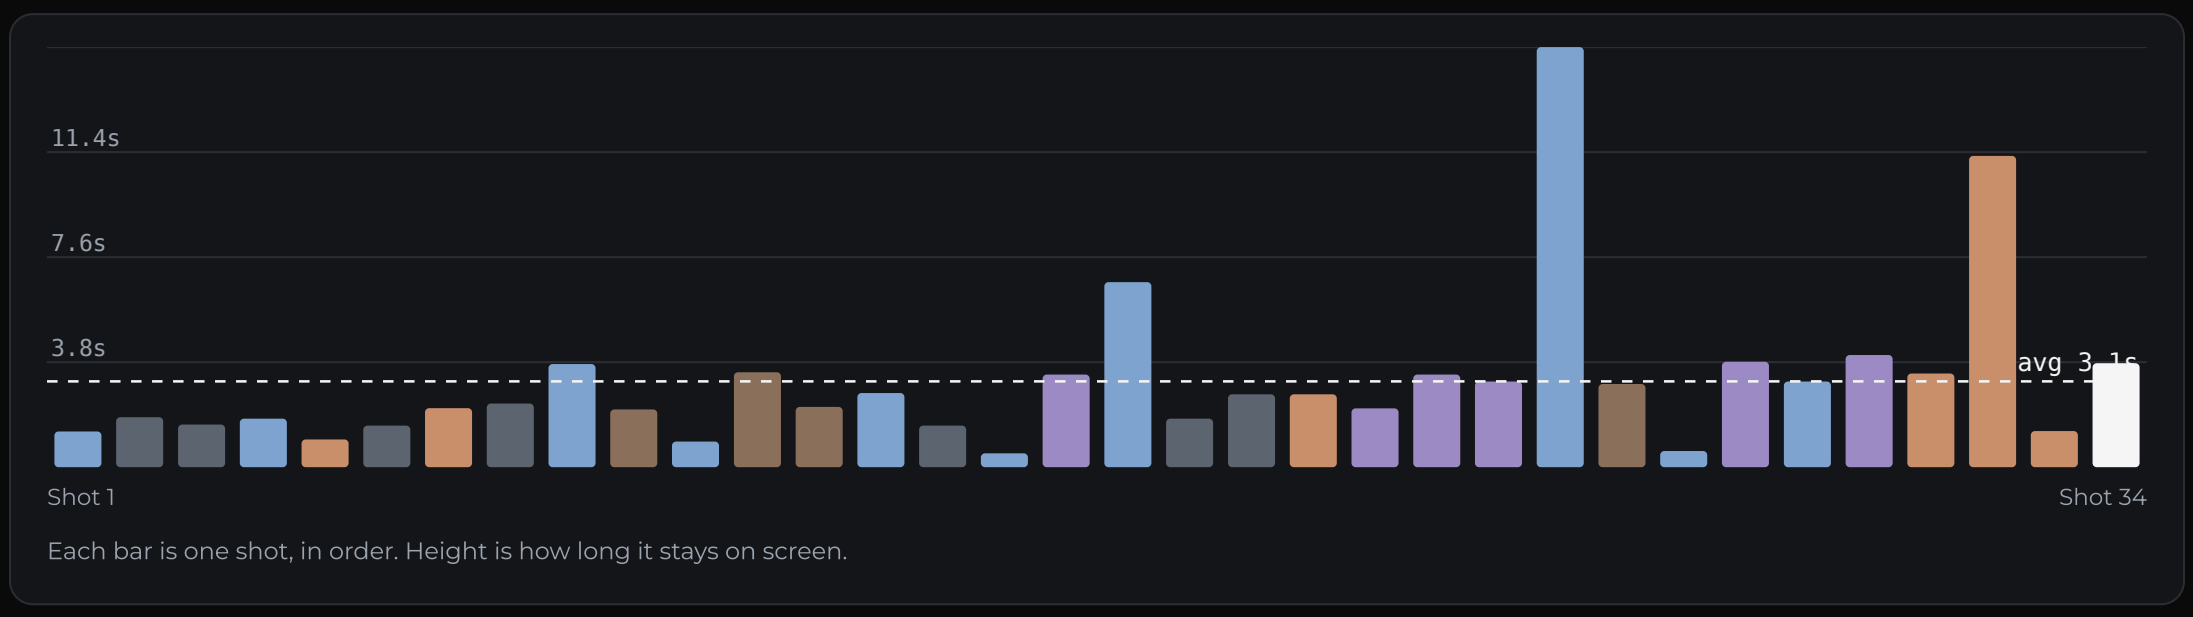

Logo
1:41–1:45
Logo card.

PACE

Quick story, long explanation

The first 30 seconds average about 2 seconds a shot. The middle slows down for teaching.

Each bar is one shot, in order. Height is how long it stays on screen.

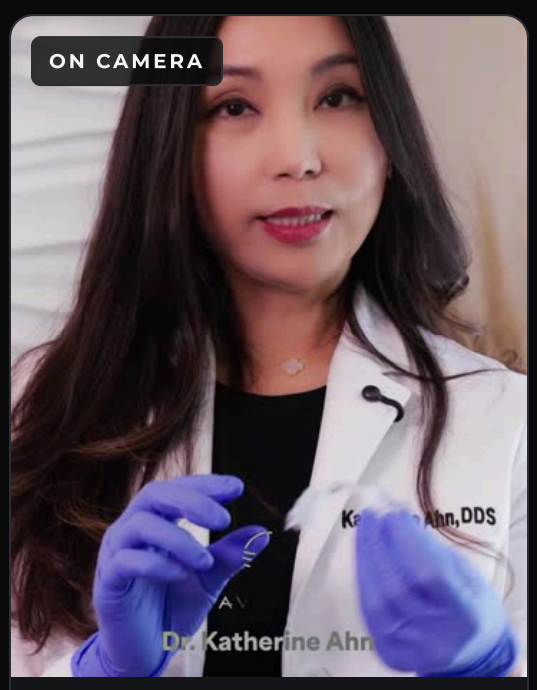

34	3.1s	0.5s	15.1s
shots in 1:45	average shot (median 2.6s)	fastest: shot 16	longest hold: shot 25

- Story beats (arrival, hallway, greeting) are 1 to 2 seconds each.
- The longest holds belong to the doctor explaining and the patient's story.

SHOT BY SHOT

34 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

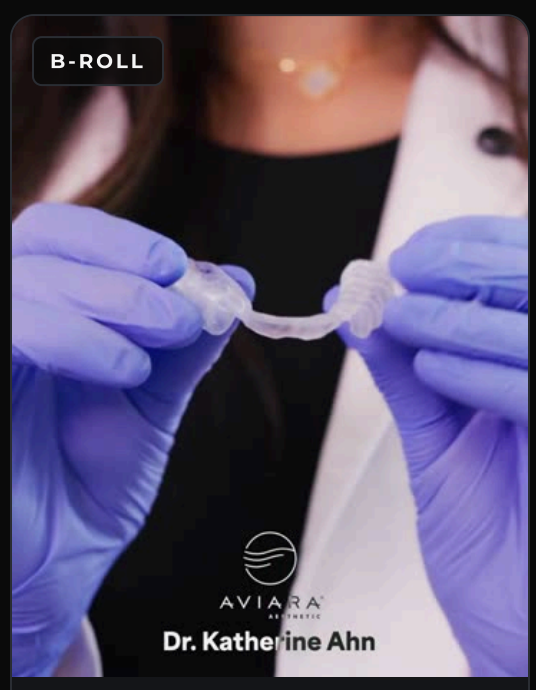

01 0:00.0–0:01.3 · 1.3s

Hook: the appliance in hand

CAMERA
Medium close-up, Dr. Ahn holds the clear appliance at chest height, soft wall behind.

EDIT
No title, she is already talking.

WHY IT WORKS
Open on the object the whole video is about.

02 0:01.3–0:03.1 · 1.8s

Insert: the appliance

CAMERA
Tight on gloved hands turning the appliance.

EDIT
Lower third: Aviara logo and "Dr. Katherine Ahn".

WHY IT WORKS
Her name lands over the product, not over her face.

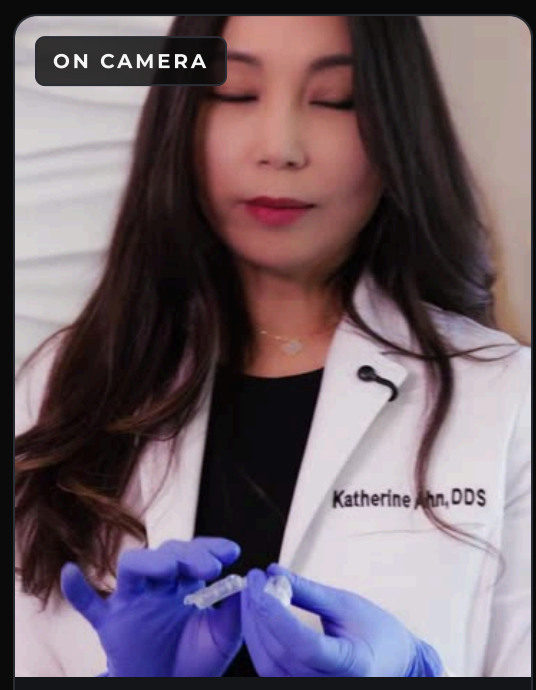

03 0:03.1–0:04.6 · 1.5s

Insert: on the palm

CAMERA
Appliance resting on a gloved palm, shallow focus.

EDIT
Lower third holds, warm light leak out.

WHY IT WORKS
The leak marks the end of the intro.

04 0:04.6–0:06.4 · 1.8s

Medium: she looks up

CAMERA
Same setup, she looks from the appliance to the lens.

EDIT
Cut on the look up.

WHY IT WORKS
The look up is her "let me tell you" moment.

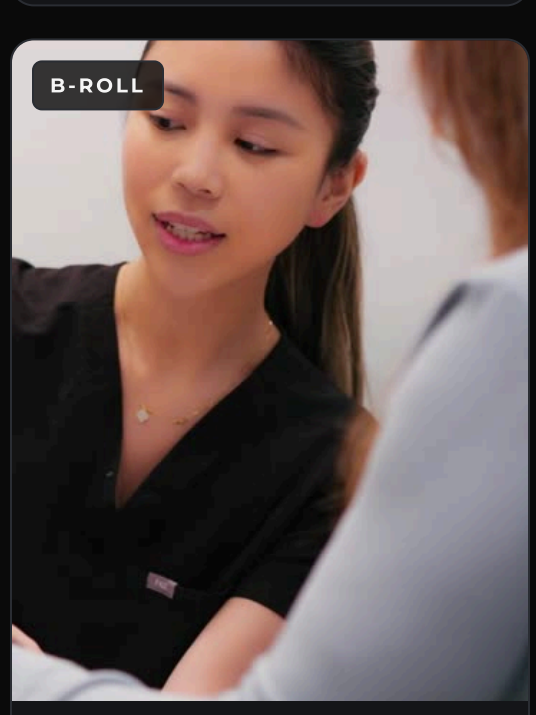

05 0:06.4–0:07.4 · 1.0s

Patient arrives

CAMERA
Patient walks through the glass entrance door.

EDIT
Under one second.

WHY IT WORKS
Starts the patient story without a word.

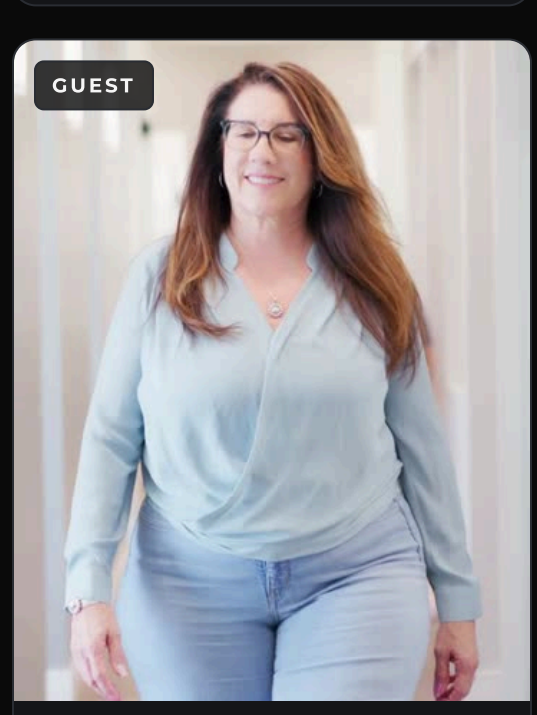

06 0:07.4–0:08.9 · 1.5s

Front desk

CAMERA
Staff member at the desk talking with the patient, over the shoulder.

EDIT
Quick cut.

WHY IT WORKS
Shows the whole team, not just the doctor.

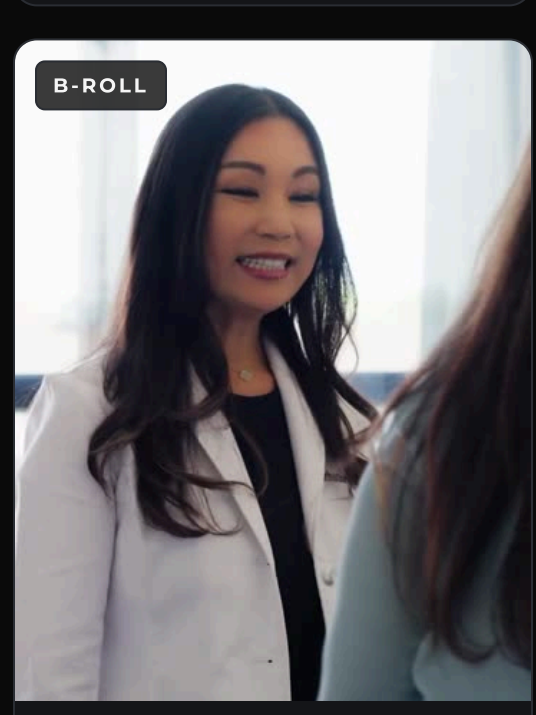

07 0:08.9–0:11.0 · 2.1s

Hallway walk

CAMERA
Patient walks toward camera down a bright hallway.

EDIT
Stable gimbal, symmetrical frame.

WHY IT WORKS
A walk-in feels like arriving with her.

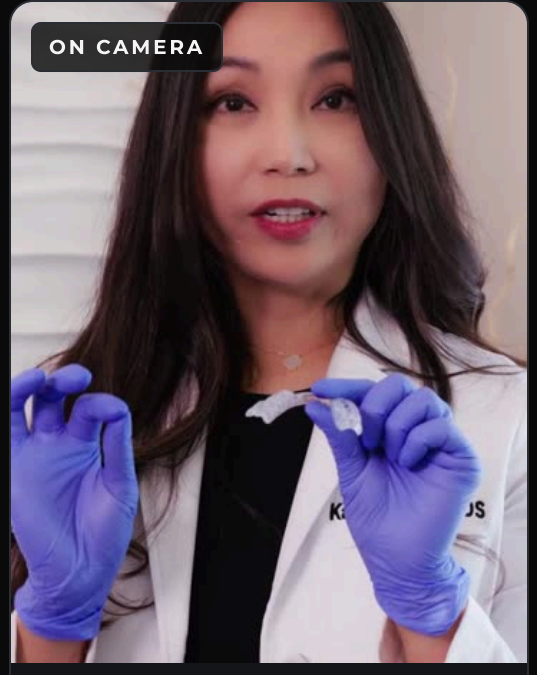

08 0:11.0–0:13.3 · 2.3s

Hair wipe greeting

CAMERA
Foreground hair passes the lens, revealing Dr. Ahn greeting the patient by the window.

EDIT
Natural foreground wipe as the cut point.

WHY IT WORKS
Foreground wipes hide cuts without any effect.

09 0:13.3–0:17.0 · 3.7s

Medium: the explanation starts

CAMERA
Back to her medium close-up, appliance in both hands.

EDIT
Holds while she explains.

WHY IT WORKS
Back to the teacher after the story beats.

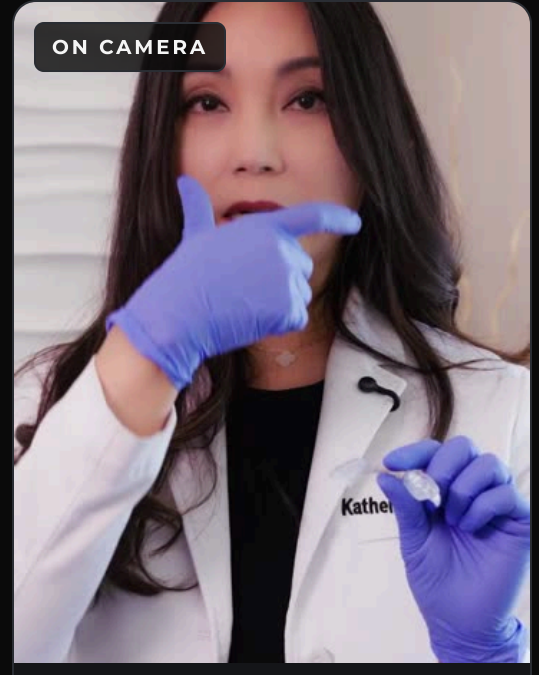

10 0:17.0–0:19.1 · 2.1s

Stock: appliances on teeth

CAMERA
Two close-ups of clear appliances on teeth, stacked top and bottom.

EDIT
Split screen.

WHY IT WORKS
Shows exactly what she is describing.

11 0:19.1–0:20.0 · 0.9s

Pointing beat

CAMERA
She points with a gloved finger.

EDIT
Short cut on the gesture.

WHY IT WORKS
A gesture makes a natural one-second cut.

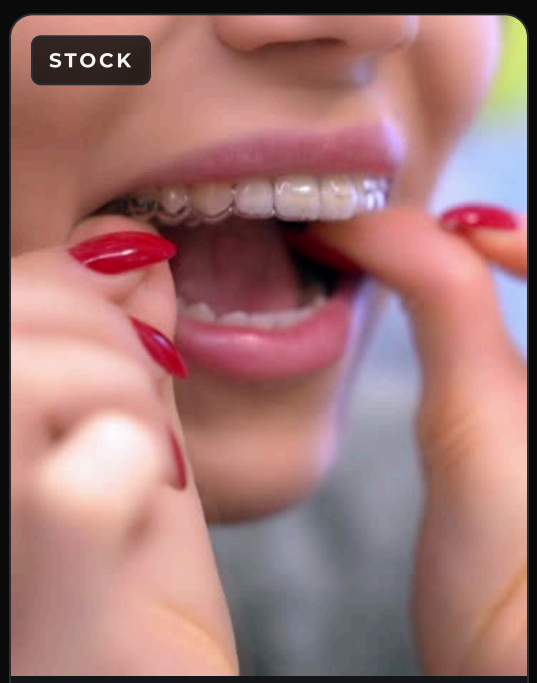

12 0:20.0–0:23.4 · 3.4s

Stock: trays in the case

CAMERA
Clean product shot of clear trays in a blue case.

EDIT
Holds 3.4 seconds.

WHY IT WORKS
A product shot reads like an ad, in a good way.

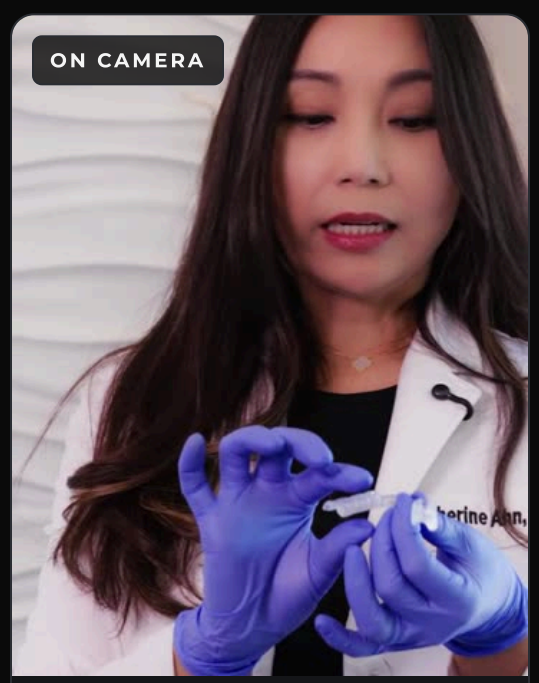

13 0:23.4–0:25.6 · 2.2s

Stock: putting it in

CAMERA
Close-up of a woman fitting a clear tray.

EDIT
Quick cut.

WHY IT WORKS
Shows how easy it is to use.

14 0:25.6–0:28.3 · 2.7s

Medium: hands demo

CAMERA
Medium close-up, she demonstrates with the appliance.

EDIT
Holds.

WHY IT WORKS
Hands in frame keep a talking head visual.

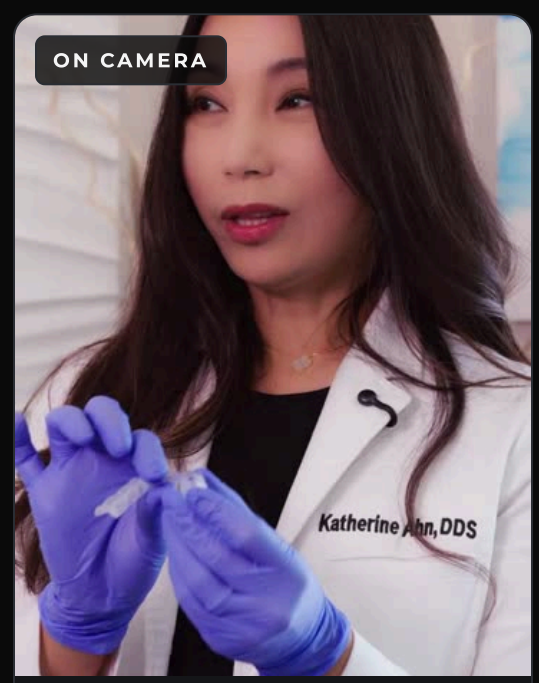

15 0:28.3–0:29.8 · 1.5s

Insert: appliance against the wall

CAMERA
Appliance in a gloved hand against the textured wall.

EDIT
Short insert.

WHY IT WORKS
The textured wall matches the fabric cards.

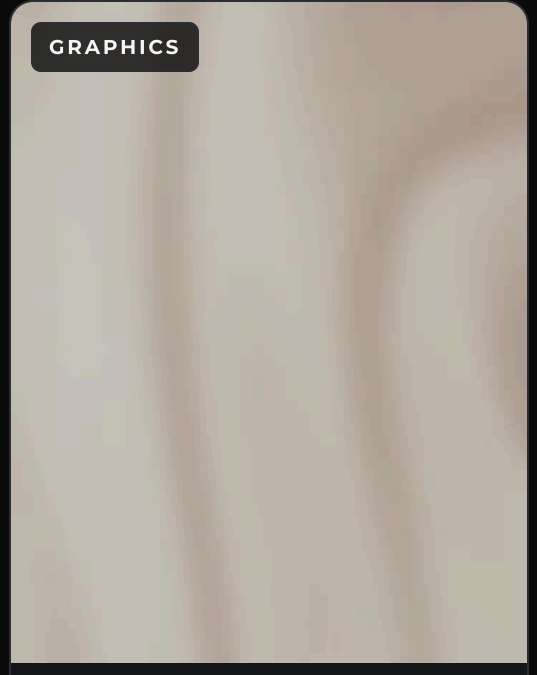

16 0:29.8–0:30.3 · 0.5s

Light leak out

CAMERA
Half second of her medium shot.

EDIT
Warm light leak transition.

WHY IT WORKS
Leaks mark a new chapter.

17 0:30.3–0:33.6 · 3.3s

Fabric reset

CAMERA
Cream fabric moving slowly.

EDIT
Holds 3.3 seconds under her voice.

WHY IT WORKS
A visual rest between chapters.

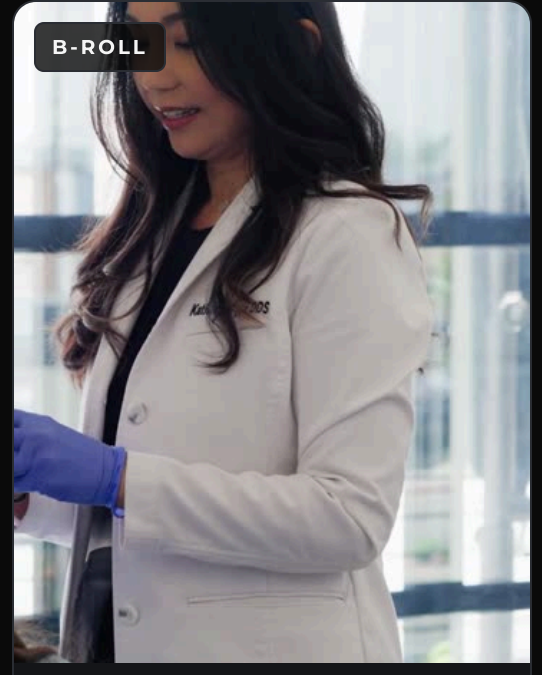

18 0:33.6–0:40.3 · 6.7s

Medium: the airway

CAMERA
Her medium close-up, she looks down and back up while explaining.

EDIT
Holds 6.7 seconds.

WHY IT WORKS
Long holds are fine when the talent is moving and engaged.

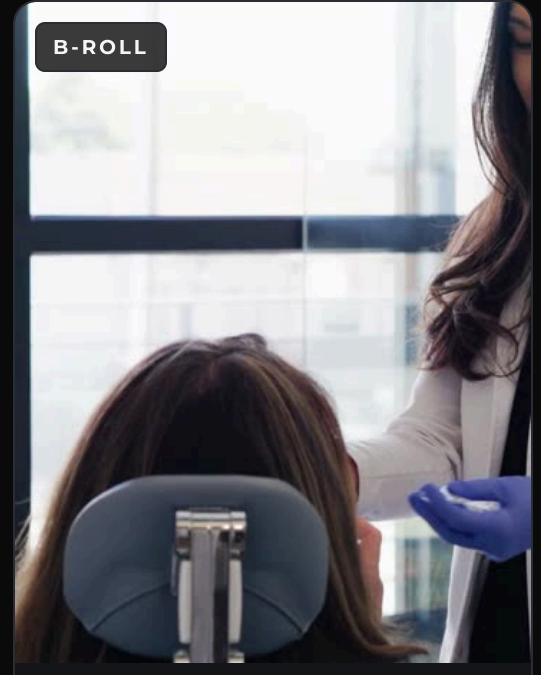

19 0:40.3–0:42.0 · 1.8s

Dr. Ahn with the patient

CAMERA
Dr. Ahn standing by the window with the patient.

EDIT
B-roll over her voice.

WHY IT WORKS
Shows the conversation she is describing.

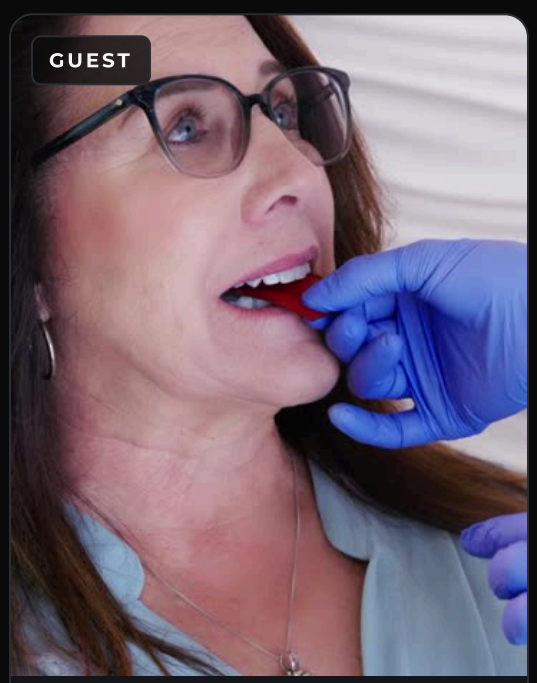

20 0:42.0–0:44.7 · 2.6s

From behind the chair

CAMERA
Patient in the chair from behind, Dr. Ahn beside her.

EDIT
Over the shoulder.

WHY IT WORKS
A new angle on the same moment.

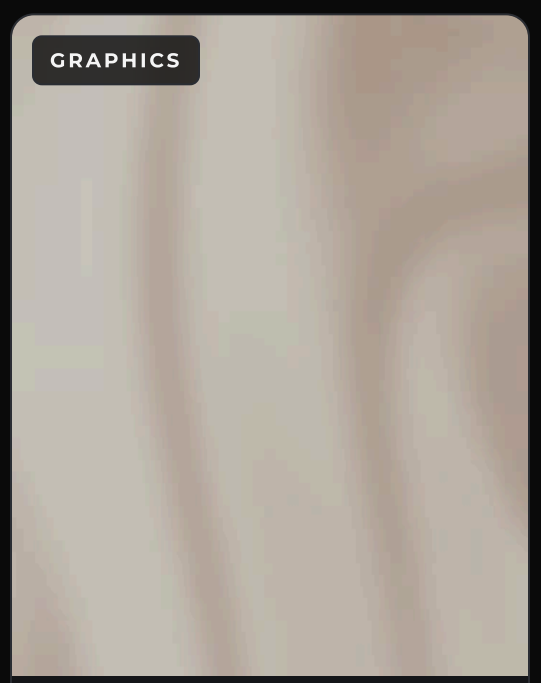

21 0:44.7–0:47.3 · 2.6s

Fitting the appliance

CAMERA
Close on the patient as the appliance is fitted.

EDIT
Under her voice.

WHY IT WORKS
Proof: it fits a real patient.

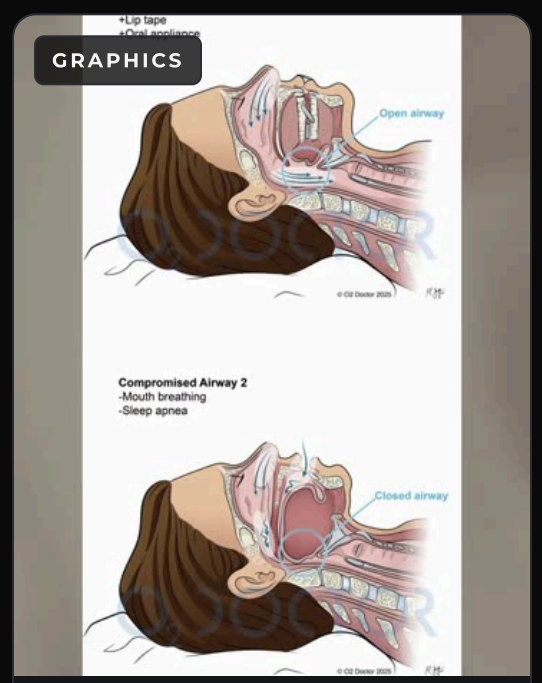

22 0:47.3–0:49.4 · 2.1s

Fabric reset

CAMERA
Cream fabric.

EDIT
Bright flash in and out.

WHY IT WORKS
Clears the screen for the diagram.

23 0:49.4–0:52.8 · 3.3s

Diagram: airway

CAMERA
Medical illustration of an open vs compressed airway on the fabric.

EDIT
Graphic held 3.3 seconds.

WHY IT WORKS
A diagram explains in one frame what words take a minute to say.

24 0:52.8–0:55.9 · 3.1s

3D teeth model

CAMERA
3D teeth model rotating on the fabric.

EDIT
Flash out.

WHY IT WORKS
Motion keeps the graphic alive.

25 0:55.9–1:11.0 · 15.1s

The long explanation

CAMERA
Medium close-up, the longest hold in the video.

EDIT
15 seconds, no cutaways.

WHY IT WORKS
When she is on a roll, let her talk.

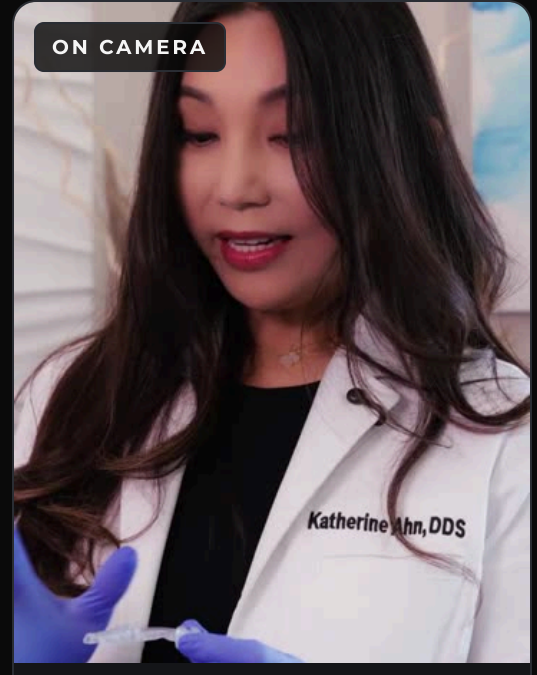

26 1:11.0–1:14.0 · 3.0s

Stock: sleeping

CAMERA
A woman asleep on a couch in warm light.

EDIT
Under her voice.

WHY IT WORKS
Sleep is the payoff of good breathing.

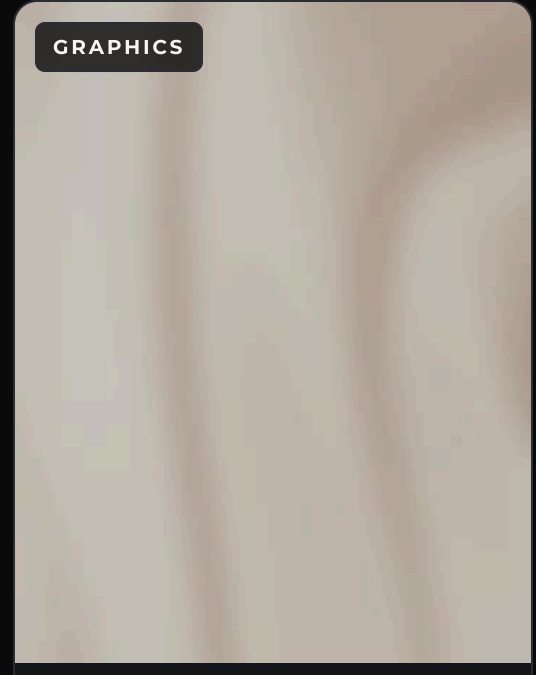

27 1:14.0–1:14.6 · 0.6s

Light leak out

CAMERA
Short beat of her medium shot.

EDIT
Warm leak.

WHY IT WORKS
Chapter marker.

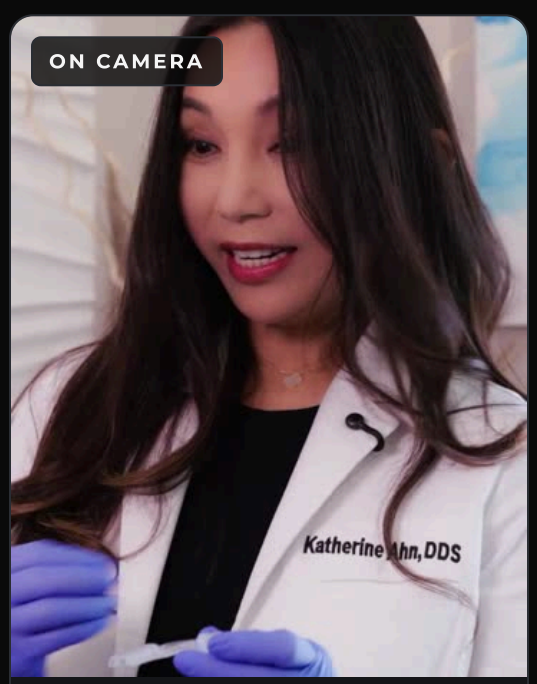

28 1:14.6–1:18.4 · 3.8s

Fabric reset

CAMERA
Cream fabric.

EDIT
Holds under her voice.

WHY IT WORKS
Rest beat.

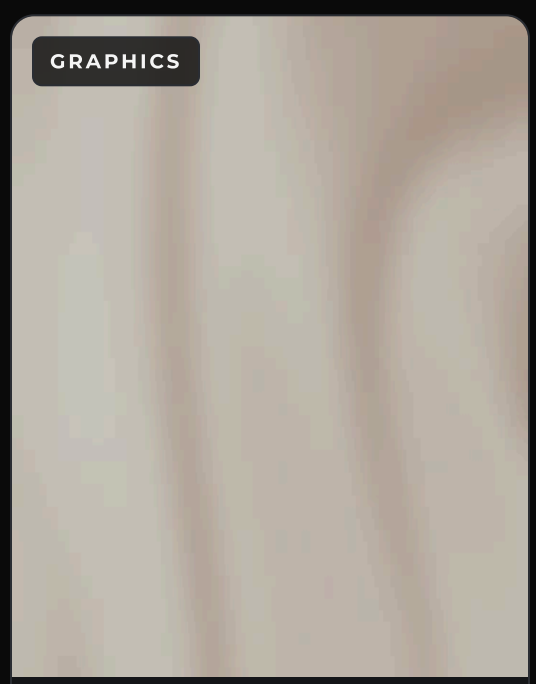

29 1:18.4–1:21.5 · 3.1s

Medium: wrap-up

CAMERA
Her medium close-up.

EDIT
Flash in and out.

WHY IT WORKS
Short return to the doctor.

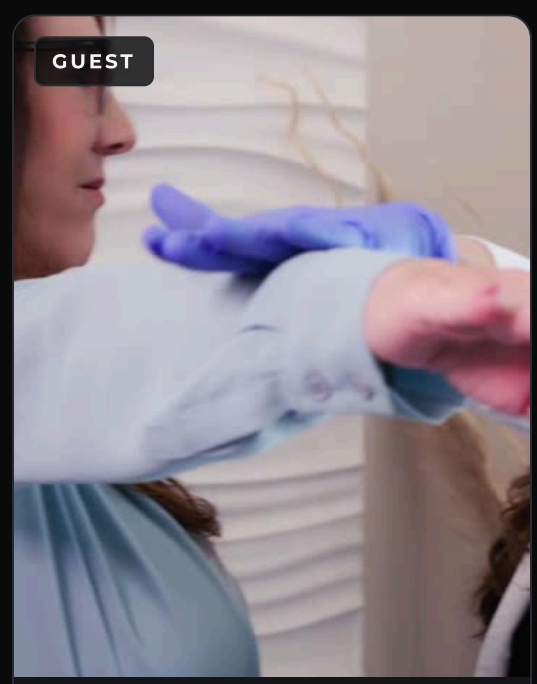

30 1:21.5–1:25.5 · 4.0s

Fabric reset

CAMERA
Cream fabric.

EDIT
Bright flash out to the patient.

WHY IT WORKS
Clears the way for the patient's turn.

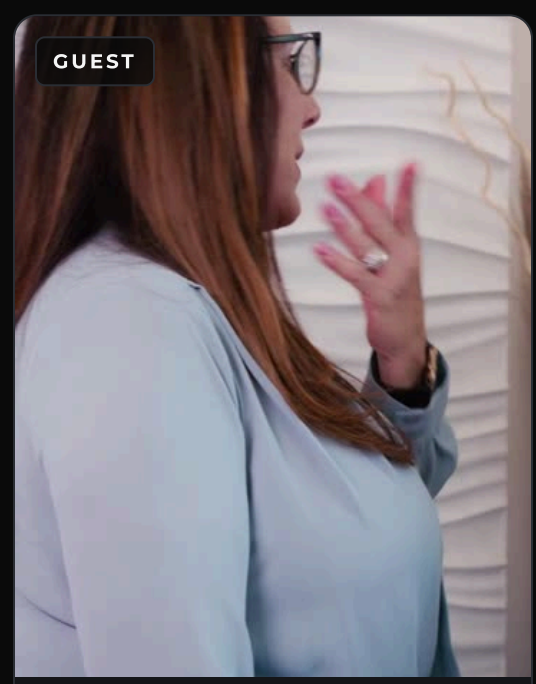

31 1:25.5–1:28.9 · 3.4s

Patient: name super

CAMERA
Patient and Dr. Ahn in a two-shot, hands gesturing.

EDIT
Lower third: "Patient: Deneen Mercado".

WHY IT WORKS
The name comes up when she starts to speak.

32 1:28.9–1:40.1 · 11.2s

Patient: her story

CAMERA
Patient in profile, hand to her cheek, talking.

EDIT
Holds 11 seconds.

WHY IT WORKS
The patient gets the last word.

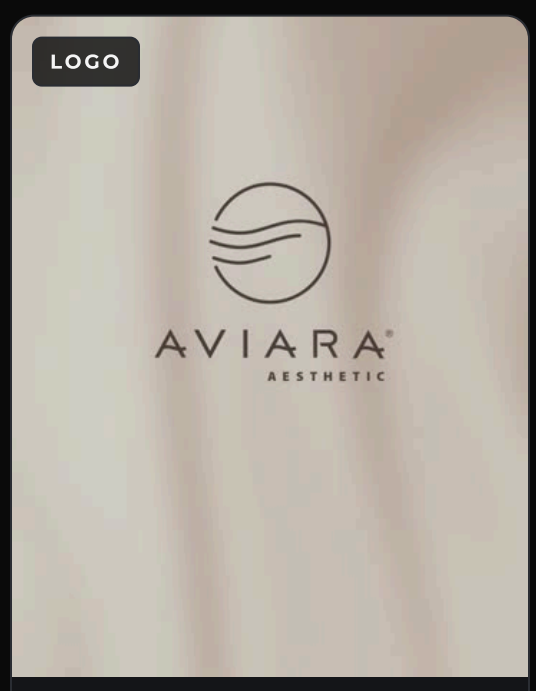

33 1:40.1–1:41.4 · 1.3s

Patient: last beat

CAMERA
Patient finishing her thought.

EDIT
Dissolve out.

WHY IT WORKS
Ends on the human, not the device.

34 1:41.4–1:45.2 · 3.8s

Logo card

CAMERA
Cream fabric.

EDIT
Aviara logo fades in and holds.

WHY IT WORKS
The same card that ends every Aviara video.

COLOR GRADE

Bright clinic, cream fabric

Clean and bright. The fabric cards and the soft wall behind her share the same cream.

Doctor medium

Shots 1, 9, 18, 25

Brightness		0.47
Warmth		0.02
Saturation		0.23

- Bright, slightly warm.
- Her white coat stays white, not blue.
- The purple gloves are the only strong color: leave them.

Clinic B-roll

Shots 5 to 8, 19 to 21

Brightness		0.62
Warmth		0.00
Saturation		0.14

- High key, bright windows.
- Match skin tones to the doctor shots.

Fabric and graphics

Shots 17, 22 to 24

Brightness		0.69
Warmth		0.08
Saturation		0.14

- Warm cream.
- Graphics sit on the fabric, no boxes.

MUSIC CHOICE

A soft bed under a long voice track

81 BPM
estimated tempo of the mix

7/33
cuts land within 2 frames of a beat (about 23% would by chance)

- Voice runs nearly the whole video. The music sits underneath and should never pull focus.
- Pick something calm and slow, no lyrics, that can loop under almost two minutes of talking.

SOUND ENGINEERING

Even and clean

-16.3 LUFS
integrated loudness (social platforms play back around -14)

-3.3 dBTP
true peak (safe, under -1)

2.4 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- Loudness sits a little under the -14 LUFS target. Raise it 2 dB for social.
- Peaks are safe, under -1 dBTP.
- Clean up mouth clicks and room tone on a long voice track. They get louder after compression.

DRONE, TRANSITIONS, FLICKERS

Every transition, timestamped

No drone. Light leaks and soft flashes mark each new chapter.

0:04.6	LIGHT LEAK	Warm leak out of the intro.
0:11.0	FOREGROUND WIPE	Hair passes the lens into the greeting.
0:30.3	LIGHT LEAK	Leak into the first fabric reset.
0:33.6	FLASH	Flash back to the doctor.
0:47.3	FLASH	Flash into fabric, then the airway diagram.
0:52.8	FLASH	Flash into the 3D teeth model.
0:55.9	FLASH	Flash back to the doctor.
1:14.6	LIGHT LEAK	Leak into fabric.
1:21.5	FLASH	Flash into the last fabric reset.
1:25.5	FLASH	Flash into the patient's story.
1:41.4	DISSOLVE	Into the logo card.

CAPTIONS AND TYPOGRAPHY

Lower thirds only

- No running captions in this one: just lower thirds.
- Doctor's lower third: Aviara logo above "Dr. Katherine Ahn", bottom center, white.
- Patient's lower third: small "Patient" label above her name in bold.
- If you cut this for Instagram, add word-by-word captions like the tour and testimonials.

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **Prop in hand** for the doctor
- [ ] **Diagram or 3D** for anything anatomical
- [ ] **Patient gets the last word**
- [ ] **Captions** added for the social version
- [ ] **Patient story** cut in early (arrival, greeting)
- [ ] **Fabric resets carry a key word**
- [ ] **Lower thirds** for doctor and patient
- [ ] **Loudness:** about -14 LUFS, true peak under -1 dBTP

HOW TO EDIT · BREAKDOWN 09 · PODCAST

The podcast episode.

Three cameras, one conversation.

A five minute sit-down between Dr. Ahn and her patient Micah. Three cameras (a wide two-shot and a single on each), a bright window set with cherry blossom branches, captions with bold phrases and three fast product inserts for the oxygen lip tape.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #6: Dr. Ahn & Micah, Podcast Interview Episode (Video 9 of 13)
FORMAT	16:9 horizontal · 3840×2160 · 23.976 fps
RUNTIME	5:03
MADE FOR	Long-form YouTube episode, and the source for short clips

5:03	35	3	38.7s
total runtime	shots	camera angles	longest uncut hold

WHAT TO STEAL

How to cut a three-camera interview

The cut follows the conversation, not a timer.

Cut to the speaker

Singles when someone is telling a story, the **wide when they react to each other** or laugh.

Use reaction shots

During Dr. Ahn's long answers, a **1.5 to 3 second shot of Micah listening** keeps it alive.

Let the best part run

Dr. Ahn's personal TMJ story plays **38.7 seconds uncut** on the wide. Do not chop up the most honest moment.

Product as a natural beat

The product shows up in the host's hand, then three fast inserts. It never interrupts a sentence.

THE STRUCTURE

Intro, her story, the doctor's story, the product, invite

Intro
0:00–0:14
Names and titles.

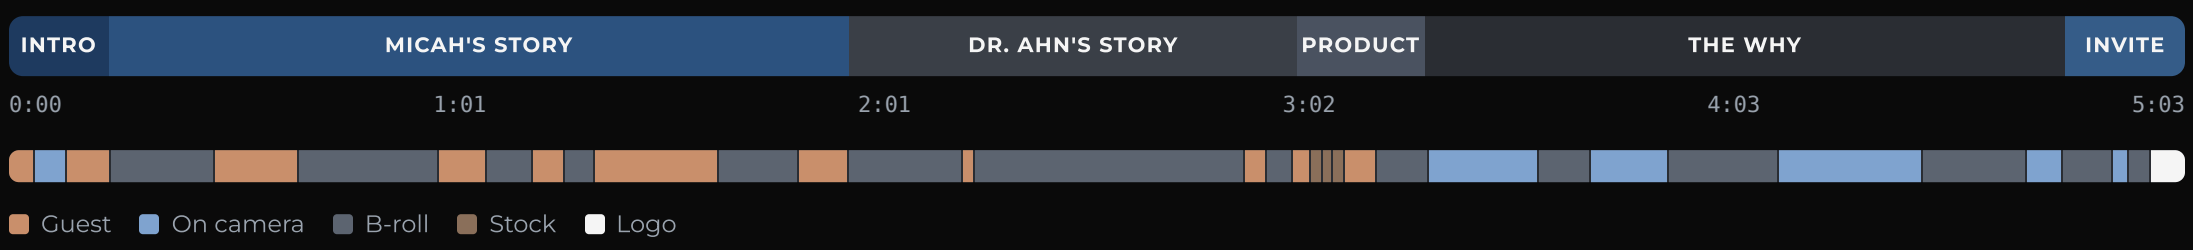

Micah's story
0:14–1:57
How she found Dr. Ahn.

Dr. Ahn's story
1:57–3:00
Her own TMJ journey.

Product
3:00–3:17
Oxygen lip tape, three inserts.

The why
3:17–4:47
Root causes and designing the tape.

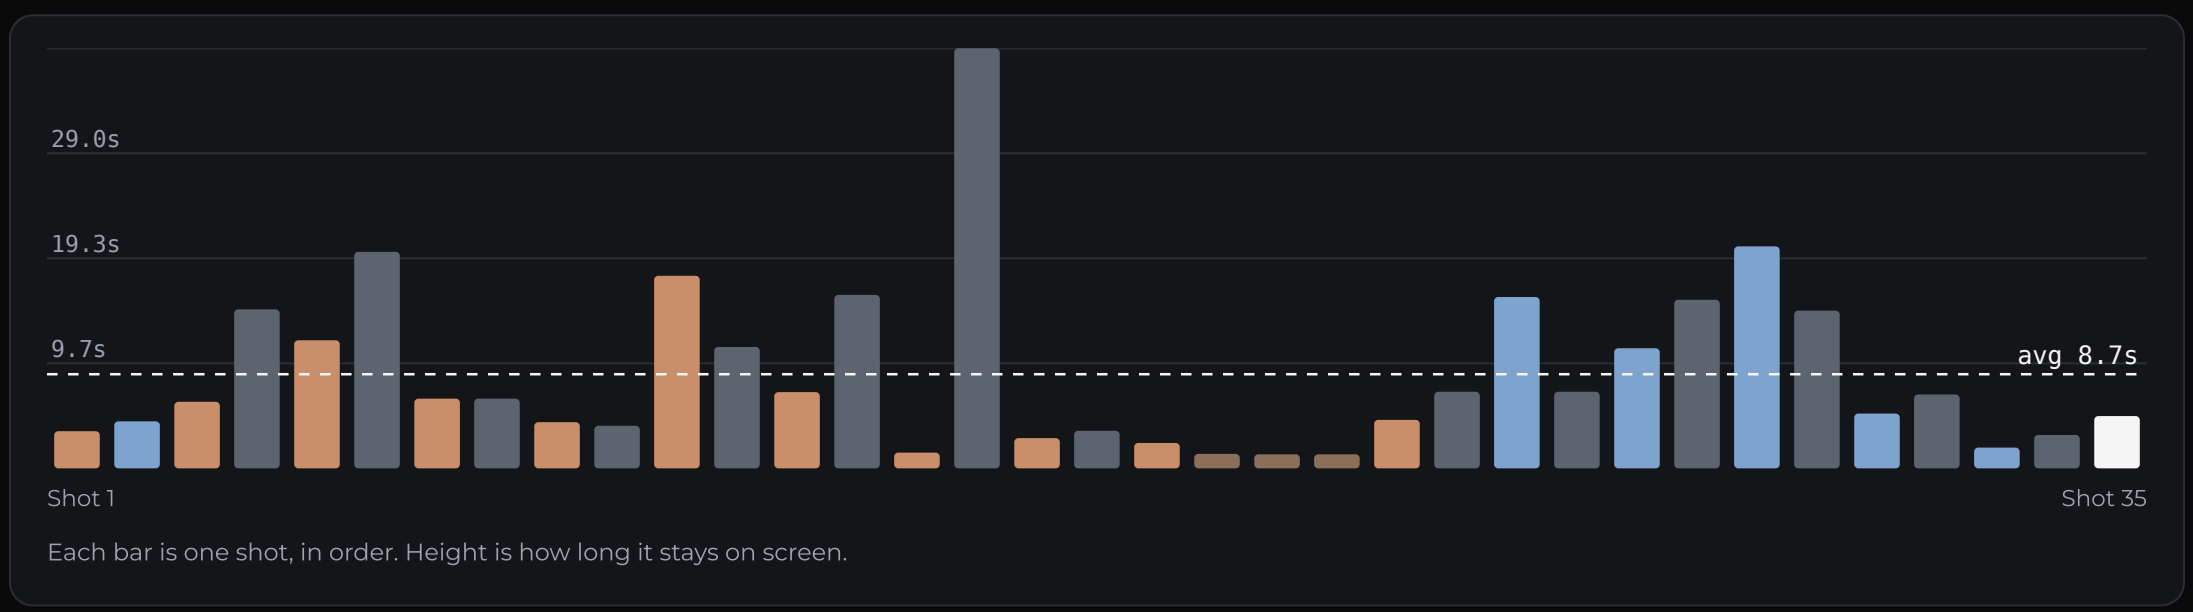

Invite
4:47–5:03
Give us a call, logo card.

PACE

Long holds, then a quick burst

Most shots hold 5 to 20 seconds. The product inserts are the only fast run.

Each bar is one shot, in order. Height is how long it stays on screen.

35
shots in 5:03

8.7s
average shot (median 6.4s)

1.3s
fastest: shot 22

38.7s
longest hold: shot 16

- Average shot is close to 9 seconds: normal for a podcast, far too slow for a reel.
- For short clips, cut the singles tighter and drop the wide.

SHOT BY SHOT

35 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:03.4 · 3.4s

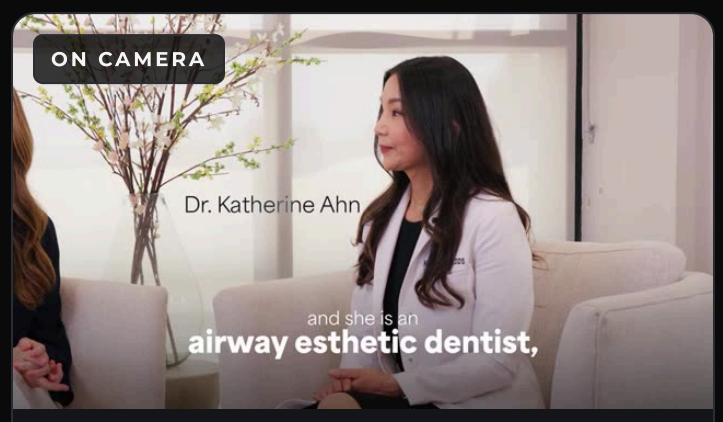

Host single: intro

"I'm Micah Humphries"

CAMERA
Single on the host, Micah, medium, slightly off center, cherry blossom branches behind.

EDIT
Name super types on letter by letter.

WHY IT WORKS
Every speaker gets named in the first seconds.

02 0:03.4–0:07.8 · 4.3s

Dr. Ahn single: name

"and I'm here with Doctor Katherine Ahn, an airway esthetic dentist"

CAMERA
Single on Dr. Ahn at a 3/4 angle.

EDIT
Name super, then bold "airway esthetic dentist".

WHY IT WORKS
Her title is the hook for the whole episode.

03 0:07.8–0:13.9 · 6.1s

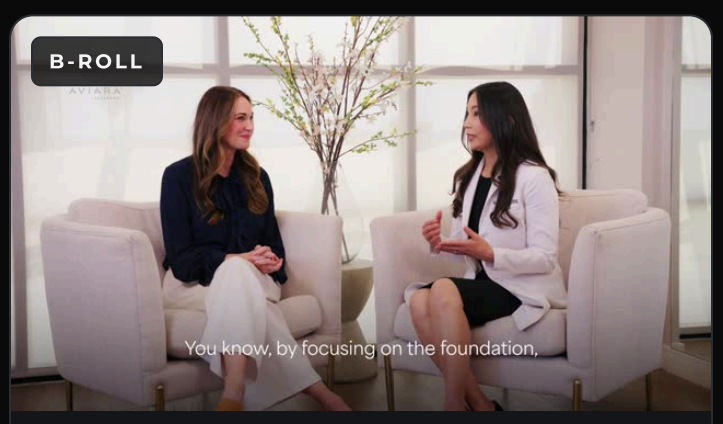

Host: TMJ and airway

"she specializes in TMJ, airway issues"

CAMERA
Back to the host single.

EDIT
Aviara logo bug animates in top left and stays.

WHY IT WORKS
The logo bug brands every frame without getting in the way.

04 0:13.9–0:28.5 · 14.6s

Wide two-shot

CAMERA
Wide, both women in matching cream chairs, big window behind.

EDIT
Holds 14.6 seconds.

WHY IT WORKS
The wide shows the set and the relationship.

05 0:28.5–0:40.3 · 11.8s

Host: what she loves

"One of the things I love about you, Dr. Ahn"

CAMERA
Host single.

EDIT
"the breath of life" in bold.

WHY IT WORKS
Cut to whoever is speaking.

06 0:40.3–1:00.3 · 19.9s

Wide: her story

"I came in because I was struggling"

CAMERA
Wide two-shot.

EDIT
Holds almost 20 seconds.

WHY IT WORKS
On the wide, the listener's reactions are part of the story.

07 1:00.3–1:06.7 · 6.4s

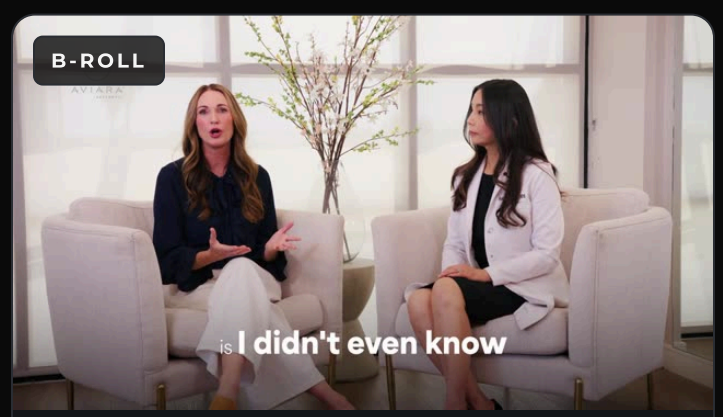

Host: TMJ

"Dr. Ahn told me that I was suffering from TMJ"

CAMERA
Host single.

EDIT
Captions continue.

WHY IT WORKS
Close-up for the emotional line.

08 1:06.7–1:13.1 · 6.4s

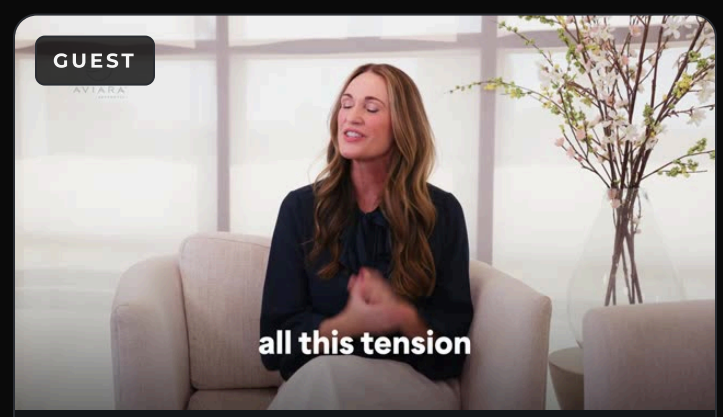

Wide: clenching

"I clenched at night"

CAMERA
Wide.

EDIT
"I clenched at night" in bold.

WHY IT WORKS
Back wide to breathe.

09 1:13.1–1:17.4 · 4.3s

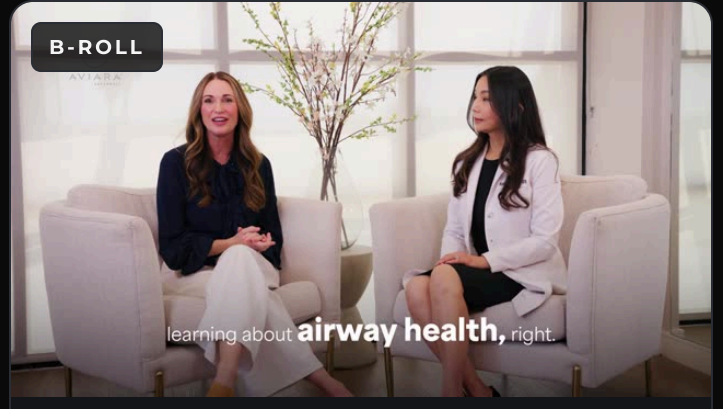

Host: all this tension

"I was causing all this tension"

CAMERA
Host single, she gestures to her jaw.

EDIT
"all this tension" in bold.

WHY IT WORKS
Gestures are a good reason to be close.

10 1:17.4–1:21.3 · 3.9s

Wide: the journey

"I began this journey with Doctor Ahn"

CAMERA
Wide.

EDIT
"airway health" in bold.

WHY IT WORKS
Short wide between two singles.

11 1:21.3–1:39.0 · 17.7s

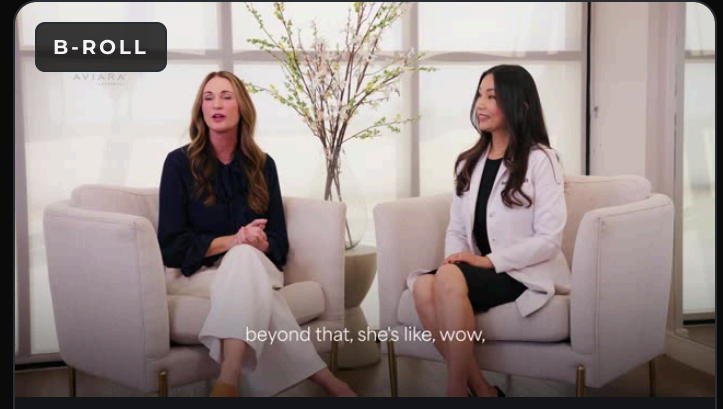

Host: the whole picture

"Aviara centers is so good at looking at the whole picture"

CAMERA
Host single.

EDIT
Holds 17.7 seconds.

WHY IT WORKS
She is carrying the story, so we stay on her.

12 1:39.0–1:50.2 · 11.2s

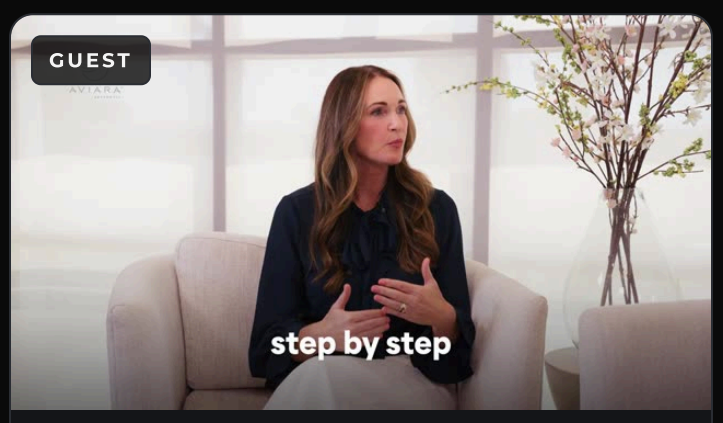

Wide: a mess inside

"you're actually a mess inside"

CAMERA
Wide.

EDIT
Bold phrase.

WHY IT WORKS
The laugh lands better on the wide.

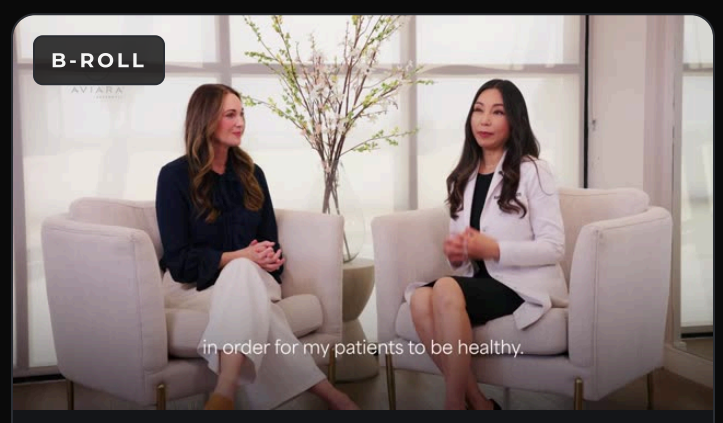

13 1:50.2–1:57.2 · 7.0s

Host: step by step

"she started the journey of showing me step by step"

CAMERA
Host single.

EDIT
"step by step" in bold.

14 1:57.2–2:13.2 · 16.0s

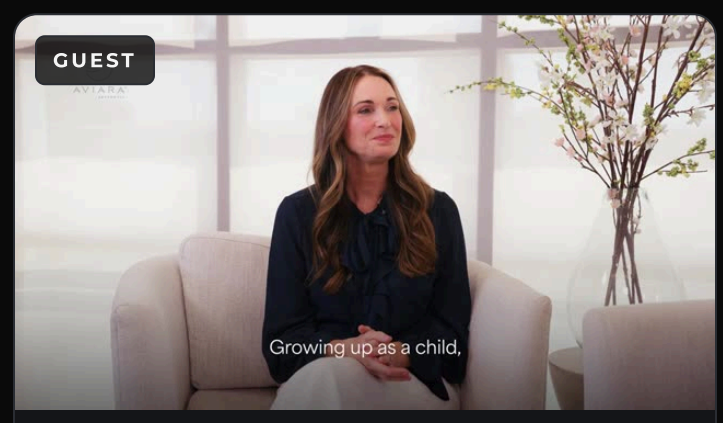

Wide: Dr. Ahn's turn

"because I suffer"

CAMERA
Wide as Dr. Ahn starts talking.

EDIT
Holds 16 seconds.

WHY IT WORKS
The wide is the bridge from host to guest.

15 2:13.2–2:14.6 · 1.4s

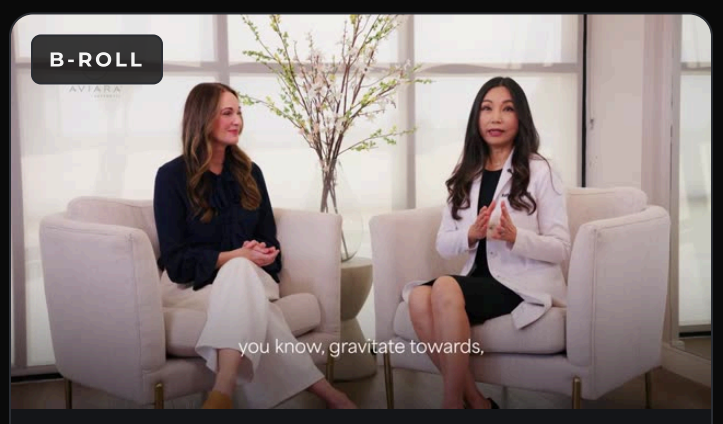

Reaction: host listening

"these problems myself"

CAMERA
Host single while Dr. Ahn talks.

EDIT
1.5 second reaction shot.

WHY IT WORKS
Reaction shots keep long answers alive.

16 2:14.6–2:53.3 · 38.7s

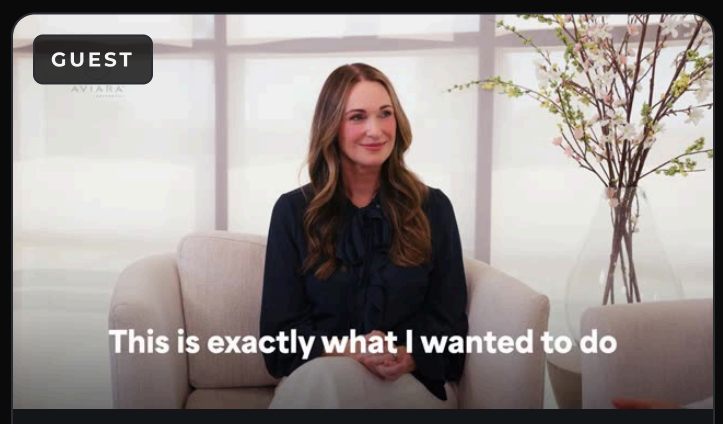

Wide: her own TMJ story

"I had TMJ issues"

CAMERA
Wide two-shot.

EDIT
The longest hold, 38.7 seconds.

WHY IT WORKS
The most personal part of the episode plays uncut.

17 2:53.3–2:56.1 · 2.8s

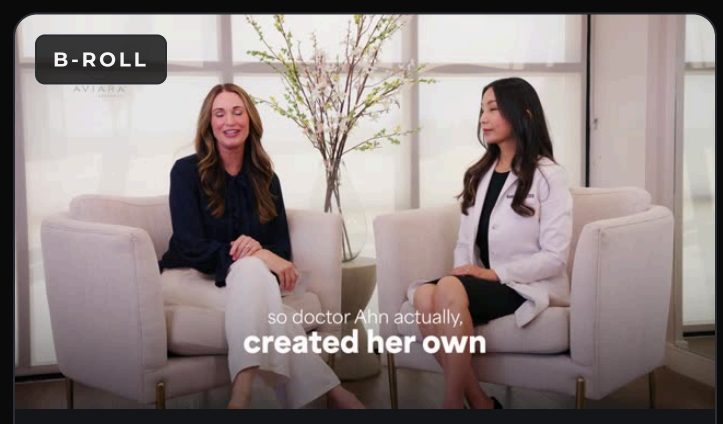

Reaction: host

"This is exactly what I wanted to do to help my patients"

CAMERA
Host single, listening.

EDIT
Captions follow Dr. Ahn's voice.

WHY IT WORKS
Hearing one person while seeing the other feels like a real conversation.

18 2:56.1–2:59.6 · 3.5s

Wide: created her own

"so Doctor Ahn actually created her own"

CAMERA
Wide.

EDIT
Setup line for the product.

19 2:59.6–3:01.9 · 2.3s

Host holds the product

"oxygen lip tape"

CAMERA
Host single holding up a lip tape pack.

EDIT
"oxygen lip tape" in bold.

WHY IT WORKS
The product enters naturally, in the host's hand.

20 3:01.9–3:03.2 · 1.3s

Product insert: white

CAMERA
Tight on the white pack in the host's hand, background soft.

EDIT
1.3 seconds.

WHY IT WORKS
Three colors, three quick inserts.

21 3:03.2–3:04.5 · 1.3s

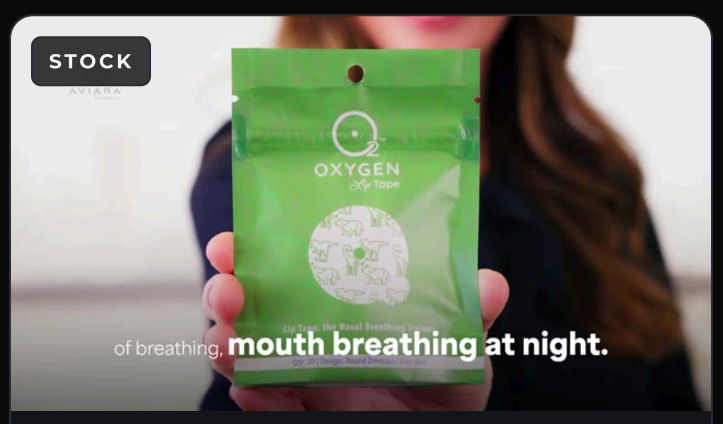

Product insert: pink

"for solving the issues"

CAMERA
Same framing, pink pack.

EDIT
1.3 seconds.

WHY IT WORKS
Same framing for each pack makes them read as a set.

22 3:04.5–3:05.8 · 1.3s

Product insert: green

"of breathing, mouth breathing at night"

CAMERA
Same framing, green pack.

EDIT
1.3 seconds.

WHY IT WORKS
The fastest three cuts in a five minute video.

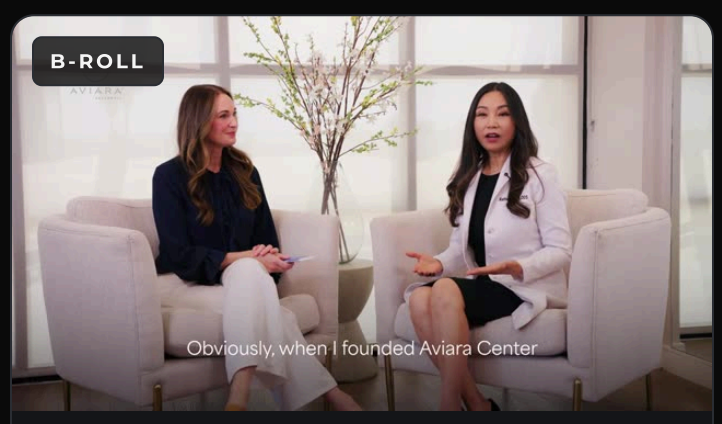

23 3:05.8–3:10.3 · 4.5s

Host asks

"Can you tell a little bit about that?"

CAMERA
Host single.

EDIT
Question cues the answer.

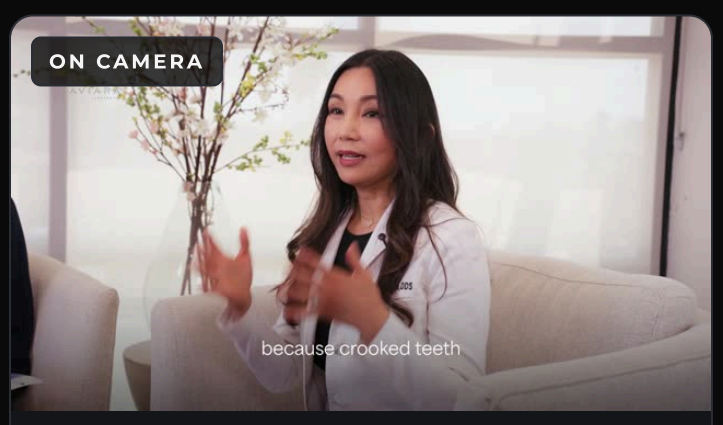

24 3:10.3–3:17.3 · 7.0s

Wide: the answer starts

"I'll be happy to"

CAMERA
Wide.

25 3:17.3–3:33.1 · 15.8s

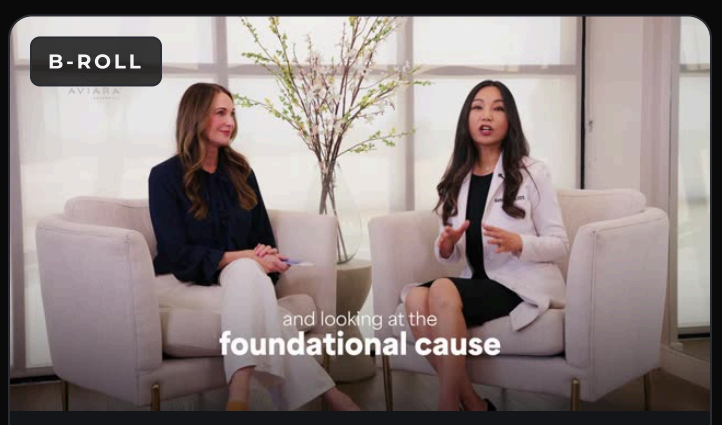

Dr. Ahn single

"causes for the health problems"

CAMERA
Single on Dr. Ahn, 3/4, soft background.

EDIT
Holds 15.8 seconds.

WHY IT WORKS
Her single is saved for the expert answer.

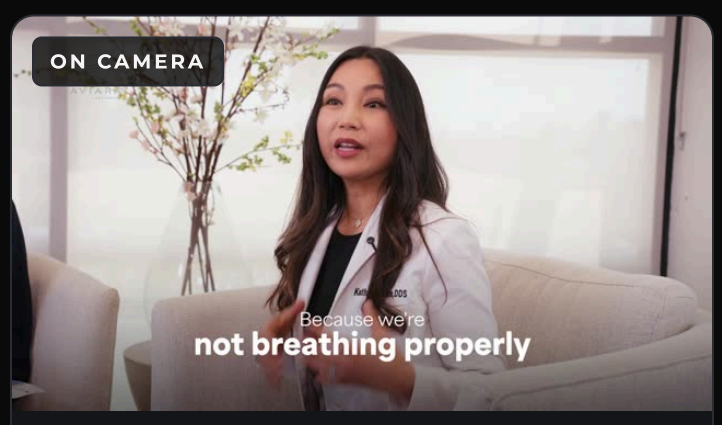

26 3:33.1–3:40.1 · 7.0s

Wide: looking deeper

"It's actually looking deeper"

CAMERA
Wide.

EDIT
Bold phrase.

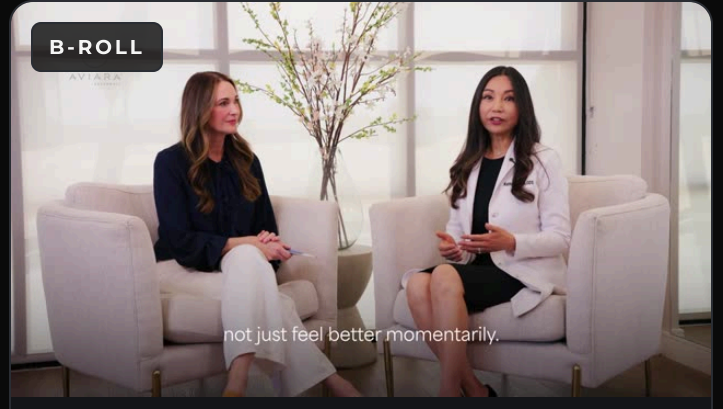

27 3:40.1–3:51.2 · 11.1s

Dr. Ahn single

"the jaw is not developing properly"

CAMERA
Single.

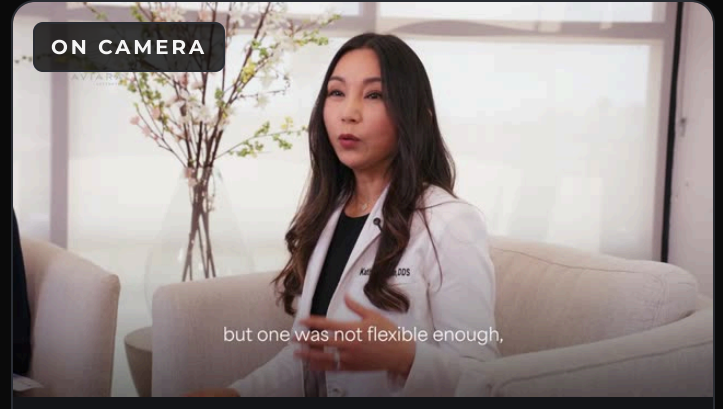

28 3:51.2–4:06.7 · 15.5s

Wide: to actually heal

"to truly actually heal"

CAMERA
Wide.

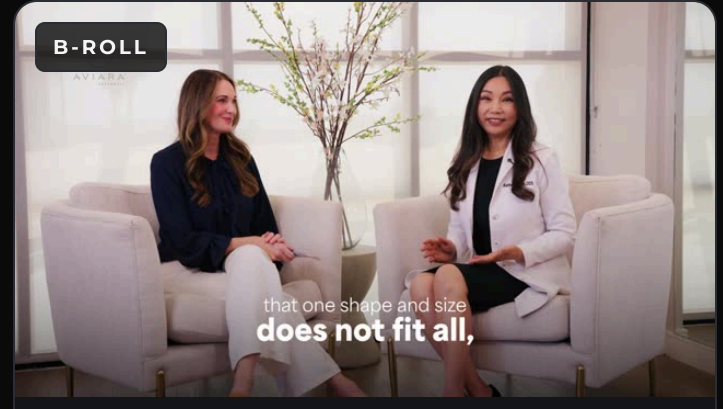

29 4:06.7–4:27.1 · 20.4s

Dr. Ahn single: designing it

"when I designed and developed this"

CAMERA
Single, 20.4 seconds.

WHY IT WORKS
The product story told by the person who made it.

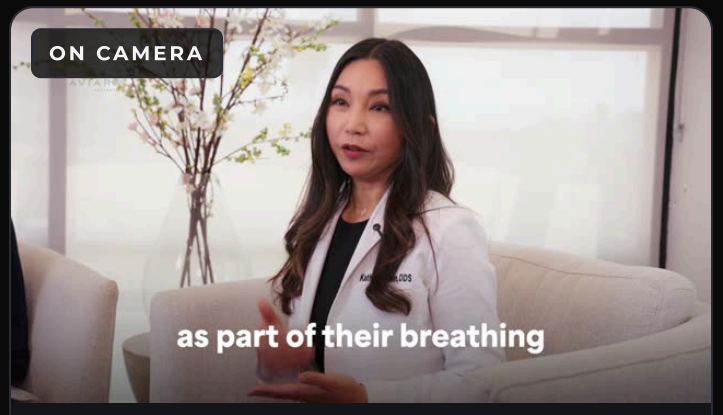

30 4:27.1–4:41.7 · 14.5s

Wide: one size does not fit all

"one shape and size does not fit all"

CAMERA
Wide.

EDIT
Bold phrase.

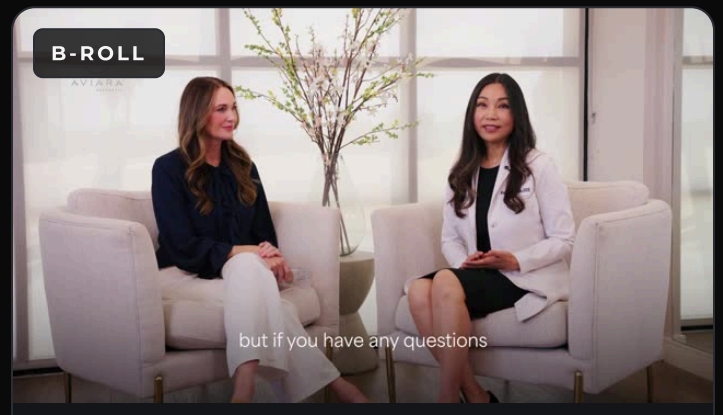

31 4:41.7–4:46.7 · 5.0s

Dr. Ahn single

"for my patients to adapt the tool"

CAMERA
Single.

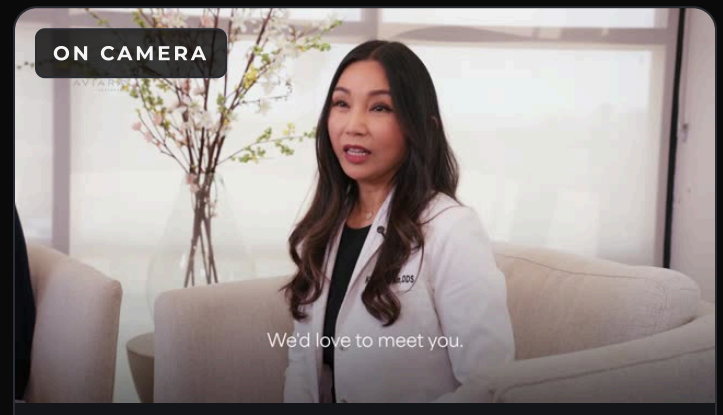

32 4:46.7–4:53.5 · 6.8s

Wide: the invitation

"please give us a call"

CAMERA
Wide.

33 4:53.5–4:55.4 · 1.9s

Dr. Ahn single: we'd love to meet you

"We'd love to meet you"

CAMERA
Single.

EDIT
Warm light leak out.

34 4:55.4–4:58.5 · 3.1s

Standing two-shot

CAMERA
Both standing, arm in arm, smiling.

EDIT
Posed button shot.

WHY IT WORKS
A posed closer gives the episode a clear ending.

35 4:58.5–5:03.3 · 4.8s

Logo card

CAMERA
Cream fabric.

EDIT
Aviara logo and URL.

WHY IT WORKS
Every Aviara video ends here.

COLOR GRADE

Bright window, soft whites

One look across all three cameras. Match them so the cuts are invisible.

Wide set

All wide shots

Brightness	0.60
Warmth	0.06
Saturation	0.15

- High key: let the window go almost white.
- Cream chairs stay cream.
- Match black levels across the three cameras.

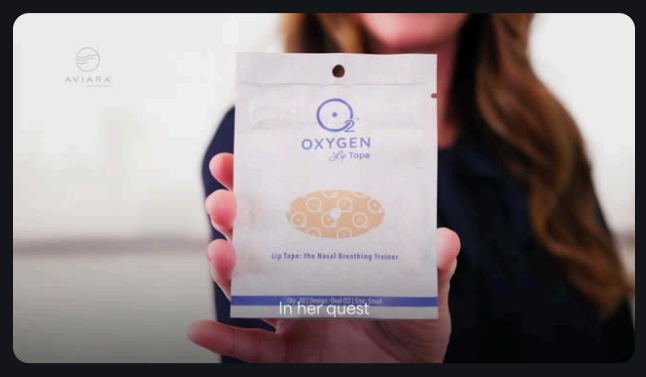

Singles

Host and Dr. Ahn singles

Brightness	0.64
Warmth	0.05
Saturation	0.12

- Same brightness as the wide.
- Skin warm and natural.

Product inserts

Shots 20 to 22

Brightness	0.54
Warmth	0.05
Saturation	0.25

- Keep the pack colors true: these are the real products.

MUSIC CHOICE

Voice only in the body

92 BPM
estimated tempo of the mix

10/34
cuts land within 2 frames of a beat (about 26% would by chance)

- The conversation carries the episode. Keep any music to the intro and the logo card.
- If you cut short clips from this, add a soft bed at about -20 dB under the voice.

SOUND ENGINEERING

Close to the ceiling

-16.3 LUFS
integrated loudness (social platforms play back around -14)

-0.1 dBTP
true peak (keep it under -1)

2.6 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- Peaks touch about -0.1 dBTP. That is too close to 0. Limit to -1 dBTP.
- Loudness is a little under the -14 LUFS target: raise about 2 dB.
- Two speakers on two mics: level-match them so the cut between singles never jumps in volume.

DRONE, TRANSITIONS, FLICKERS

Graphics and transitions

No drone. Only one light leak, at the very end.

0:00.4	**NAME SUPER**	"Micah Humphries" types on letter by letter.
0:04.0	**NAME SUPER**	"Dr. Katherine Ahn" types on.
0:08.5	**LOGO BUG**	Aviara logo animates in top left and stays for the episode.
3:01.9	**INSERTS**	Three product inserts, 1.3 seconds each.
4:55.3	**LIGHT LEAK**	Warm leak into the standing two-shot.
4:58.6	**DISSOLVE**	Into the logo card.

CAPTIONS AND TYPOGRAPHY

Captions for a long video

- Captions sit in the lower third, white, small sans serif.
- **The key phrase of each line goes bold and larger**: "TMJ, airway issues", "the breath of life", "oxygen lip tape".
- Name supers type on letter by letter, top right of frame.
- Logo bug: small, top left, about 40% opacity.

airway esthetic dentist, **the breath of life** **oxygen lip tape** **does not fit all,**

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **Name supers** for each speaker in the first 10 seconds
- [ ] **Logo bug** top left, low opacity
- [ ] **Cut to the speaker**, wide for reactions and laughs
- [ ] **Reaction shots** during long answers
- [ ] **Product inserts** at the same framing
- [ ] **Captions** with one bold phrase per line
- [ ] **Posed closer** + logo card
- [ ] **Loudness:** -14 LUFS, true peak under -1 dBTP

HOW TO EDIT · BREAKDOWN 10 · TESTIMONIAL

The testimonial. Riley Stevens.

Riley talks about her chronic migraines and how Dr. Ahn looked at her whole body, not just her jaw. Two cameras, no B-roll, bold captions on the emotional words and a call to action in her own voice.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #7: Testimonial, Riley Stevens (Video 10 of 13)
FORMAT	16:9 horizontal · 3840×2160 · 23.976 fps
RUNTIME	1:05
MADE FOR	Patient testimonial for social and the website

1:05	20	2	0
total runtime	shots	camera angles	B-roll shots

WHAT TO STEAL

What makes a testimonial feel premium

Calm, bright, real. The patient talks, the edit stays out of the way.

Two angles, cut on the sentence

A wide and a medium of the same answer. **Switch angles at the end of a phrase** to hide the edits and keep it moving.

Name, then logo

Her name types on letter by letter in the first second. The Aviara logo animates in on the next cut and stays as a small bug.

One bold phrase per line

Captions are small and light. The emotional words go **bold and bigger**: the viewer can get the story from the bold words alone.

No jump cuts on the same angle

If you cut out a stumble, switch to the other camera. Never cut the same framing to itself.

THE STRUCTURE

Problem, meeting her, the change, the invite

Problem
0:00–0:06
Chronic migraines, thinking it was the jaw.

Meeting her
0:06–0:21
Holistic, loved, appreciated.

The change
0:21–0:53
Educated, respected, a big difference.

Invite
0:53–1:00
Visit her website or call today.

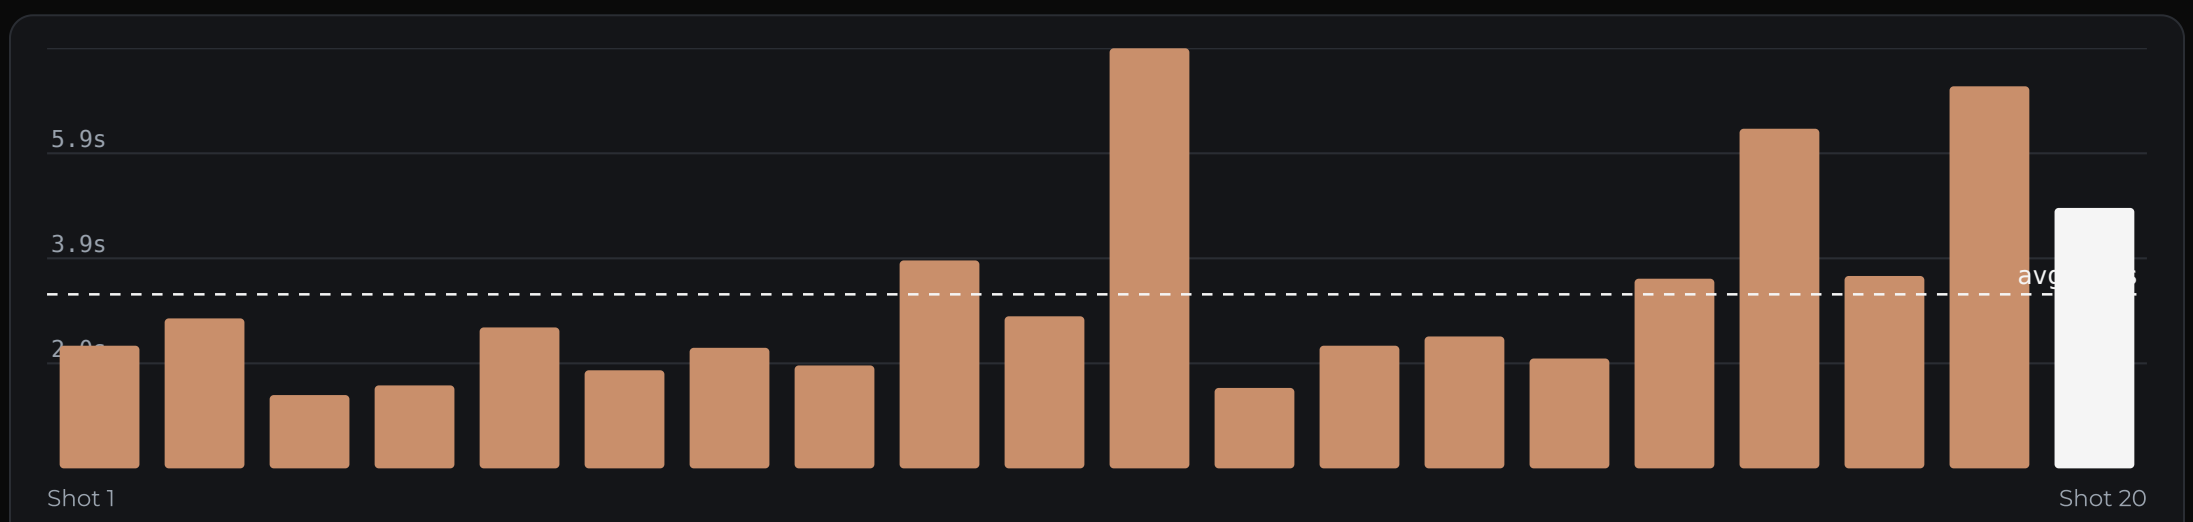

Logo
1:00–1:05
Logo card.

PACE

Cut on the sentence, not the clock

Shot length follows her phrasing. Short answers get short shots, the big moments hold.

Each bar is one shot, in order. Height is how long it stays on screen.

20
shots in 1:05

3.2s
average shot (median 2.6s)

1.4s
fastest: shot 3

7.8s
longest hold: shot 11

- The longest holds land on the most emotional lines.
- The final talking shot carries the call to action, then the logo card.

SHOT BY SHOT

20 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:02.3 · 2.3s

Name super

"When I originally came to Doctor Ahn"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Name types on.

WHY IT WORKS
Her name is up before she finishes the first line.

02 0:02.3–0:05.1 · 2.8s

The problem

"I was having chronic migraines."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "chronic migraines".

WHY IT WORKS
The problem comes first.

03 0:05.1–0:06.5 · 1.4s

Wrong guess

"thinking it was my jaw."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold line.

WHY IT WORKS
Short wide to reset.

04 0:06.5–0:08.0 · 1.5s

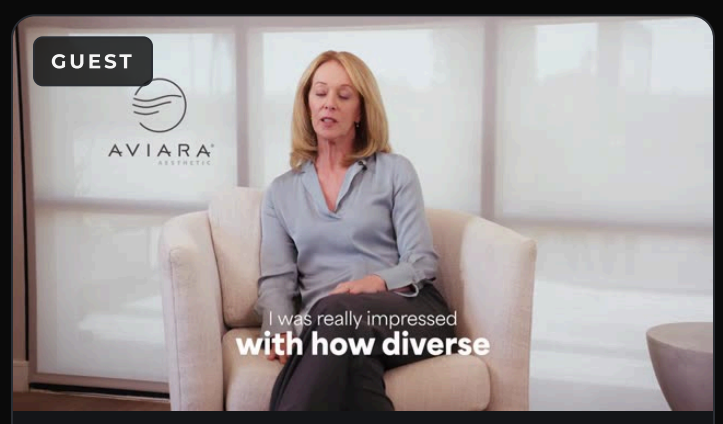

Meeting her

"And then as I met her,"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Logo bug animates in.

WHY IT WORKS
The logo arrives with the doctor.

05 0:08.0–0:10.6 · 2.6s

Impressed

"I was really impressed with how diverse"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Logo settles top left.

06 0:10.6–0:12.5 · 1.8s

How diverse

"with how diverse"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Same caption carries across the cut.

WHY IT WORKS
The caption bridges two angles.

07 0:12.5–0:14.7 · 2.3s

Holistically

"holistically she was looking at"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "holistically".

WHY IT WORKS
The key word of the whole video.

08 0:14.7–0:16.6 · 1.9s

The whole patient

"the patient and the issues."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

09 0:16.6–0:20.5 · 3.9s

Loved

"I felt very loved, appreciated,"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "loved, appreciated".

WHY IT WORKS
The emotional peak, held almost 4 seconds.

10 0:20.5–0:23.4 · 2.8s

Educate me

"wanted someone that wanted to educate me"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

11 0:23.4–0:31.2 · 7.8s

Bring me along

"and bring me along in my knowledge of my body"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Longest talking hold, 7.8 seconds.

WHY IT WORKS
She is in flow, so we let it run.

12 0:31.2–0:32.7 · 1.5s

Respect

"I respect her."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Short cut on a short line.

WHY IT WORKS
Short line, short shot.

13 0:32.7–0:35.0 · 2.3s

Appreciate

"I appreciate her"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

14 0:35.0–0:37.5 · 2.5s

Intelligent

"very intelligent professional that is"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

15 0:37.5–0:39.5 · 2.0s

Wide beat

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Caption continues across the cut.

16 0:39.5–0:43.0 · 3.5s

Not half baked

"dissuaded to do something that is half baked, half done."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

17 0:43.0–0:49.4 · 6.3s

She keeps working with you

"She's going to continue to work with you"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

18 0:49.4–0:53.0 · 3.6s

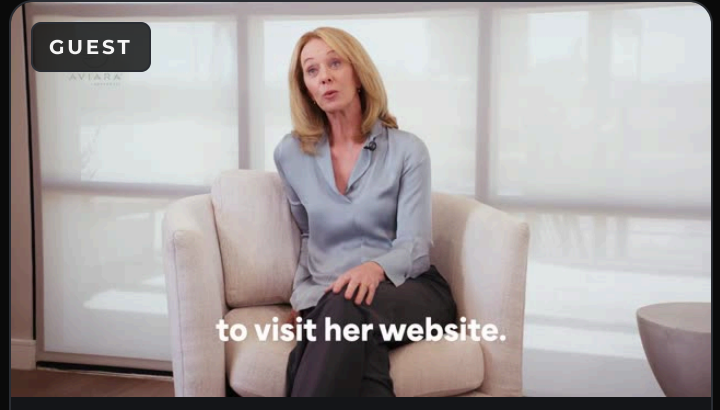

The difference

"And it really made a big difference in my life"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "a big difference in my life".

WHY IT WORKS
The payoff line gets the bold.

19 0:53.0–1:00.1 · 7.1s

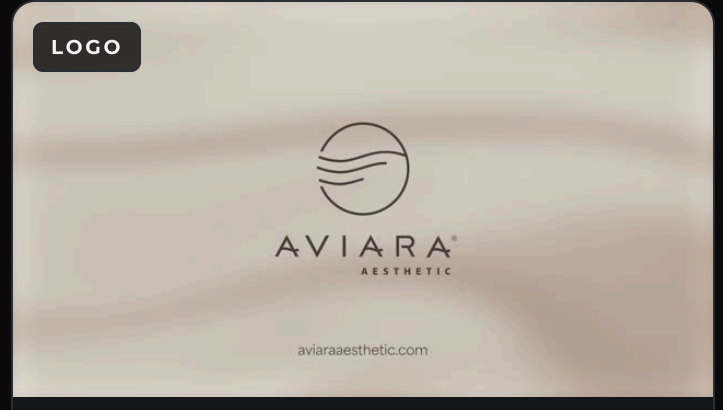

Call to action

"I would encourage you to visit her website. Or give her a call today."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold CTA lines, then a warm light leak.

WHY IT WORKS
The patient makes the ask, not the clinic.

20 1:00.1–1:05.0 · 4.9s

Logo card

CAMERA
Cream fabric background.

EDIT
Aviara logo and website URL.

WHY IT WORKS
Same end card as every Aviara video.

COLOR GRADE

Bright window, soft cream

The same look on every Aviara testimonial: a bright window, cream chair, warm skin.

Wide

A cam

Brightness		0.69
Warmth		0.03
Saturation		0.09

- High key: let the window glow white.
- Low contrast, soft blacks.
- Warm skin, cream chair stays cream.

Medium

B cam

Brightness		0.69
Warmth		0.03
Saturation		0.09

- Match brightness and warmth to the wide.
- Background window fully soft.

- If the two cameras do not match, the cuts feel like jumps. Match them first, then grade them together.

MUSIC CHOICE

A soft bed, voice on top

96 BPM
estimated tempo of the mix

5/19
cuts land within 2 frames of a beat (about 27% would by chance)

- The patient's voice carries the video. The music is a quiet, warm bed under it.
- Pick a slow, gentle track with no lyrics. It should feel like a calm waiting room, not an ad.
- Bring the music up only for the logo card.

SOUND ENGINEERING

Clean voice, quiet bed

-15.9 LUFS
integrated loudness (social platforms play back around -14)

-5.6 dBTP
true peak (safe, under -1)

3.3 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- Loudness sits right around the -14 LUFS target for social.
- Peaks are safe, under -1 dBTP.
- Remove breaths and room noise between phrases, then level the voice so every line is the same loudness.

DRONE, TRANSITIONS, FLICKERS

Graphics and transitions

No drone. One warm light leak into the logo card.

0:00.3	NAME SUPER	"Riley Stevens" types on letter by letter.
0:06.6	LOGO BUG	Aviara mark animates in, settles top left.
1:00.2	LIGHT LEAK	Warm leak into the logo card.

CAPTIONS AND TYPOGRAPHY

Captions and supers

- Name super: thin sans serif, types on letter by letter, top right, then scrambles out.
- Logo bug: Aviara mark animates in large, then settles small in the top left corner.
- Captions: lower third, white, small and light. The key phrase in each line goes **bold and larger**.
- End card: cream fabric, Aviara logo, website URL.

BEFORE YOU EXPORT

Editor checklist

Run your edit through this list before you post it for review. Checks stay on this device only.

- [ ] **Name super** in the first second
- [ ] **Logo bug** animates in on the second shot
- [ ] **Wide and medium**, switch on every phrase
- [ ] **No jump cuts** on the same angle
- [ ] **Captions** with one bold phrase per line
- [ ] **Call to action** last: website or call today
- [ ] **Light leak** into the logo card
- [ ] **Loudness:** -14 LUFS, true peak under -1 dBTP

HOW TO EDIT · BREAKDOWN 11 · TESTIMONIAL

The testimonial. Deneen Mercado.

Deneen opens with "If I could go back" and the edit proves every line with B-roll from her visit: the front desk, the hallway, the handshake, the exam and a real laugh with Dr. Ahn at the end.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #8: Testimonial, Deneen Mercado (Video 11 of 13)
FORMAT	16:9 horizontal · 3840×2160 · 23.976 fps
RUNTIME	1:06
MADE FOR	Patient testimonial for social and the website

1:06	23	12	2.9s
total runtime	shots	B-roll shots	average shot

WHAT TO STEAL

What makes a testimonial feel premium

Calm, bright, real. The patient talks, the edit stays out of the way.

Two angles, cut on the sentence

A wide and a medium of the same answer. **Switch angles at the end of a phrase** to hide the edits and keep it moving.

Name, then logo

Her name types on letter by letter in the first second. The Aviara logo animates in on the next cut and stays as a small bug.

B-roll proves the words

When she says "the staff", we see the staff. When she says "her approach", we see the handshake. **Every claim gets a picture.**

One bold phrase per line

Captions are small and light. The emotional words go **bold and bigger**: the viewer can get the story from the bold words alone.

THE STRUCTURE

Problem, meeting her, the change, the invite

Hook
0:00–0:11
If I could go back, my life would be different.

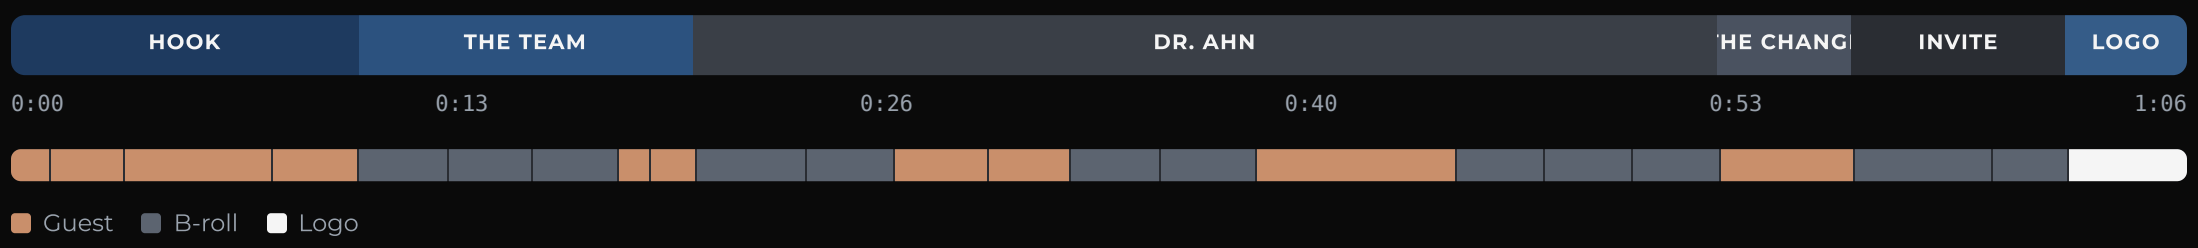

The team
0:11–0:21
Front desk, billing, assistants, B-roll for each.

Dr. Ahn
0:21–0:52
A different approach, the whole body.

The change
0:52–0:56
Life altering.

Invite
0:56–1:02
Laughing together, then the ask.

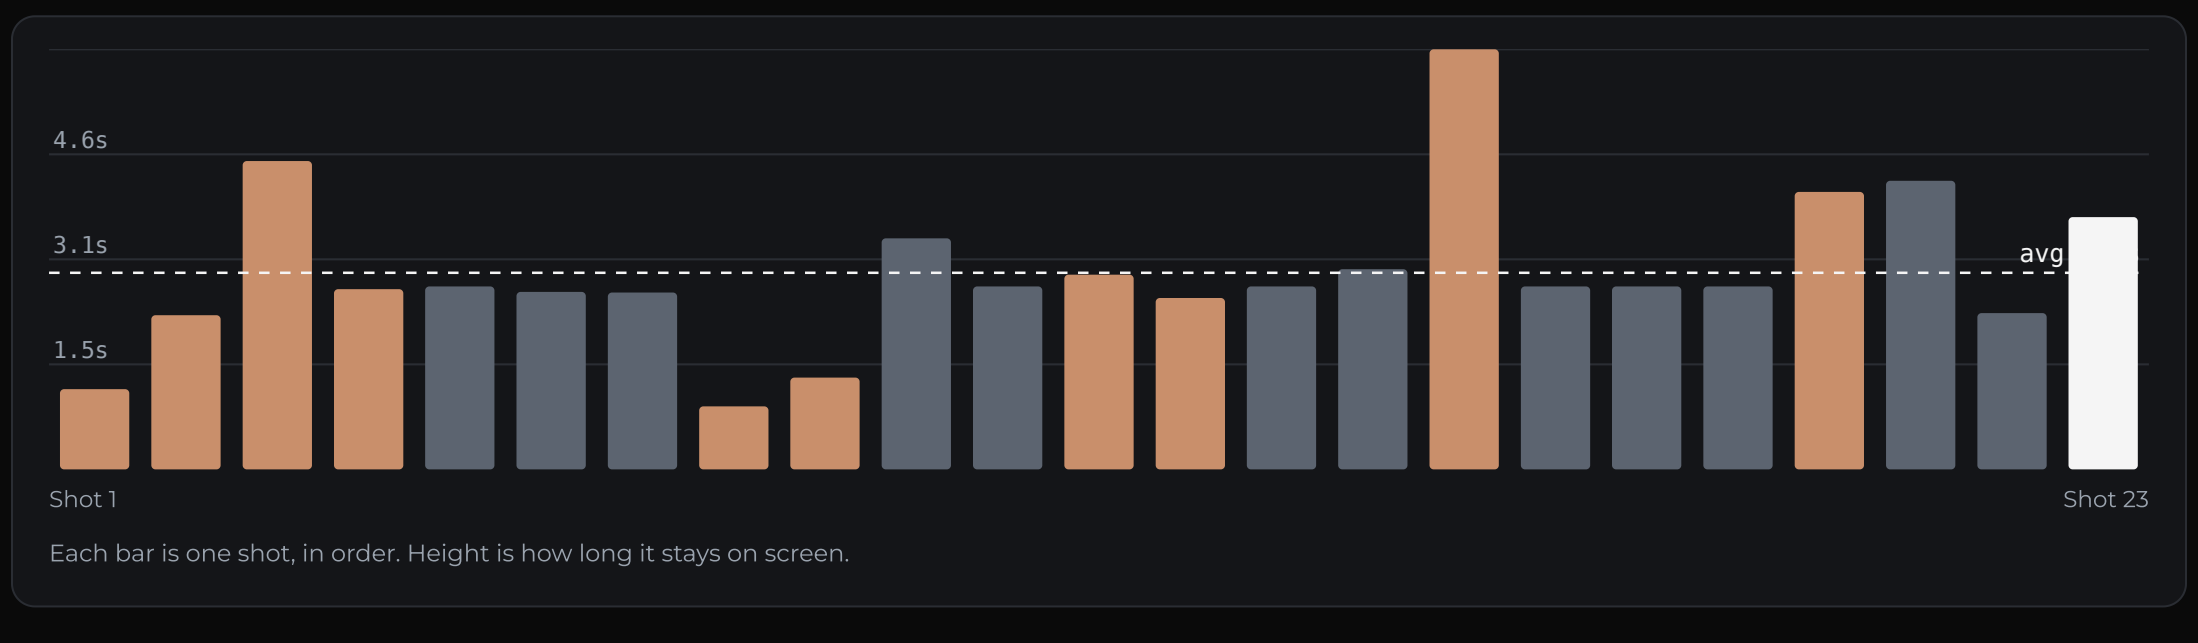

Logo
1:02–1:06
Logo card.

PACE

Cut on the sentence, not the clock

Shot length follows her phrasing. Short answers get short shots, the big moments hold.

Each bar is one shot, in order. Height is how long it stays on screen.

23
shots in 1:06

2.9s
average shot (median 2.7s)

0.9s
fastest: shot 8

6.1s
longest hold: shot 16

- B-roll keeps the middle moving at about 2.7 seconds a shot.
- Faster than the other testimonials because there is more to show.

SHOT BY SHOT

23 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

01 0:00.0–0:01.2 · 1.2s

Name super

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Name types on.

02 0:01.2–0:03.4 · 2.3s

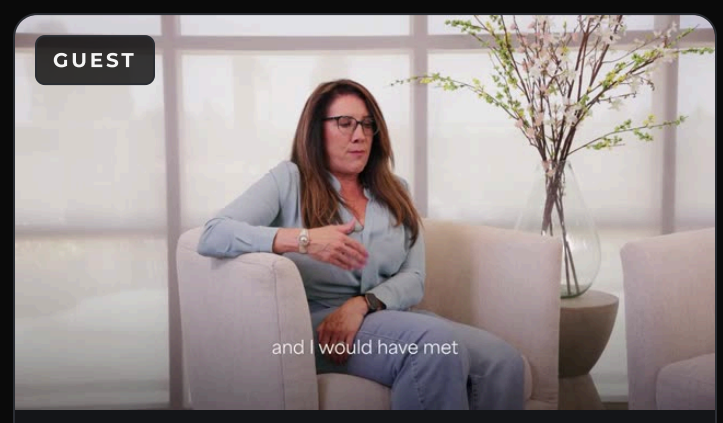

Where she lives

"I live in Long Beach, California."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Name holds, then scrambles out.

WHY IT WORKS
Location makes her real.

03 0:03.4–0:07.9 · 4.5s

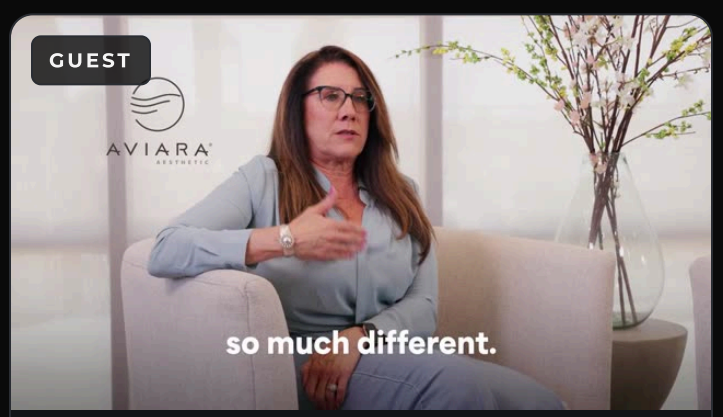

If I could go back

"If I could go back and I would have met Doctor Ahn years ago,"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "If I could go back". Logo bug animates in.

WHY IT WORKS
The strongest hook line, right up front.

04 0:07.9–0:10.6 · 2.6s

So much different

"my life would have been so much different."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT

Cream fabric background.

EDIT
Aviara logo and URL.

COLOR GRADE

Bright window, soft cream

The same look on every Aviara testimonial: a bright window, cream chair, warm skin.

Wide

A cam

Brightness	0.65
Warmth	0.05
Saturation	0.11

- High key: let the window glow white.
- Low contrast, soft blacks.
- Warm skin, cream chair stays cream.

Medium

B cam

Brightness	0.64
Warmth	0.05
Saturation	0.11

- Match brightness and warmth to the wide.
- Background window fully soft.

- If the two cameras do not match, the cuts feel like jumps. Match them first, then grade them together.

MUSIC CHOICE

A soft bed, voice on top

117 BPM
estimated tempo of the mix

9/22
cuts land within 2 frames of a beat (about 33% would by chance)

- The patient's voice carries the video. The music is a quiet, warm bed under it.
- Pick a slow, gentle track with no lyrics. It should feel like a calm waiting room, not an ad.
- Bring the music up only for the logo card.

SOUND ENGINEERING

Clean voice, quiet bed

-18.2 LUFS
integrated loudness (social platforms play back around -14)

-5.8 dBTP
true peak (safe, under -1)

2.9 LU
loudness range (low means tightly compressed)

Gold line: loudness every half second. Faint blue lines: every cut.

- Loudness is about 4 dB under the -14 LUFS target. Raise the master for social.
- Peaks are safe, under -1 dBTP.
- Remove breaths and room noise between phrases, then level the voice so every line is the same loudness.

DRONE, TRANSITIONS, FLICKERS

Graphics and transitions

No drone. One warm light leak into the logo card.

0:00.3	NAME SUPER	"Deneen Mercado" types on letter by letter.
0:04.5	LOGO BUG	Aviara mark animates in, settles top left.
1:02.4	LIGHT LEAK	Warm leak into the logo card.

CAPTIONS AND TYPOGRAPHY

Captions and supers

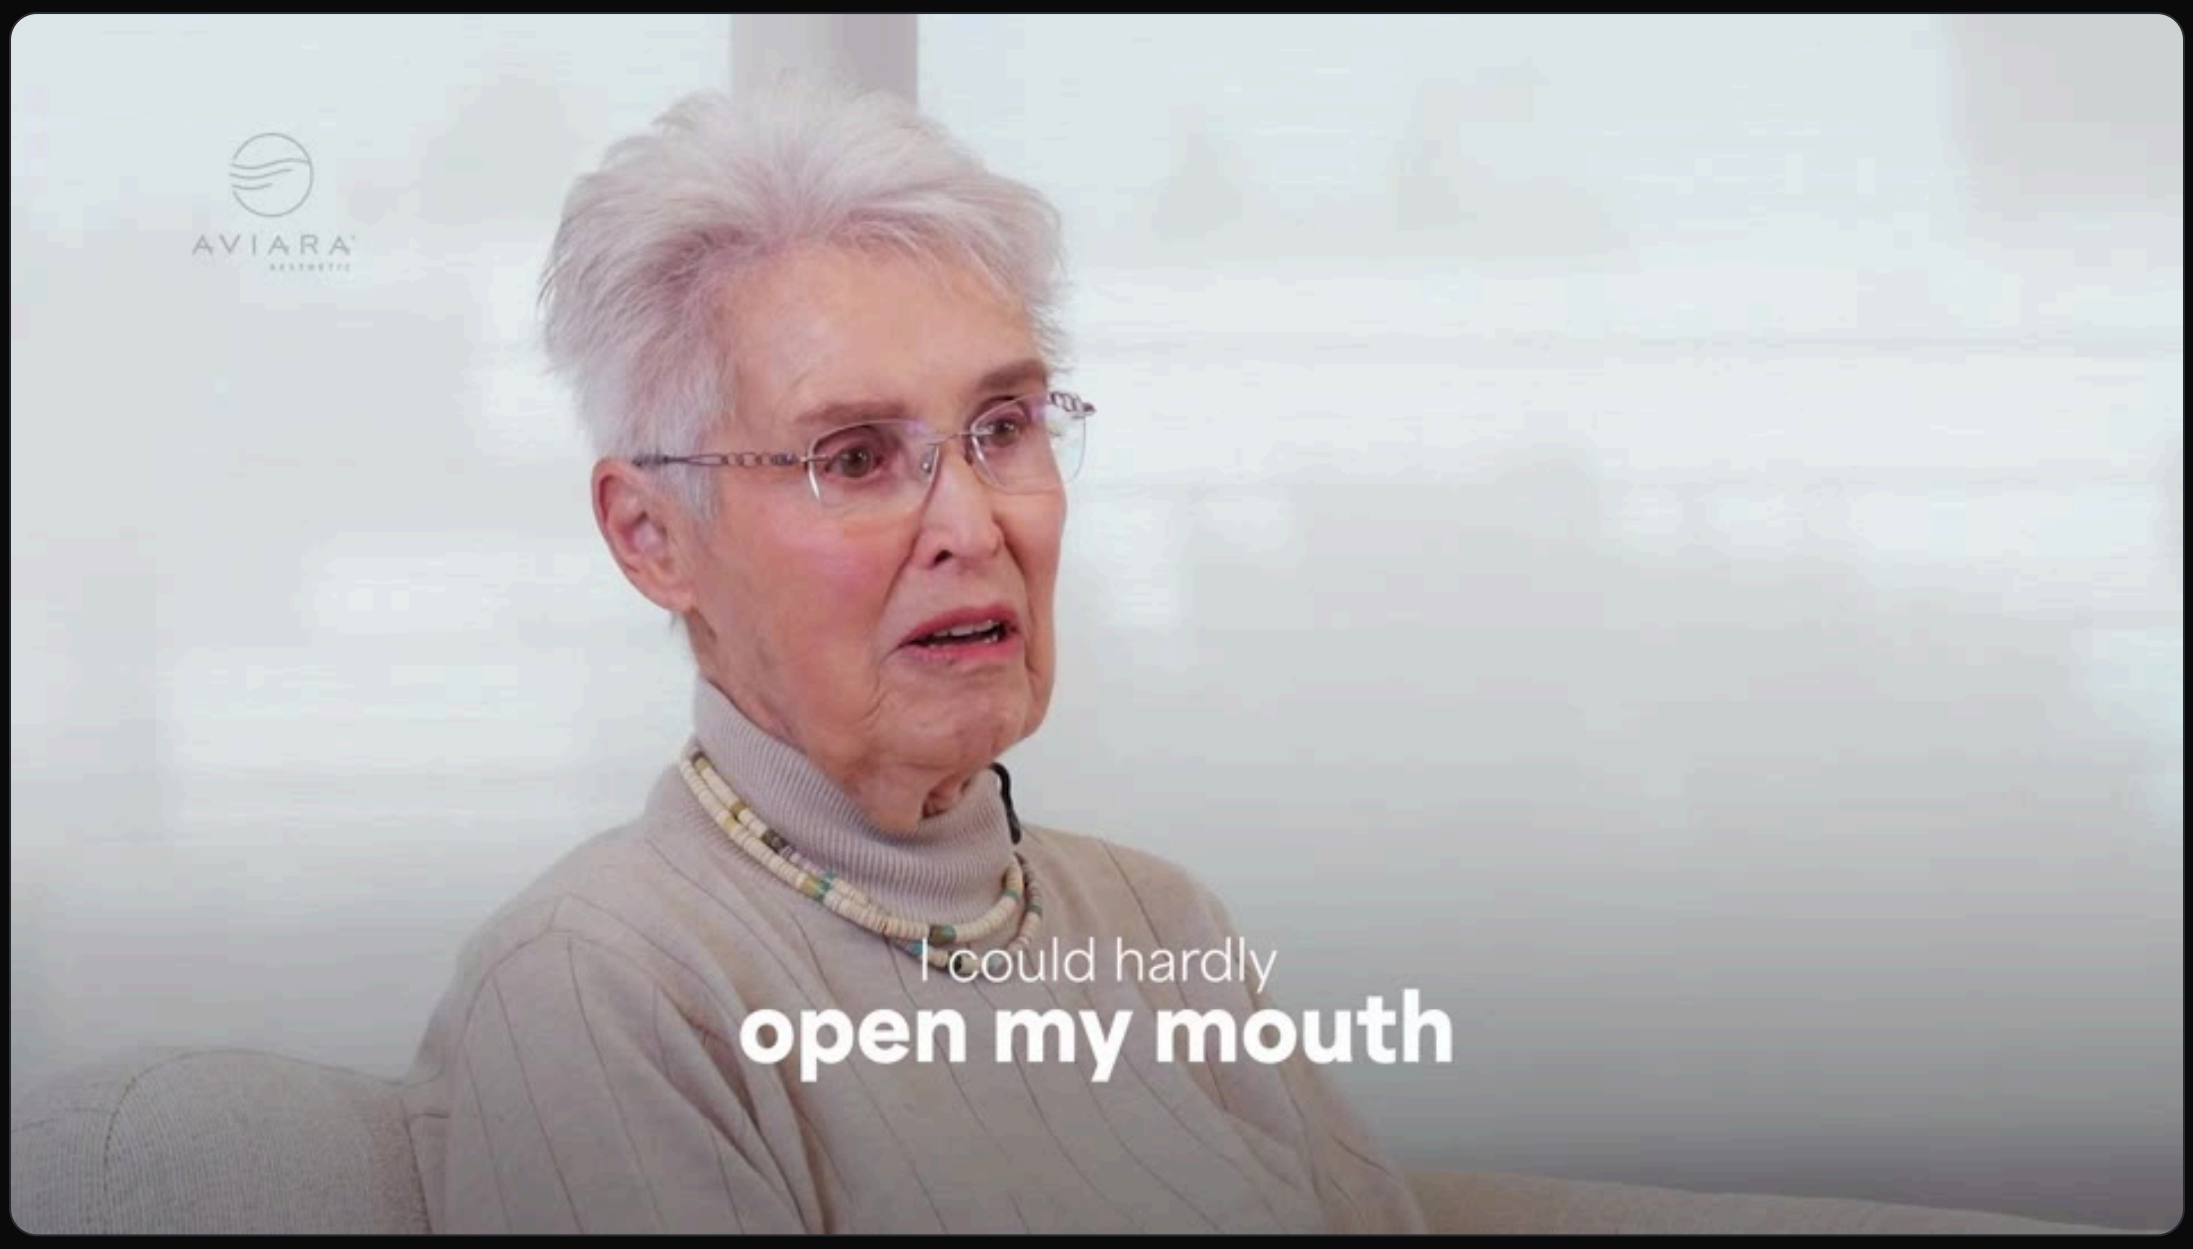

- Name super: thin sans serif, types on letter by letter, top right, then scrambles out.
- Logo bug: Aviara mark animates in large, then settles small in the top left corner.
- Captions: lower third, white, small and light. The key phrase in each line goes **bold and larger**.
- End card: cream fabric, Aviara logo, website URL.

HOW TO EDIT · BREAKDOWN 12 · TESTIMONIAL

The testimonial. Anne Nieto.

Anne came from Cyprus with years of jaw pain. Two cameras, no B-roll. The edit lets her pauses breathe and keeps her direct thank you to Dr. Ahn as the close.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #9: Testimonial, Anne Nieto (Video 12 of 13)
FORMAT	16:9 horizontal · 3840×2160 · 23.976 fps
RUNTIME	1:03
MADE FOR	Patient testimonial for social and the website

1:03	17	2	8.3s
total runtime	shots	camera angles	longest hold

WHAT TO STEAL

What makes a testimonial feel premium

Calm, bright, real. The patient talks, the edit stays out of the way.

Two angles, cut on the sentence

A wide and a medium of the same answer. **Switch angles at the end of a phrase** to hide the edits and keep it moving.

Name, then logo

Her name types on letter by letter in the first second. The Aviara logo animates in on the next cut and stays as a small bug.

One bold phrase per line

Captions are small and light. The emotional words go **bold and bigger**: the viewer can get the story from the bold words alone.

No jump cuts on the same angle

If you cut out a stumble, switch to the other camera. Never cut the same framing to itself.

THE STRUCTURE

Problem, meeting her, the change, the invite

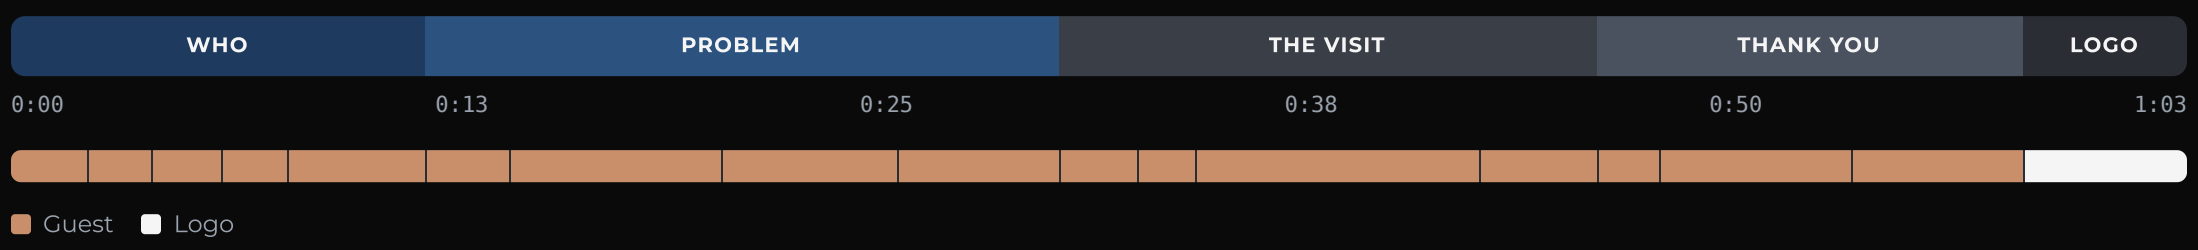

Who
0:00–0:12
From Cyprus, referred by her dentist.

Problem
0:12–0:30
Years of jaw pain.

The visit
0:30–0:46
They knew what they were doing.

Thank you
0:46–0:58
You can give a lot to the world.

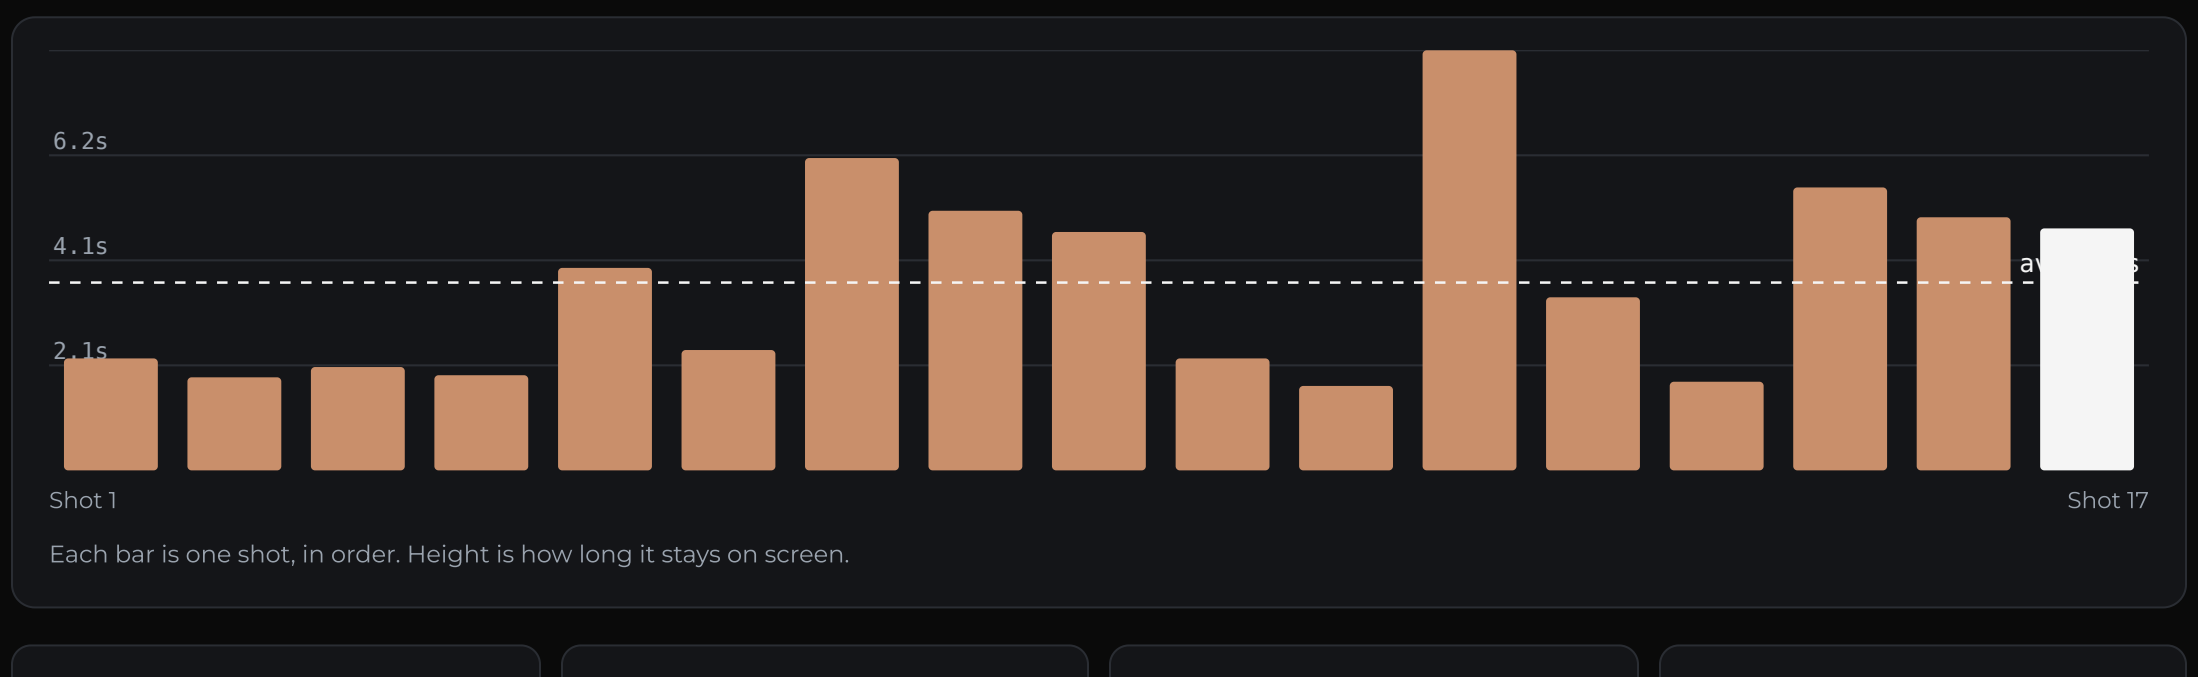

Logo
0:58–1:03
Logo card.

PACE

Cut on the sentence, not the clock

Shot length follows her phrasing. Short answers get short shots, the big moments hold.

Each bar is one shot, in order. Height is how long it stays on screen.

17
shots in 1:03

3.7s
average shot (median 3.4s)

1.7s
fastest: shot 11

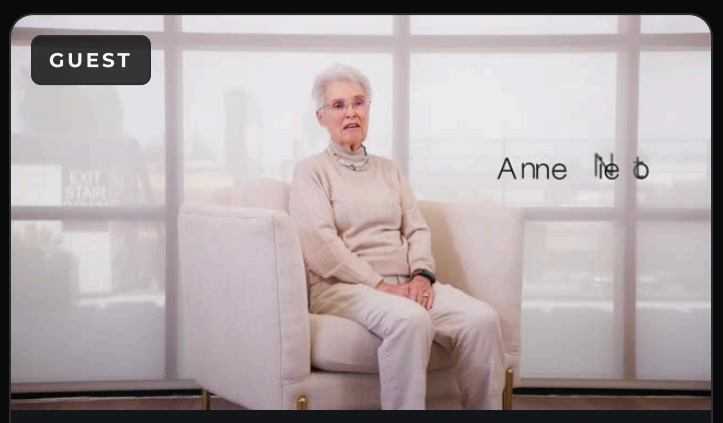

8.3s
longest hold: shot 12

- The longest holds land on the most emotional lines.
- The final talking shot carries the call to action, then the logo card.

SHOT BY SHOT

17 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

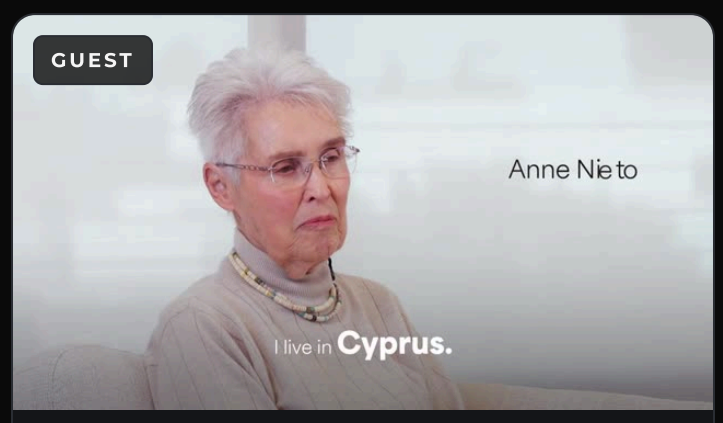

01 0:00.0–0:02.2 · 2.2s

Name super

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Name types on.

02 0:02.2–0:04.0 · 1.8s

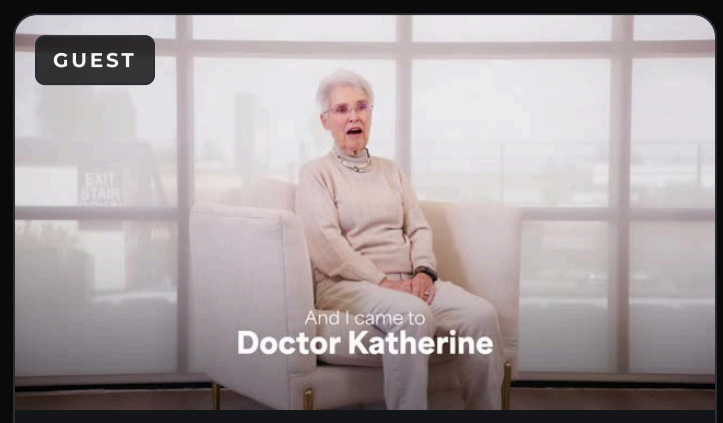

Where she lives

"I live in Cyprus."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "Cyprus".

WHY IT WORKS
Traveling from Cyprus says a lot without saying it.

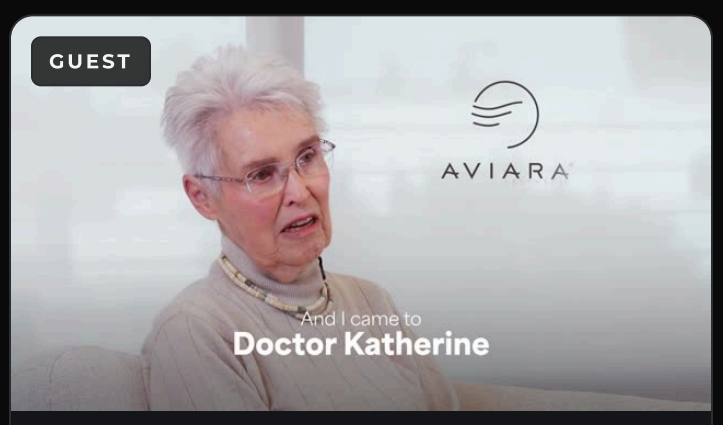

03 0:04.0–0:06.1 · 2.0s

How she found her

"And I came to Doctor Katherine"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "Doctor Katherine".

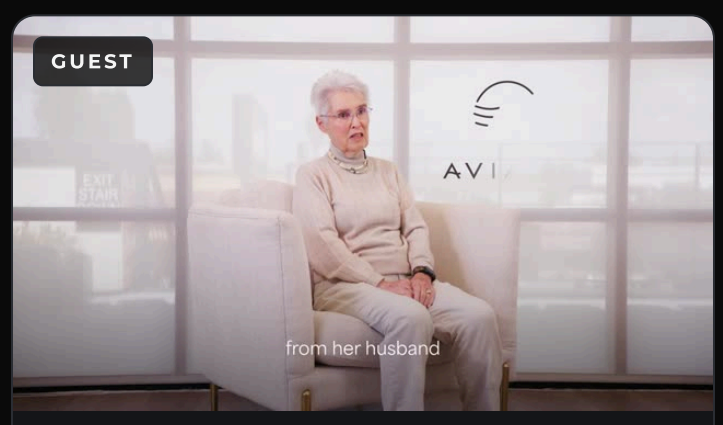

04 0:06.1–0:08.0 · 1.9s

Logo in

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Logo bug animates in large.

05 0:08.0–0:12.0 · 4.0s

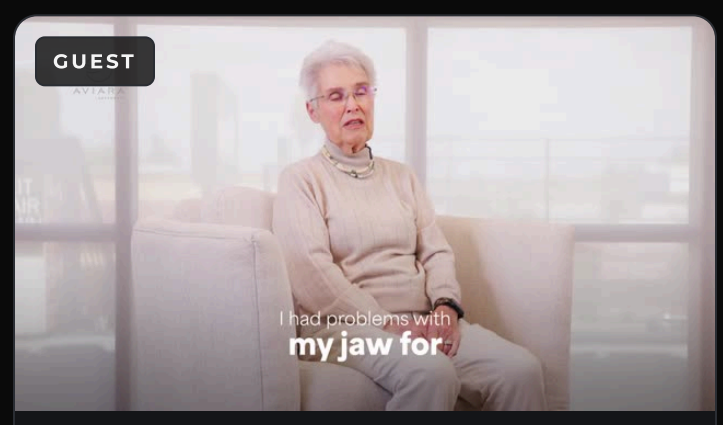

The referral

"as a recommendation from her husband who's my dentist"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Logo settles top left.

WHY IT WORKS
A referral from another dentist is strong proof.

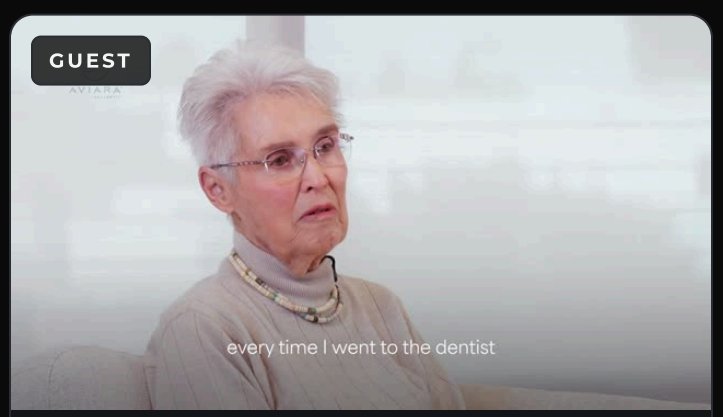

06 0:12.0–0:14.3 · 2.4s

The problem

"I had problems with my jaw for"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "my jaw for".

07 0:14.3–0:20.5 · 6.2s

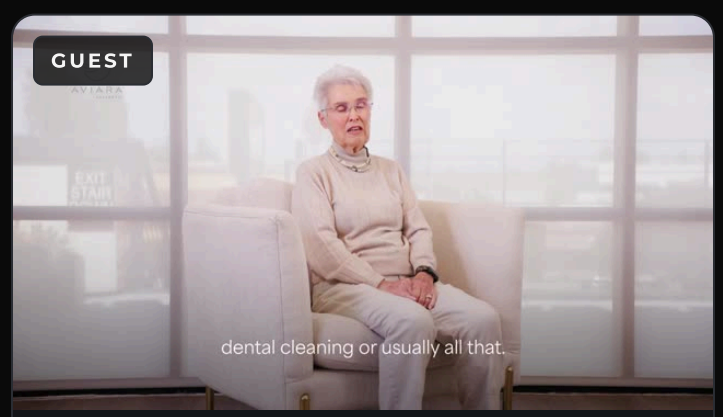

Getting worse

"quite a few years. And it was getting worse"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold phrases, holds 6 seconds.

WHY IT WORKS
The pain story gets time.

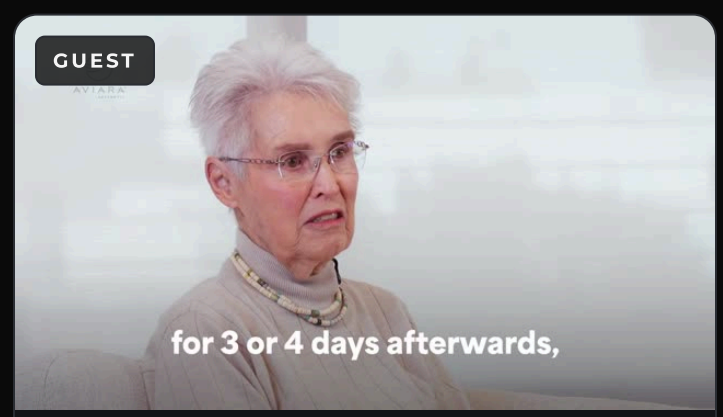

08 0:20.5–0:25.6 · 5.1s

Every cleaning

"every time I went to the dentist and had to open up my mouth so that they could do dental cleaning"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

09 0:25.6–0:30.4 · 4.7s

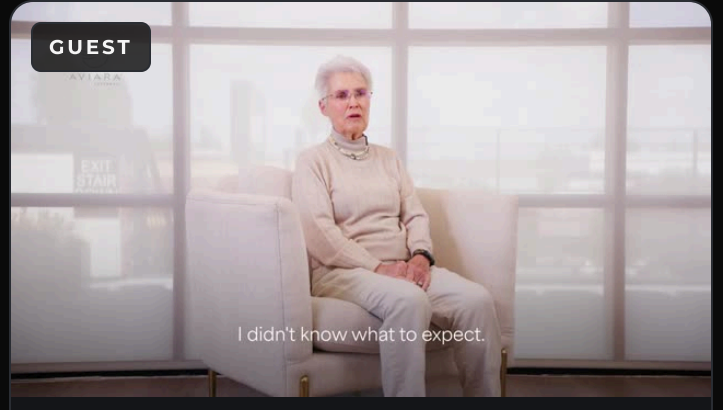

So painful

"I could hardly open my mouth for 3 or 4 days afterwards, and it was so painful."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold on each line.

WHY IT WORKS
The most emotional line, on the closer angle.

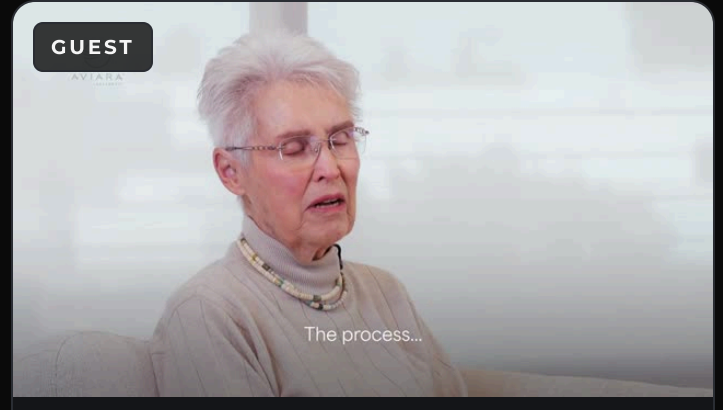

10 0:30.4–0:32.6 · 2.2s

Did not know what to expect

"I didn't know what to expect."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

11 0:32.6–0:34.2 · 1.7s

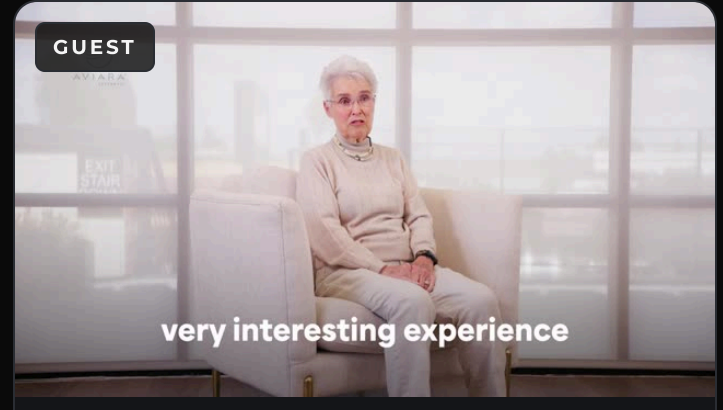

The process

"The process..."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Ellipsis caption, a pause.

WHY IT WORKS
Lets her pause breathe on screen.

12 0:34.2–0:42.5 · 8.3s

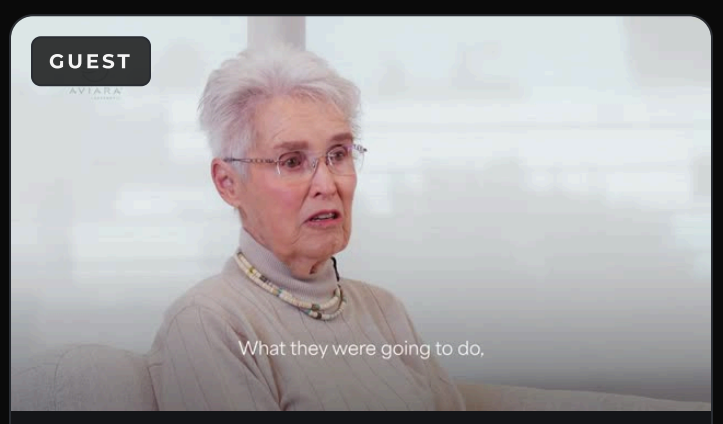

They knew

"they really knew what they were doing. And it was a very interesting experience"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "what they were doing".

WHY IT WORKS
Longest hold, 8.3 seconds.

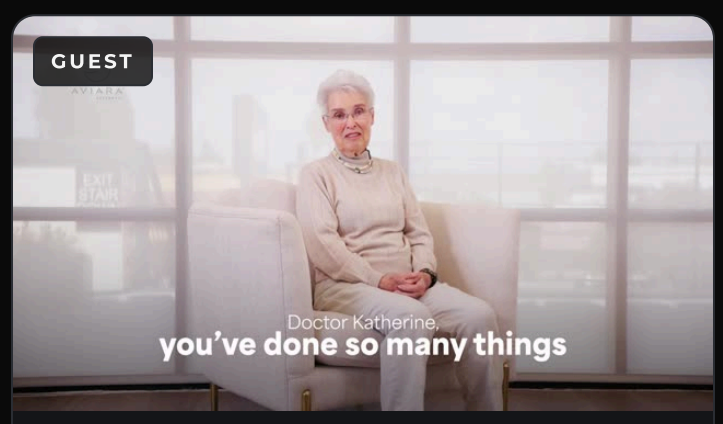

13 0:42.5–0:46.0 · 3.4s

They explained

"and they explained everything to me afterwards."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

14 0:46.0–0:47.7 · 1.8s

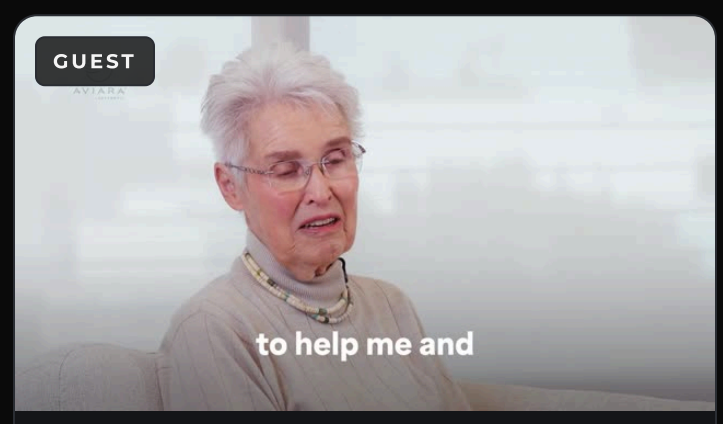

Talking to Dr. Katherine

"Doctor Katherine, you've done so many things"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
She speaks to Dr. Ahn directly.

WHY IT WORKS
A direct thank you is gold. Always keep it.

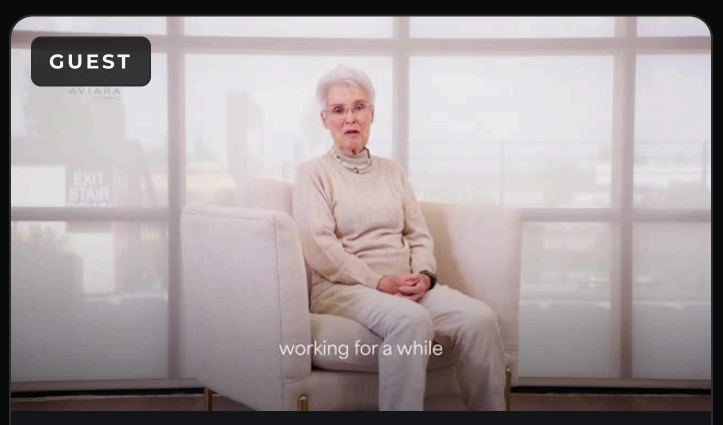

15 0:47.7–0:53.3 · 5.6s

Feel better

"to help me and make me feel better."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold lines.

16 0:53.3–0:58.3 · 5.0s

A lot to the world

"And you need to stay working for a while because you can give a lot to the world."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "a lot to the world", warm light leak.

WHY IT WORKS
Ends on a blessing, not an ad.

17 0:58.3–1:03.1 · 4.8s

Logo card

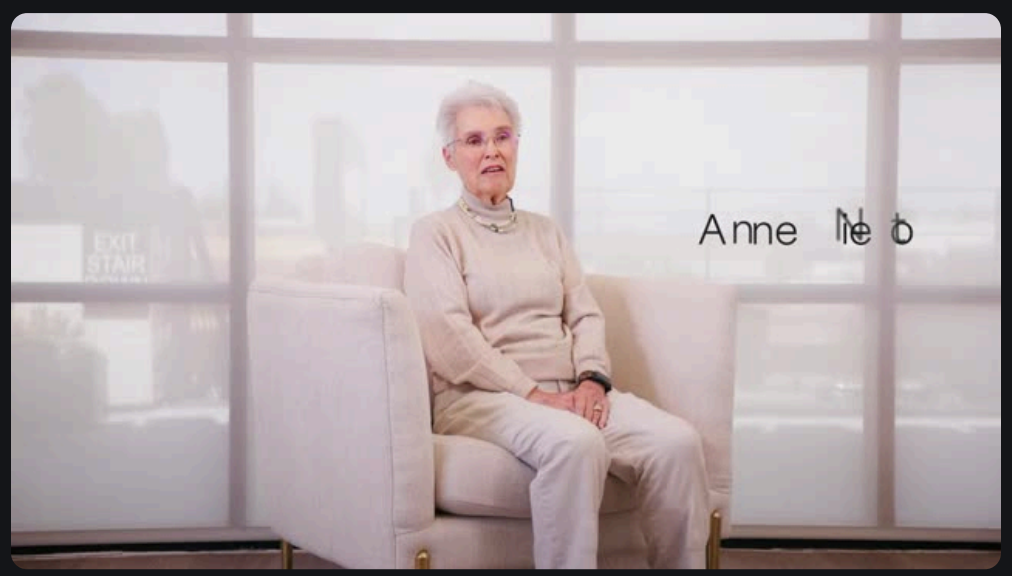

CAMERA

HOW TO EDIT · BREAKDOWN 13 · TESTIMONIAL

The testimonial. Denise Riley.

The longest testimonial at 2:17. Denise explains her custom mouthguard and how Dr. Ahn listened instead of pushing veneers. Three framings (wide, medium, tight) keep a long answer fresh with no B-roll.

CLIENT	Dr. Katherine Ahn · Aviara Aesthetic, Beverly Hills
VIDEO	Aviara #10: Testimonial, Denise Riley (Video 13 of 13)
FORMAT	16:9 horizontal · 3840×2160 · 23.976 fps
RUNTIME	2:17
MADE FOR	Patient testimonial for social and the website

2:17	21	3	6.8s
total runtime	shots	framings, no B-roll	average shot

WHAT TO STEAL

What makes a testimonial feel premium

Calm, bright, real. The patient talks, the edit stays out of the way.

Two angles, cut on the sentence

A wide and a medium of the same answer. **Switch angles at the end of a phrase** to hide the edits and keep it moving.

Name, then logo

Her name types on letter by letter in the first second. The Aviara logo animates in on the next cut and stays as a small bug.

Save the tight shot

The tight framing is only used twice: "I love it" and "very effectively". **The closest shot means the most important line.**

One bold phrase per line

Captions are small and light. The emotional words go **bold and bigger**: the viewer can get the story from the bold words alone.

THE STRUCTURE

Problem, meeting her, the change, the invite

Who
0:00–0:08
Met in San Clemente.

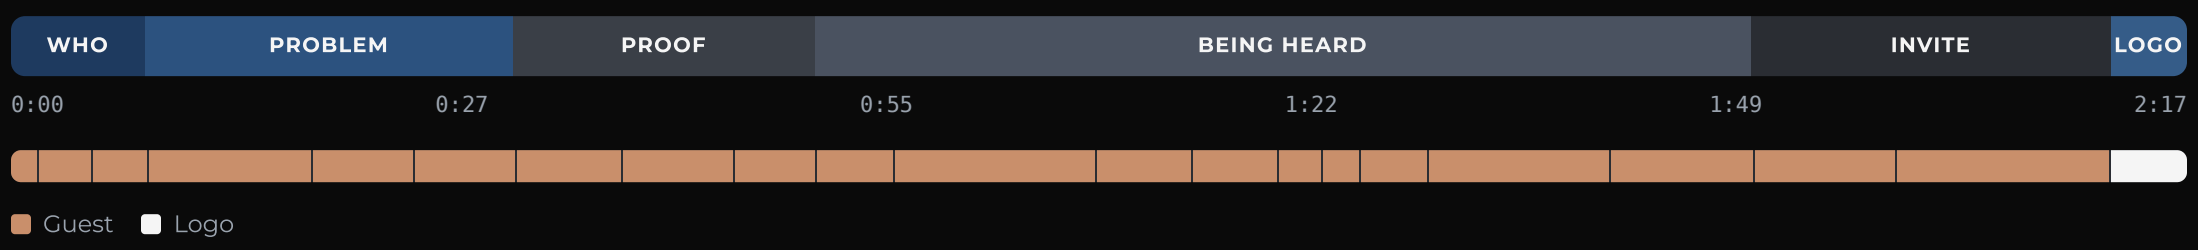

Problem
0:08–0:32
Bruxing, a unique mouthguard.

Proof
0:32–0:50
Four years, I love it.

Being heard
0:50–1:49
She did not push veneers, she listened.

Invite
1:49–2:12
I highly recommend.

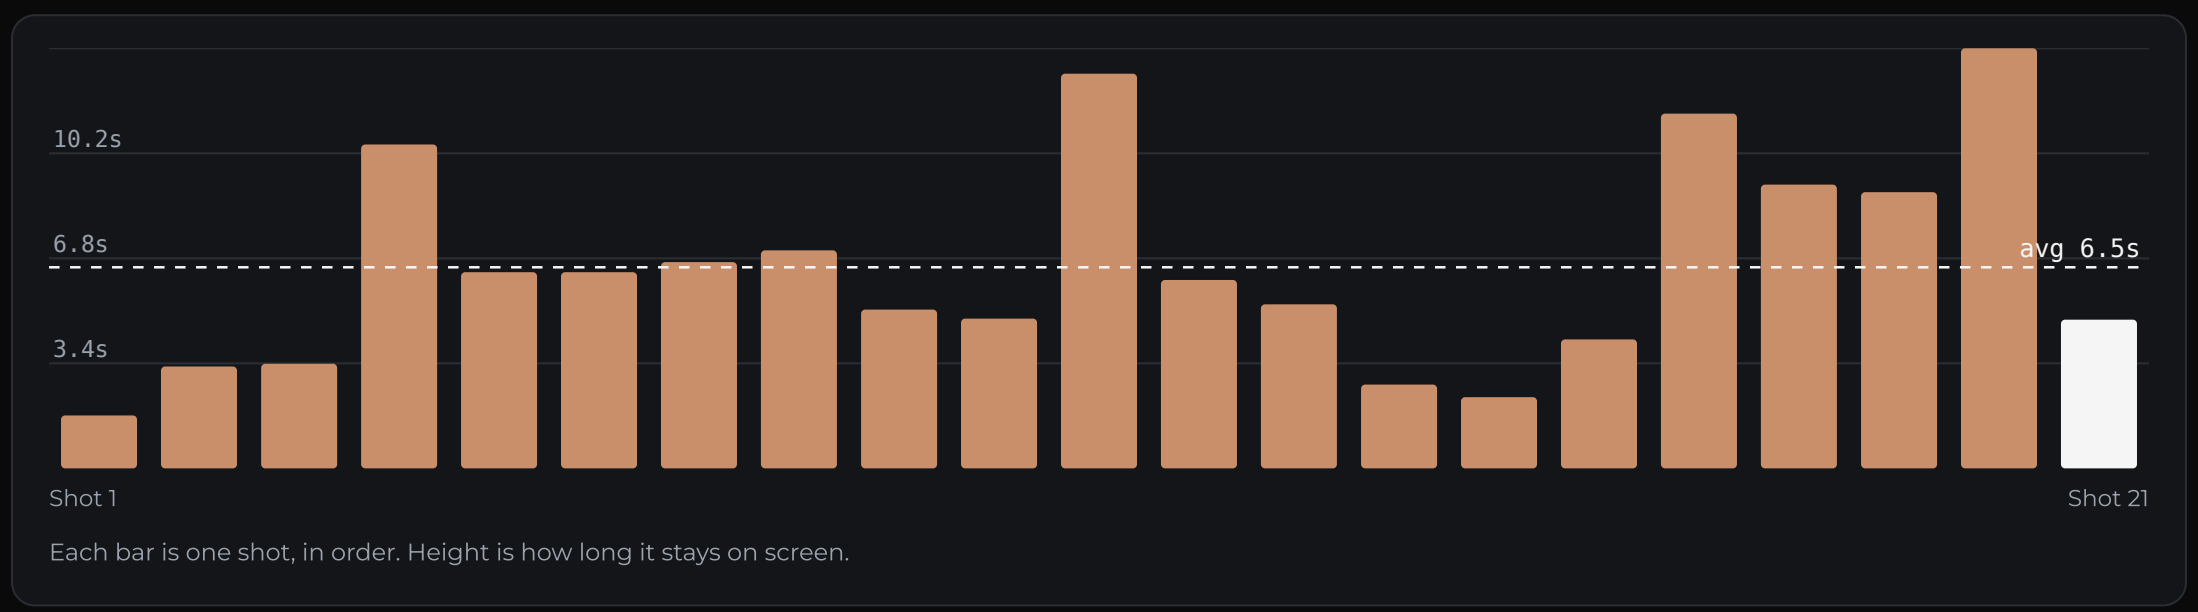

Logo
2:12–2:17
Logo card.

PACE

Cut on the sentence, not the clock

Shot length follows her phrasing. Short answers get short shots, the big moments hold.

21
shots in 2:17

6.5s
average shot (median 6.1s)

1.7s
fastest: shot 1

13.6s
longest hold: shot 20

- Longer answers get longer shots: average 6.8 seconds.
- For a 60 second social cut, keep the problem, "I love it", "she listened" and "highly recommend".

SHOT BY SHOT

21 shots, each one playing

Every clip loops the actual shot from the final edit. Camera is what the shooter did, Edit is what we did with it.

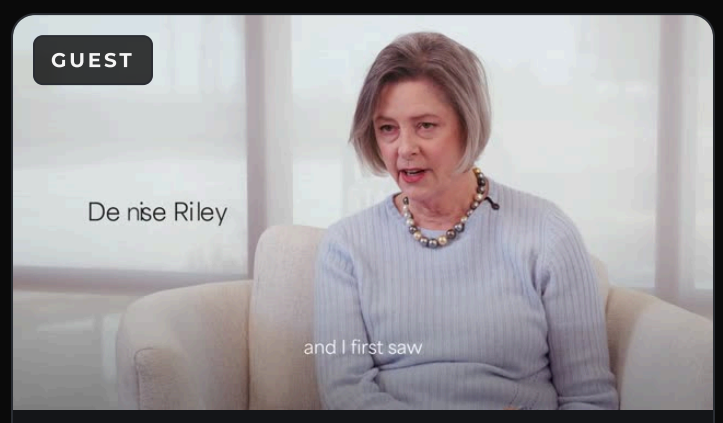

01 0:00.0–0:01.7 · 1.7s

Name super

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Name types on.

02 0:01.7–0:05.0 · 3.3s

Where she met her

"and I first saw Doctor Katherine in San Clemente"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "San Clemente".

03 0:05.0–0:08.4 · 3.4s

Logo in

"And at that time, I told her"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Logo bug animates in large, then settles.

04 0:08.4–0:18.9 · 10.5s

The grinding

"that due to my bruxing and grinding of my teeth, that I needed to get a mouthguard"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "bruxing", "grinding", "mouthguard". Holds 10.5 seconds.

WHY IT WORKS
The technical words go bold, so viewers learn them.

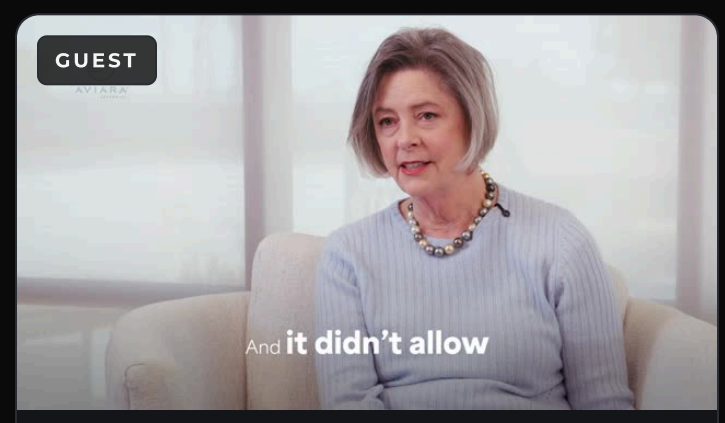

05 0:18.9–0:25.2 · 6.3s

A unique mouthguard

"she had developed a unique mouthguard that didn't fit on the top"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "a unique mouthguard".

06 0:25.2–0:31.5 · 6.3s

How it works

"but rather fit on the bottom. And it didn't allow you to touch your teeth together."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold phrases.

07 0:31.5–0:38.2 · 6.7s

No more problems

"So you didn't grind, and you didn't wear down your teeth. And you also didn't create problems with your jaw."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Wide from a slightly tighter position.

WHY IT WORKS
A third framing keeps a long answer fresh.

08 0:38.2–0:45.3 · 7.0s

Four years

"And I've been wearing it for four years now"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "four years now".

WHY IT WORKS
Proof that it lasts.

09 0:45.3–0:50.4 · 5.1s

I love it

"and it's still good. And I love it. I don't go a night without it."

CAMERA
Tight (B cam pushed in): chest up, window blown out behind.

EDIT
Tight angle for the strongest line.

WHY IT WORKS
The tightest shot lands on "I love it".

10 0:50.4–0:55.2 · 4.8s

She did not push

"Doctor Catherine did not push veneers when I met with her."

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

11 0:55.2–1:08.0 · 12.8s

She listened

"What she did was address my concerns about my grinding. She listened to me, and she understood"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold phrases, holds 12.8 seconds.

WHY IT WORKS
Being heard is the emotional core.

12 1:08.0–1:14.1 · 6.1s

Every night

"that I wanted to have a mouth guard that worked for me every night. At that time, she never pushed veneers or bonding"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

13 1:14.1–1:19.4 · 5.3s

Effectively

"She addressed my concern very effectively and efficiently."

CAMERA
Tight (B cam pushed in): chest up, window blown out behind.

EDIT
Bold "very effectively", "and efficiently".

14 1:19.4–1:22.1 · 2.7s

When I spoke with Dr. Ahn

"When I spoke with Dr. Ahn,"

Wide (A cam): full body in the cream armchair, big window behind, subject off center.

15 1:22.1–1:24.4 · 2.3s

She not only looked

"She not only looked"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

16 1:24.4–1:28.5 · 4.2s

At my concerns

"at my concerns about my grinding, but she also looked at what"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Same angle, slight reframe.

17 1:28.5–1:40.0 · 11.5s

Philosophy

"my philosophy or my psychology was in terms of why I was grinding my teeth and for how long"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "philosophy", "psychology".

18 1:40.0–1:49.2 · 9.2s

Make that better

"And how we could make that better. And she really utilized getting me into the decision making process."

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "make that better".

19 1:49.2–1:58.1 · 8.9s

Looking for someone

"If you're looking for someone who will really improve your smile and your confidence"

CAMERA
Wide (A cam): full body in the cream armchair, big window behind, subject off center.

EDIT
Bold "looking for someone".

WHY IT WORKS
The invitation starts.

20 1:58.1–2:11.7 · 13.6s

Highly recommend

"I really highly recommend that you have the work done with Doctor Ahn"

CAMERA
Medium (B cam): from a second angle, waist up, background soft.

EDIT
Bold "highly recommend", "with Doctor Ahn". Warm light leak.

WHY IT WORKS
A recommendation is the strongest CTA.

21 2:11.7–2:16.5 · 4.8s
