ADIT ORGANIC GROWTH | ROADMAP TO YEAR END

We don't have a content problem. We have an audience problem.

Puro Flow now has a bank of reels, a daily posting rhythm and a live content calendar. The next step is getting new doctors and office managers to follow Adit every single month, so every post, every challenge and every ManyChat campaign reaches more of them. This is the plan to do it, and what we need from the Adit team to make it happen.

1 Where we are today (live Instagram numbers)

1,481
@get_adit followers (Oct 28). In August the account was flat at about 1,404.

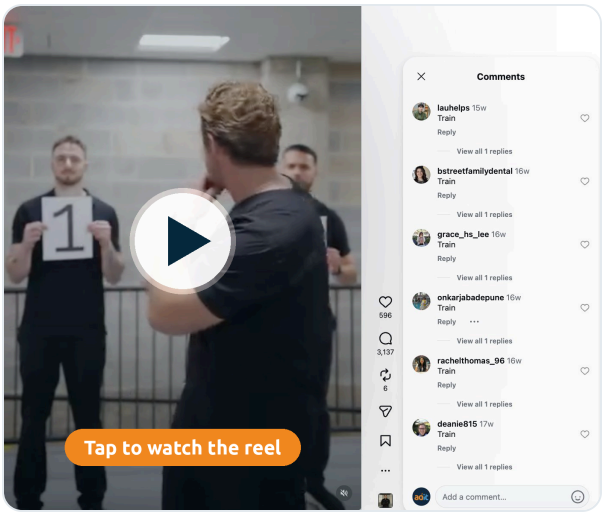

+44
new followers in October, the month the Review Challenge launched

70
comments on the challenge launch carousel, our most commented post ever

0
CHALLENGE comments from the ~150 to 200 demos completed this month. The ask isn't being made yet.

Source: Metricool, @get_adit, Aug 1 to Oct 28, 2026. Demo count per Josh, mid October.

2 Proof: one doctor post, 3,000+ new followers

This is a reel we wrote and filmed shot by shot with **Dr. Nick**, a doctor with a real following, as a collab with the Facebook group that sponsored him. The caption asked people to comment **TRAIN**. ManyChat was set up so the DM only delivers once they **follow the account**.

3,137
comments on one post

3,000+
new followers for the sponsoring group

100% organic. No ads. That single post grew an account by nearly **70 times** what @get_adit grew in all of October.

Why it worked: a trusted doctor asked his audience to do one simple thing, and ManyChat turned every comment into a follower and a captured lead. That is the exact engine we want to run for Adit, every month.

3 How ManyChat turns a comment into a follower and a lead

Comment
A doctor or OM comments a keyword (CHALLENGE, TRAIN, CONTENT)

›

Instant DM
ManyChat DMs them in seconds

›

Must follow
The DM only unlocks once they follow @get_adit

›

Captured
Industry, practice name, best email or phone

›

Demo campaign
Every capture gets a "book a demo" DM

Email is one campaign. ManyChat on social is its own campaign: not everyone checks email, but everyone is on their phone. And once someone follows, every new post we publish is another chance to re-trigger them.

THE ENGINE

adit

Four sources of new followers, repeated every month.

Each one is strong on its own. Combined, and run on repeat every month, they compound: the follower list keeps everyone from before, and every new challenge requires new tags and new eyes.

1 The four engines

ENGINE 1 · THE NEXT PHASE

Doctor influencers, one per vertical

We have a shortlist of **4 doctors per vertical** (dental, ortho, chiro, opto) with **10K+ followers** each. Each one makes a collab post with Adit that carries its own ManyChat keyword, so their followers have to follow @get_adit to get the DM. This is the Dr. Nick play, built for Adit. Proposed: about **$1,000 per collab post**.

ENGINE 2

Trade shows: one per vertical

Puro Flow at **one major conference per vertical** instead of only ortho. Speakers announce the challenge from the stage, the booth enters every passerby, and a current Adit client doctor from that vertical announces it on camera. At WOCON, Shelley had 100+ doctors in the room and we captured none of them.

ENGINE 3

A challenge every month

Entering means **following @get_adit** and commenting the keyword. Bonus points for tagging **5 to 10 colleagues outside their own office**. Past entrants can rejoin, but only by tagging 5 *new* people. One entrant = up to 11 new contacts.

ENGINE 4

Facebook groups that point to Instagram

Adit already sponsors 60 to 100+ groups across the four verticals. Every group post links to the pinned challenge post on @get_adit, where ManyChat only lets you enter once you follow. Groups become a follower feed, not just a place we post.

Plus the multiplier we already pay for: the sales floor. Adit completes 150 to 250 demos a month. If every demo and every Junior AE call spends 20 seconds on the challenge, that is 150+ new entrants a month before we spend a dollar. Gokul asked whether a challenge every month would wear people out. Our answer: the prize, the theme and the audience change every month (new conferences, new tags, new followers), so it never repeats for the same eyes.

2 December challenge: the prize is a Puro Flow photo and video shoot

1st

Full branded photo + video shoot

Website hero photos, a YouTube hero video and a set of reels for their practice

2nd

Photo shoot + 1 hero video

New photos for their office and one hero video

3rd

Photo shoot

Professional photos for their website and socials, no video

$1,750

paid out in cash prizes for October's challenge

~$300

what a shoot prize costs Adit: a flight. Our second videographer travels with us at no extra cost.

The real win: we're in their office

While we're on site we film Adit testimonials, funny relatable reels and other doctors in the practice. A happy winner says yes to everything.

This also fixes our biggest gap: today it's mostly Josh on camera, and almost all our conference footage is ortho. Every winner's office gives us a new doctor, a new vertical and new voices for Adit.

THE ROADMAP

November to Q1: what happens, and when.

adit

Every Monday the content calendar link (adit.puroflowmedia.com/calendar) goes to the team with the week ahead, and we review revisions on the Wednesday call. The goal is to plan a month ahead and pivot fast when something takes off.

November — BUILD

- **Nov 1: October winners announced** on every platform: Breeze $1,000, Cook $500, Canton $250
- NEW **Waitlist month:** every comment on any post gets the waitlist DM, capturing practice, name and email for December
- NEW **Winner stories:** Breeze, Cook and Canton film themselves in their offices on what worked, what didn't and why reviews matter. Collab posts with Adit
- **Demo offer DM** to everyone who didn't win: book and complete a demo, get a $50 Amazon gift card (needs Adit sign-off)
- **Sales floor ask** starts: every demo and Junior AE call pitches the waitlist
- **Facebook groups:** round 1 week of Nov 2, round 2 week of Nov 16
- **Two posts a day** per platform
- **Client doctor shoots:** a periodontist (about 10 reels on Adit) and a chiropractor, in their offices
- **First chiro show** and **influencer outreach** to the 16 shortlisted doctors

December — LAUNCH

- NEW **December challenge** launches to the whole waitlist; past entrants rejoin by tagging 5 new people
- **The prizes are Puro Flow shoots:** 1st, a full branded photo and video shoot of their office. 2nd, one hero video plus office photos. 3rd, an office photo shoot
- **Why it matters:** while we're in each winner's office we capture Adit content (testimonials, reels, B-roll) without Adit paying production costs
- **First influencer collabs live:** one per vertical, each with its own ManyChat keyword
- **Post-challenge demo campaign** to the full captured list, doctors and OMs only
- **Dr. Rita Chuang** office shoot (she has invited us)
- **Funny, relatable content** rolls out: top doctor-influencer reels recreated with current Adit clients
- **Year-end recap** with every number, and the 2027 plan

Q1 2027 — COMPOUND

- **January:** December winners' shoots in their offices, plus Adit testimonials and reels with their teams
- **One challenge a month**, a new theme and prize each time
- **One conference per vertical** a month, with a client doctor announcing on stage
- **One influencer collab per vertical** a month
- **Every Facebook group post** feeds the next challenge
- **Paid only behind proven winners:** boost the organic posts that already worked

10,000

followers: our north star. A following that size is mostly doctors and office managers, which means thousands of practices hearing from Adit every day.

1 How the month repeats

WEEK 1

New challenge launches. Influencer collab drops. Past entrants rejoin by tagging 5 new people.

WEEKS 2 TO 3

Leaderboards keep it competitive. Conference and booth push. Groups link to the challenge.

WEEK 4

Winners announced. Winners film their story. Shoot booked. Results posted.

AFTER

The whole captured list gets the waitlist DM and the "book a demo" campaign. Then it starts again, bigger.

LOCK IN

This only works if the whole Adit team is behind it.

Puro Flow builds the content, the challenges and the ManyChat flows. The Adit team has the reach: the demos, the booths, the speakers and the clients. Here is what we need, and who owns what.

1 What we need from Adit

#	THE ASK	WHY IT MATTERS	OWNER
1	**Every demo and every Junior AE call asks for the comment.** 20 seconds in the first minute: comment the keyword on @get_adit, follow, done.	150 to 250 doctors a month already talk to us. Today none of them are asked.	Sales leadership, AEs, Junior AEs
2	**Line up the stage.** BDs brief every speaker and partner before each event, and introduce us to one current client doctor per vertical to announce the challenge.	One 2-minute announcement reaches 100+ doctors at once.	BDs: Dental, Ortho, Chiro, Opto
3	**Send Puro Flow to one conference per vertical,** about one a month.	New eyes, new verticals, new client doctors on camera.	Josh, Dustin, Elicia
4	**Approve the shoot prizes** for the next challenge and cover the flight.	About $300 instead of $1,750, plus in-office Adit content.	Josh, Dustin
5	**Approve an influencer budget:** about $1,000 per collab post, starting with one per vertical.	One doctor post drove 3,000+ follows for the group that sponsored it.	Josh, Dustin
6	**Approve the post-challenge demo offer** ($50 Amazon gift card for a completed demo).	Turns everyone who didn't win into a demo. Worth a quick legal read first.	Dustin
7	**Ortho Facebook group access** (we have 0 of 14 today).	Ortho is our strongest footage and our weakest group reach.	Gokul
8	**Josh and Dustin on the Wednesday call once a month.**	Fast yes or no on challenges, prizes and budget, so ideas don't stall.	Josh, Dustin

2 Who owns what

Puro Flow Media

- Daily content on every platform, moving to two a day
- Monthly challenge creative, leaderboards and daily posts
- ManyChat flows, keywords and the demo campaign
- Influencer outreach, scripts and shoot plans
- Conference filming, client doctor testimonials, winner shoots
- Facebook group post menu per vertical
- Content calendar every Monday, with live numbers

Adit team

- **Sales leadership:** make the 20-second ask part of every demo and call
- **BDs:** brief speakers and partners, intro one client doctor per vertical
- **Booth staff:** enter every doctor and OM who walks by
- **Gokul:** group access, and his team in the groups pulling the numbers
- **Josh and Dustin:** green light on prizes, influencers and conferences

The bottom line: trade shows + doctor influencers + a monthly challenge + Facebook groups, all pointing to one follow, run every month. Every cycle grows the list, every follower is a captured lead, and every lead gets invited to a demo. That is how Adit wins organic social in 2027.
