$200
Amazon gift card: $50 after the demo, $150 more on an annual plan

Nov 30
offer ends, so the urgency is real

INSIDE

1. The plan on one page · 2. Video script + shot list · 3. The ManyChat game, message by message · 4. Facebook groups playbook · 5. Launch checklist

HOW IT WORKS

A doctor comments one word. The DM does the rest.

The demo form on adit.com has 7 fields and a blue Submit button. Nobody gets excited about that. We turn the same questions into a quick DM game with a prize at the end, so the doctor never leaves Instagram.

1

Felipe films one 35 second video

Big offer, simple ask: comment DEMO. Posted on @get_adit (Reel + Facebook) and shared into dental Facebook groups.

2

Doctor comments "DEMO"

ManyChat replies to the comment publicly ("Check your DMs Doc 📬") and opens the DM in seconds.

3

Follow + the 60-second speed round

Follow @get_adit, tap "I'm following ✅", then 6 quick questions with an orange progress bar. Most answers are one tap.

4

Same fields as the website form

PMS, practice name, work email, role, work phone and full name. Email and phone are validated in chat.

5

"Speed round complete" + hand-off

Doctor gets the offer recap and a "Book my demo 📅" button. The lead is tagged BF Demo Lead and the team gets notified to book the 30-minute demo.

Why it's fun

It feels like a race, not a form. A progress bar, a finish line and a deal waiting at the end. Doctors finish games.

Why it converts

The gift card is the reason to finish. Every answer is one tap or one short reply, and the deadline is Nov 30.

BLOW IT UP, WITHOUT GETTING KICKED OUT

The Facebook groups playbook

Heads up: ManyChat can only auto-DM people who comment on **Adit's own** Instagram posts or DM @get_adit. Comments inside Facebook groups won't trigger it. So in groups we send people to Instagram: comment DEMO on the Reel, or DM the word DEMO.

1. DM "DEMO" works too

The game also starts when someone DMs the word DEMO to @get_adit. So in any group, comment or bio, send people to **ig.me/m/get_adit** and tell them to type DEMO.

2. Reply by hand in groups

When someone comments DEMO in a group, reply: "Sent! Tap here and type DEMO 👉 ig.me/m/get_adit". Takes 5 seconds each.

3. Value first

Read each group's promo rules. Lead with the video and a real question ("What's your #1 front desk headache?"), not a sales pitch.

4. Pace it

3 to 5 groups a day max, different caption each time. Posting the same text everywhere gets flagged as spam.

Group post caption (rotate these)

"Doctors, quick question: what's the #1 villain at your front desk right now? Missed calls, no-shows, reviews or paperwork? 👇

Adit is running a Black Friday deal this month: up to 40% off your first year + a $200 Amazon gift card just for taking a 30 minute demo. Comment DEMO here, or DM the word DEMO to @get_adit (ig.me/m/get_adit). Ends Nov 30."

"Office managers 🤦 if your phones never stop ringing, this one's for you. Adit's AI front desk picks up when your team can't. Black Friday deal through Nov 30, comment DEMO and I'll send it over."
